California School District Financial Reporting Requirements

- Education Code 42131 – requires the Board of Education to certify, based on current projections, whether or not the school district is able to meet its financial obligations for the current fiscal year and subsequent two fiscal years.
- Education Code 33127 – requires a district that has received a negative certification of its interim report(s) to file a third report as of April 30.

- Qualified Certification ~ borderline, may not meet financial obligations during one of the three years of the MYP.
- Negative Certification ~ cannot meet financial obligations in two or more of the three years as shown by negative fund balance, insufficient Reserves for Economic Uncertainty.

Future Considerations/Risk

- Monitor actual expenditures and income
- Closely monitor enrollment and ADA
- Uncertainty in unrestricted one-time funding
- Continued cost increases associated with pension & operating increases and less reliance on revenue increases
- Compare income assumptions for future years with amounts included in the State adopted budget
- Maintain adequate reserves to satisfy obligations in all years
