**Executive Summary** 

2015-16 Second Interim Report

**Background:** Education Code Section 42130 requires school districts to prepare interim financial reports each year. The intent of these reports is to provide an "early warning" system to indicate whether a district can meet its current or future years financial obligations.

The requirement includes filing two interim financial reports during the year. The First Interim Report, as of October 31, requires Board approval by December 15. The Second Interim Report, as of January 31, requires Board approval by March 15. The interim reports must include a certification of whether or not the LEA is able to meet its financial obligations. The certifications are classified as positive, qualified, or negative. A positive certification is assigned when the district will meet its financial obligations for the current and two subsequent fiscal years. A qualified certification is assigned when the district may not meet its financial obligations for the current or two subsequent fiscal years. A negative certification is assigned when a district will be unable to meet its financial obligations for the remainder of the current year or for the subsequent fiscal year.

Districts must submit the completed reports for review to the County Office of Education who then either agrees with the district's certification or changes it based on what their reviews tell them. That final certification is then submitted to the State of California.

This is the second of two interim financial reports presented to the Board of Education for the 2015-16 fiscal year. This report provides financial information as of January 31, 2016. The second interim budgets are compared to the adopted budgets.

### **Financial Report Information**

This Executive Summary includes an overview of the financial data reported in the SACS (Standardized Account Code Structure) Second Interim Report, as well as additional information to assist in understanding the information being reported on the SACS forms.

California school district revenues and expenditures are subject to constant change throughout the year. School district budgets are not static, but instead are constantly being revised to respond to decisions at the state and federal levels, as well as to the expenditure needs of the district. The Second Interim Report's financial projections have been updated to reflect information received since the budget adoption in June.

The interim report projects the general fund financial status through year-end, June 30. A multi-year projection is also required to determine if the district will be financially solvent for the current year, as well as two subsequent years. A cash flow projection is also required to determine if the district will have enough cash to meet its financial obligations through June 30.

The Second Interim Report also includes supporting documents such as the Local Control Funding Formula (LCFF) funding calculation, Average Daily Attendance (ADA) estimates, and the Criteria and Standards report.

The district has completed an in-depth review of all budget lines with revisions occurring as deemed necessary and appropriate. This report includes assumptions and projections made with the best and most up-to-date information available at this time.

### **LCFF Funding**

LCFF funding is based on student attendance and is the dollar amount for each student that is in attendance on average during the course of the school year. While many of the elements used to calculate ADA remain unchanged under the LCFF, the basic calculation of the target grant begins with a measurement of ADA by grade span.

The most distinct difference between revenue limit funding and the LCFF relates to the role and impact of Cost of Living Adjustments (COLA) during the transition years. Under revenue limit funding, COLAs (and their deficits) played the central role in determining increases in year-over-year funding. Under the LCFF, COLAs are one step in the formula's calculation which has four driving factors:

- ADA LCFF funding is calculated on ADA by grade level
- Annual COLA
  - Determined by the implicit price deflator as set in May by the Department of Finance
    (DOF) for the budget year and estimated by the DOF for the two subsequent years for use
    in the multi-year projections (MYPs)
  - Applied to Grade Level Base Grants, which then drives grade span adjustment and supplemental and concentration grant calculations
- Unduplicated Percentages Certified with Fall 1 CALPADS data (applied to supplemental and concentration grant calculations)
- Percentage of Gap Funding During Transition
  - Set by the DOF for the current year based on the State budget and estimated by the DOF for the two subsequent years for use in MYPs

A district's LCFF starts with historical funding for state aid, as amended for growth (or decline) in ADA, and for most state categorical programs. This total is then subtracted from the district or charter school's target LCFF amount to measure the funding gap. The percent of gap funding provided in this year's budget is then added to the historical base to arrive at the LCFF transition amount for the 2015-16 fiscal year and two subsequent years. The DOF is still projecting full implementation of LCFF to occur in 2020-21.

#### **General Fund**

The General Fund is used to account for the general day-to-day operations of the district. It is used for all financial resources except those required to be accounted for in other funds.

The General Fund is divided into two sections, unrestricted and restricted. Restricted funds are monies received by the district that are categorical in nature, i.e., they can only be used for the purposes allowed by the funding agency.

### **Unrestricted Beginning Fund Balance**

The final General Fund unrestricted ending fund balance for 2014-15 was \$59,341,996 and is carried forward as the beginning fund balance in the 2015-16 year.

### **Unrestricted Ending Fund Balance**

The 2015-16 projected General Fund unrestricted ending fund balance is \$33,572,320. A major change to the unrestricted general fund budget from budget adoption is the creation of the 24 school counselors to address our LCAP goals.

### **Restricted Revenues and Expenditures**

Restricted revenue is recognized in two ways. For funding subject to deferred revenue (unearned revenue), the revenue is only recognized once it is spent. This means that any funds received and not spent are deferred into the next fiscal year. For funding subject to ending fund balance, the revenue is recognized in the year received and any funds remaining at the end of the year are recorded as a legally restricted ending fund balance.

The Second Interim Report demonstrates the carryover of prior year funds through the update in restricted fund balance and the posting of deferred revenue from 2014-15 into the books for 2015-16. The carryover is then appropriated to the expenditure accounts according to grant guidelines and school site plans.

The 2015-16 projected General Fund restricted ending fund balance is \$1,807,358.

### **Multi-Year Projections (MYP)**

Districts are required by law to project revenues and expenditures for the budget year and the two subsequent fiscal years. In order to make multi-year projections, districts rely on a variety of assumptions and sources of information available at the point in time the projections are created.

The further into the future a projection is made, the greater the likelihood that the variables used to create the projection will deviate from assumed values. Subsequent year projections are predicated by trying to forecast variables that are entirely outside the control of the district, including the actions of current and future elected officials and the direction of the global, national, and state economies. The implementation of LCFF has in some ways increased the uncertainty for districts due to the simple fact that funding varies from district to district based on student population.

The multi-year projection for the Second Interim Report utilizes the recommended assumptions published by School Services of California and the DOF for the development of revenue projections. The current DOF estimates for LCFF gap funding in 2015-16, 2016-17, and 2017-18 are as follows:

| Year                           | 2015-16 | 2016-17 | 2017-18 |
|--------------------------------|---------|---------|---------|
| 2 <sup>nd</sup> IR Gap Funding | 51.97%  | 49.08%  | 45.34%  |
| 1 <sup>st</sup> IR Gap Funding | 51.52%  | 12.52%  | 18.11%  |

Historically, projected COLAs and deficits were the standard for building MYPs. The application and significance of COLAs takes on new meaning under LCFF. Under revenue limits, year-to-year funding changes were the result of ADA growth or decline and funded COLAs. In contrast, during implementation of LCFF, year-to-year funding changes will be the result of ADA growth or decline, COLAs, unduplicated English Language (EL), low income (LI) and foster youth (FY) counts and the percentage of implementation (gap) funding.

Expenditure projections include estimated step and column increases, negotiated health and welfare increases, and general operating increases such as utilities. Supply and service expenditures utilize the California Consumer Price Index as an estimate for cost increases.

The following are the specific assumptions used for the development of the multi-year projections for the District:

| Assumptions:                     | 2015-16        | <u>2016-17</u> | 2017-18        |

The Multi-Year Projections, using the assumptions listed above for unrestricted, restricted and combined, results in the following fund balances:

|              | 2015-16      | 2016-17      | 2017-18      |
|--------------|--------------|--------------|--------------|

| Restricted   | \$1,807,358  | \$3,336,658  | \$3,487,479  |
| Total        | \$35,379,678 | \$34,087,067 | \$29,208,996 |

The Multi-Year Projection fund balances above reflect the district is able to meet the 2% reserve in all three years. It is noteworthy that 2015-16 includes one-time funding in both the unrestricted and restricted revenues therefore we must be mindful of additional ongoing expenditures to continue to maintain a reserve. Our county office continues to reinforce the need for reserves over the minimum reserve requirements.

### **Cash Flow**

The projected ending cash balance as of June 30, 2016 is positive. The Governor's 2015-16 Budget included funds to eliminate all K-12 deferrals. Cash flow is monitored to ensure there is sufficient cash to meet all obligations.

### **Next Steps**

In January, Governor Brown announced his Proposed 2016-17 Budget which continues to reflect both stability and growth in education funding, mainly dependent on the growth in property taxes. Districts have received large revenue increases each of the past two years as one-time funding as result of surging state revenues including the temporary tax increases under Prop 30. With the phase-out of Prop 30 and the increase in the contributions the district will need to pay in pension costs for STRS and PERS, we must remain aware of the level of on-going spending requirements to ensure the District's continued fiscal solvency.

Reserves are needed to address not only on-going retirement contribution increases but Affordable Care Act requirements and the new requirements for the sick leave accrual for part-time employees. We will continue to analyze the balance between costs and available reserves as we work to increase student achievement and enrich our school environments. The District continues to align spending decisions with the Local Control Accountability Plan (LCAP) and will thoughtfully incorporate any additional resources available to implement the prioritized goals; College and Career, Professional Learning and Parent/Family & Community Engagement.

## Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

### **Normal Separation Costs (optional)**

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. Retain supporting documentation.

# **Abnormal or Mass Separation Costs (required)**

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero.

### Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

STANDARD: Projected ratio of total unrestricted salaries and benefits to total unrestricted general fund expenditures for any of the current fiscal year or two subsequent fiscal years has not changed from the historical average ratio from the three prior fiscal years by more than the greater of three percent or the district's required reserves percentage.

It is likely that for many districts the 2014-15 and 2015-16 change from the historical average ratio will exceed the standard because certain revenues that were restricted prior to the LCFF are now unrestricted within the LCFF.

#### 8. CRITERION: Deficit Spending

STANDARD: Unrestricted deficit spending (total unrestricted expenditures and other financing uses is greater than total unrestricted revenues and other financing sources) as a percentage of total unrestricted expenditures and other financing uses, has not exceeded one-third of the district's available reserves¹ as a percentage of total expenditures and other financing uses² in any of the current fiscal year or two subsequent fiscal years.

¹Available reserves are the unrestricted amounts in the Reserve for Economic Uncertainties and the Unassigned/Unappropriated accounts in the General Fund and the Special Reserve Fund for Other Than Capital Outlay Projects. Available reserves will be reduced by any negative ending balances in restricted resources in the General Fund.

<sup>2</sup>A school district that is the Administrative Unit of a Special Education Local Plan Area (SELPA) may exclude from its expenditures the distribution of funds to its participating members.

#### 8C. Comparison of District Deficit Spending to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD NOT MET - Unrestricted deficit spending has exceeded the standard percentage level in any of the current year or two subsequent fiscal years. Provide reasons for the deficit spending, a description of the methods and assumptions used in balancing the unrestricted budget, and what changes will be made to ensure that the budget deficits are eliminated or are balanced within the standard.

Explanation: (required if NOT met)

The multi-year salary and benefit settlements increase the deficit spending level in 2015/16 as the district utilizes a portion of the available fund balance.

#### S8. Status of Labor Agreements

Analyze the status of employee labor agreements. Identify new labor agreements that have been ratified since first interim projections, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues and explain how these commitments will be funded in future fiscal years.

#### If salary and benefit negotiations are not finalized, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards and may provide written comments to the president of the district governing board and superintendent.
