Copies of the prevailing rate of per diem wages are on file with District or available online at <http://www.dir.ca.gov/>. In addition, Vendor and each subcontractor shall comply with Chapter 1 of Division 2, Part 7 of the California Labor Code, beginning with Section 1720, and including Section 1735 forbidding discrimination, and Section 1777.5 concerning the employment of apprentices by Vendor or subcontractors. Willful failure to comply may result in penalties, including loss of the right to bid on or receive public works contracts.

9.4. Labor Compliance: To the extent applicable, Vendor shall perform the Work of the Project while complying with all the applicable regulations, including section 16000, et seq., of Title 8 of the California Code of Regulations and is subject to labor compliance monitoring and enforcement by the Department of Industrial Relations.

10. Claims. In the event of any demand by Vendor for (A) a time extension, including, without limitation, for relief from damages or penalties for delay assessed by District under the Agreement, (B) payment by District of money or damages arising from work done by, or on behalf of, Vendor pursuant to the Agreement and payment of which is not otherwise expressly provided for or to which Vendor is not otherwise entitled to, or (C) an amount of payment disputed by District, the parties shall attempt to resolve the dispute by those procedures set forth in Public Contract Code section 9204 and/or Article 1.5 (commencing with section 20104) of Chapter 1, Part, 3, Division 2, of the Public Contract Code, if applicable, the provisions of which are each attached hereto and incorporated herein by this reference. If a claim, or any portion thereof, remains in dispute upon satisfaction of all applicable dispute resolution requirements, Vendor shall comply with all claims presentation requirements as provided in Chapter 1 (commencing with section 900) and Chapter 2 (commencing with section 910) of Part 3 of Division 3.6 of Title 1 of Government Code as a condition precedent to Vendor's right to bring a civil action against District. For purposes of those provisions, the running of the time within which a claim must be presented to District shall be tolled from the time Vendor submits its written claim until the time the claim is denied, including any time utilized by any applicable meet and confer process. Pending resolution of the dispute, Vendor and its subcontractors shall continue to perform the Work under the Agreement and shall not cause a delay of the Work, including the disputed work, during any dispute, claim, negotiation, mediation, or arbitration proceeding, except by written agreement of District.

11. Payment Bond and Performance Bonds. Vendor shall not commence the Work until it has provided to District, in a form acceptable to District, a Payment (Labor and Material) Bond and a Performance Bond, each in an amount equivalent to one hundred percent (100%) of the Contract Price issued by a surety admitted to issue bonds in the State of California and otherwise acceptable to District.

12. **Insurance.** Vendor shall not commence the Work until all insurance required under the JPA Contract has been obtained and certificates indicating the required coverage have been delivered in duplicate to District and approved by District. District and its Board of Education, agents, representatives, employees, trustees, officers, consultants, and volunteers are named additional insured under all policies except Workers' Compensation Insurance.
13. **Termination for Convenience.** In addition to the termination rights of the Parties set forth in the JPA Contract, District shall have the right to terminate this Agreement for convenience and compensate Vendor only for services satisfactorily rendered to the date of termination. Written notice, addressed as set forth in the JPA Contract, by District shall be sufficient to stop further performance of services by Vendor. Notice shall be deemed given when received by Vendor or no later than three (3) days after the date of mailing, whichever is sooner. Notwithstanding any provision to the contrary, this Termination for Convenience provision shall control over any contradictory provision in the JPA Contract.
14. **Availability of Funds; Budget and Fiscal Provisions; Termination in the Event of Non-Appropriation:** This Agreement is subject to the budget and fiscal policies, regulations and practices of the District, and approval and appropriation of funds for this Agreement. The amount of the District's obligation hereunder shall not at any time exceed the amount herein stated or stated in any approved amendment. If funds are appropriated for only a portion of a fiscal year, this Agreement will terminate, without penalty, at the end of the period for which funds are appropriated. Vendor's assumption of risk of possible non-appropriation is part of the consideration for this Agreement.
15. **Disallowance:** If Vendor claims or receives payment from the District for a service that is later disallowed by the United States Government, State of California or any other grantors, Vendor shall promptly refund the disallowed amount to the District upon the District's request. At its option, the District may offset the amount disallowed from any payment due or that may become due to the Vendor under this Agreement. By executing this Agreement, Vendor certifies that Vendor is not suspended, debarred or otherwise excluded from participation in federal, state or local governmental programs. Vendor acknowledges that this certification of eligibility to receive state or federal funds is a material term of this Agreement.
16. **Submitting False Claims; Monetary Penalties:** Pursuant to Government Code §§ 12650 *et seq.*, any person, including a contractor, subcontractor or Vendor, who submits a false claim, shall be liable to the District for three times the amount of damages which the District sustains because of the false claim.
17. **Proprietary Information of District; Student Information:** Vendor understands and agrees that, in connection with this Agreement, the Vendor may have access to proprietary and confidential information, which may be owned or controlled by the District, the disclosure of which to third parties may be damaging to the District, its Board, employees or students. Vendor also understands and agrees that the disclosure of such information may violate state and/or federal law and may subject the Vendor to civil liability. Consequently, Vendor certifies that all information disclosed by the District to the Vendor or in which such information is collected or received by Vendor on District's behalf shall be held in strict confidence and used only in performance of the Agreement, unless disclosure is required by law or court order.

Vendor shall exercise the same standard of care to protect such information as is used to protect its own proprietary and/or confidential information and in no case less than a reasonable standard of care. Confidentiality provisions shall survive termination of this Agreement.

18. **Indemnification:** Vendor shall indemnify and hold harmless the District, its Board, officers, employees and agents from, and, if requested, shall defend them against any and all claims, demands, liabilities, obligations, losses, damages, judgments, costs or expenses (including legal fees and costs of investigation) (collectively “claim”), whether actual or alleged, arising directly or indirectly from or in any way connected with the performance of this Agreement by Vendor and/or Vendor’s agents, including but not limited to any Claim for personal injury, death, property damage, loss of profits, infringement upon intellectual property rights, failure to comply with the criminal background check requirements of Education Code § 45125.1 and/or disclosure of confidential information which might be obtained by Vendor or Vendor’s agents in the performance of this Agreement. Notwithstanding the foregoing, Vendor shall have no obligation under this Section with respect to any claim that is caused by the active negligence or willful misconduct of District and which is not contributed to by any act or omission (including any failure to perform any duty imposed by law) by Vendor or Vendor’s agents.

19. **Applicable Laws:** Vendor shall keep itself fully informed of applicable federal, state and local laws, regulations, orders, and District Board Policies and Administrative Regulation affecting the performance of, or necessary to ensure the safe and appropriate performance of this Agreement, and shall at all times comply with such laws, regulations, orders, District Board Policies, and Administrative Regulations as they may be amended from time to time, including but not limited to:
 - 19.1. Vendor has the responsibility to know, and comply with, all requirements of California law pertaining to Conflicts of Financial Interest in contracting with public agencies. Vendor certifies that it has read, understood and will comply with conflict-of-interest laws and regulations, set-forth in Board Rule and Procedure 9270 / Conflict of Interest and the Appendix to Board Rule and Procedure 9270 / Conflict of Interest.
 - 19.2. The District is committed to providing equal opportunity for all individuals in education. Vendor understands and agrees that in providing products/services to the District, it is Vendor’s obligation to comply with Board Policy 0410 / Nondiscrimination in District Programs and Activities.
 - 19.3. Vendor acknowledges that, pursuant to the Americans with Disabilities Act (“ADA”), programs, services and other activities provided by a public entity to the public, whether directly or through a contractor or subcontractor, must be similarly accessible to the general public regardless of disabilities.
 - 19.4. Vendor’s employees, agents or volunteers who will have no contact or will have limited contact and will not interact with District students outside of the supervision and control of student’s parents or District staff, are not required to meet criminal background check and subsequent arrest notification requirements under California Education Code § 45125.1. Vendor certifies that Vendor and its employees shall not have limited or frequent or prolonged contact with District students and will not interact with District students outside of the supervision and control of student’s parents or District staff in the performance of the Agreement.

20. **Independent Contractor**: Vendor or any agent or employee of Vendor shall be deemed at all times to be an independent contractor and not an employee of the District. Vendor shall be wholly responsible for the manner in which it performs the services required of it under this Agreement. Nothing contained in this Agreement shall be construed as creating an employment or agency relationship between the District and Vendor or its agents and employees. Any terms in this Agreement referring to direction from the District shall be construed as providing for direction as to policy and the result of Vendor 's work only, and not as the means by which such a result is obtained. The District does not retain the right to control the means or the method by which Vendor performs work under this Agreement. If any governmental authority should, nevertheless, determine that Contractor is an employee, then the District's payment obligations hereunder shall be reduced so that the aggregate amount of payments directly to Vendor and to the applicable governmental authority does not exceed the maximum amount specified in this Agreement. Vendor shall refund any amounts necessary to affect such reduction.

21. **LIABILITY OF DISTRICT: DISTRICT'S PAYMENT OBLIGATIONS UNDER THIS AGREEMENT SHALL BE LIMITED TO THE PAYMENT PROVIDED TO CONTRACTOR UNDER THIS AGREEMENT. DISTRICT SHALL NOT BE LIABLE FOR ANY SPECIAL, CONSEQUENTIAL, INDIRECT OR INCIDENTAL DAMAGES, INCLUDING BUT NOT LIMITED TO LOST PROFITS, IN CONNECTION WITH THIS AGREEMENT.**

22. Miscellaneous Provisions.

22.1. The Parties acknowledge that each of them has fully discussed the contents of this Agreement with their chosen representatives and/or legal counsel and has had the benefit of legal counsel in negotiating and drafting the terms of this Agreement. Accordingly, this Agreement shall not be construed as having been drafted by one Party or the other.

22.2. This Agreement and the attachments hereto and the documents specifically incorporated into the Agreement by reference, constitute the entire Agreement between District and Vendor and supersedes all prior discussions, negotiations, and agreements, whether oral or written. This Agreement may not be amended, changed, modified, altered or terminated without the written agreement of both Parties hereto.

22.3. This Agreement and the rights and obligations of the Parties hereunder shall be construed and interpreted in accordance with the laws of the State of California. Any action or proceeding to enforce this Agreement shall be commenced and maintained in Contra Costa County, California. Notwithstanding any provision to the contrary, this venue and jurisdiction provision shall control over any contradictory provision in the JPA Contract.

22.4. The Parties agree to execute all such other documents and to take all such other actions as may be reasonably necessary to effect and carry out the purposes of this Agreement.

- 22.5. This Agreement may be executed in several counterparts. Signature of copies and facsimile or electronic versions of this Agreement shall have the same force and effect as signature of the original.
- 22.6. The Parties acknowledge that this Contract is only binding once it is approved by the District's Governing Board.
- 22.7. The waiver by either party of any breach of any term, covenant, or condition herein contained shall not be deemed to be a waiver of such term, covenant, condition, or any subsequent breach of the same or any other term, covenant, or condition herein contained.

(ii) The Department of Transportation as to any project under the jurisdiction of that department.

(iii) The Department of Parks and Recreation as to any project under the jurisdiction of that department.

(iv) The Department of Corrections and Rehabilitation with respect to any project under its jurisdiction pursuant to Chapter 11 (commencing with Section 7000) of Title 7 of Part 3 of the Penal Code.

(v) The Military Department as to any project under the jurisdiction of that department.

(vi) The Department of General Services as to all other projects.

(vii) The High-Speed Rail Authority.

(4) "Public works project" means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind.

(5) "Subcontractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who either is in direct contract with a contractor or is a lower tier subcontractor.

(d) (1) (A) Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

(D) Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. If the public entity fails to issue a written statement, paragraph (3) shall apply.

Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

(C) For purposes of this section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or

board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

(D) Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

(3) Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity's failure to have responded to a claim, or its failure to otherwise meet the time requirements of this section, shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

(4) Amounts not paid in a timely manner as required by this section shall bear interest at 7 percent per annum.

(5) If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against a public entity because privity of contract does not exist, the contractor may present to the public entity a claim on behalf of a subcontractor or lower tier subcontractor. A subcontractor may request in writing, either on their own behalf or on behalf of a lower tier subcontractor, that the contractor present a claim for work which was performed by the subcontractor or by a lower tier subcontractor on behalf of the subcontractor. The subcontractor requesting that the claim be presented to the public entity shall furnish reasonable documentation to support the claim. Within 45 days of receipt of this written request, the contractor shall notify the subcontractor in writing as to whether the contractor presented the claim to the public entity and, if the original contractor did not present the claim, provide the subcontractor with a statement of the reasons for not having done so.

(e) The text of this section or a summary of it shall be set forth in the plans or specifications for any public works project that may give rise to a claim under this section.

(f) A waiver of the rights granted by this section is void and contrary to public policy, provided, however, that (1) upon receipt of a claim, the parties may mutually agree to waive, in writing, mediation and proceed directly to the commencement of a civil action or binding arbitration, as applicable; and (2) a public entity may prescribe reasonable change order, claim, and dispute resolution procedures and requirements in addition to the provisions of this section, so long as the contractual provisions do not conflict with or otherwise impair the timeframes and procedures set forth in this section.

(g) This section applies to contracts entered into on or after January 1, 2017.

(h) Nothing in this section shall impose liability upon a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

(i) This section shall remain in effect only until January 1, 2027, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2027, deletes or extends that date.

Upon a demand, the local agency shall schedule a meet and confer conference within 30 days for settlement of the dispute.

(e) Following the meet and confer conference, if the claim or any portion remains in dispute, the claimant may file a claim as provided in Chapter 1 (commencing with Section 900) and Chapter 2 (commencing with Section 910) of Part 3 of Division 3.6 of Title 1 of the Government Code. For purposes of those provisions, the running of the period of time within which a claim must be filed shall be tolled from the time the claimant submits his or her written claim pursuant to subdivision (a) until the time that claim is denied as a result of the meet and confer process, including any period of time utilized by the meet and confer process.

(f) This article does not apply to tort claims and nothing in this article is intended nor shall be construed to change the time periods for filing tort claims or actions specified by Chapter 1 (commencing with Section 900) and Chapter 2 (commencing with Section 910) of Part 3 of Division 3.6 of Title 1 of the Government Code.

LEAD-PRODUCT(S) CERTIFICATION

California Occupational Safety and Health Administration (CalOSHA), Environmental Protection Agency (EPA), California Department of Health Services (DHS), California Department of Education (CDE), and the Consumer Equipment Safety Commission (CPSC) regulate lead-containing paint and lead products.

Because Vendor and its employees will be providing services for the District, and because Vendor's work may disturb lead-containing building materials, VENDOR IS HEREBY NOTIFIED of the potential presence of lead-containing materials located within certain buildings utilized by the District. All school buildings built prior to 1993 are presumed to contain some lead-based paint until sampling proves otherwise.

The CDE mandates that school districts utilize DHS lead-certified personnel when a lead-based hazard is identified. Examples of lead-certified personnel include: project designers, inspectors, and abatement workers. Furthermore, since it is assumed by the district that all painted surfaces (interior as well as exterior) within the District contain some level of lead, it is imperative that Vendor, its workers and subcontractors fully and adequately comply with all applicable laws, rules and regulations governing lead-based materials (Including Title 8, California Code of Regulations, Section 1532.1). Any and all Work which may result in the disturbance of lead-containing building materials must be coordinated through the District.

The California Education Code also prohibits the use or import of lead-containing paint, lead plumbing and solders, or other potential sources of lead contamination in the construction of any new school facility or in the modernization or renovation of any existing school facility. Vendor shall provide the District with any sample results prior to beginning Work, during the Work, and after the completion of the Work. The District may request to examine, prior to the commencement of the Work, the lead training records of each employee of Vendor.

All contractors who disturb lead-based paint in a six-square-foot area or greater indoors or a 20-square-foot area outdoors shall comply with the Renovation, Repair and Painting Rule, shall receive training from a U.S. EPA-accredited training provider, and shall be certified by the U.S. EPA. Vendor, its workers and subcontractors must fully and adequately comply with all applicable laws, rules and regulations governing lead-based materials, including those rules and regulations appearing within title 40 of the Code of Federal Regulations as part 745 (40 CFR 745).

If failure to comply with these laws, rules, and regulations results in a site or worker contamination, Vendor will be held solely responsible for all costs involved in any required corrective actions, and shall defend, indemnify and hold harmless the District, pursuant to the indemnification provisions of the Contract, for all damages and other claims arising therefrom. If lead disturbance is anticipated in the Work, only persons with appropriate accreditation, registrations, licenses and training shall conduct this Work.

It shall be the responsibility of Vendor to properly dispose of any and all waste products, including but not limited to, paint chips, any collected residue, or any other visual material that may occur from the prepping of any painted surface. It will be the responsibility of Vendor to provide the proper disposal of any hazardous waste by a certified hazardous waste hauler. This company shall be registered with the Department of Transportation (DOT) and shall be able to issue a current manifest number upon transporting any hazardous material from any school site within the District.

THE UNDERSIGNED HEREBY ACKNOWLEDGES, UNDER PENALTY OF PERJURY, THAT HE OR SHE HAS RECEIVED NOTIFICATION OF POTENTIAL LEAD-BASED MATERIALS ON THE OWNER'S PROPERTY, AS WELL AS THE EXISTENCE OF APPLICABLE LAWS, RULES AND REGULATIONS GOVERNING WORK WITH, AND DISPOSAL OF, SUCH MATERIALS WITH WHICH IT MUST COMPLY. THE UNDERSIGNED ALSO WARRANTS THAT HE OR SHE HAS THE AUTHORITY TO SIGN ON BEHALF OF AND BIND VENDOR.

KNOW ALL PERSONS BY THESE PRESENTS:

WHEREAS, the Board of Education (“Board”) of the Mt. Diablo Unified School District (“District”) and SOE SURFACES INC (“Principal”) have entered into a contract for the furnishing of all materials and labor, services and transportation, necessary, convenient, and proper to perform the following project:

MT. DIABLO USD - AYERS ES Project

(“Project” or “Contract”) which Contract dated August 28th, 2024, and all of the Contract Documents attached to or forming a part of the Contract, are hereby referred to and made a part hereof; and

WHEREAS, said Principal is required under the terms of the Contract to furnish a bond for the faithful performance of the Contract.

NOW, THEREFORE, the Principal and _____ (“Surety”) are held and firmly bound unto the Board of the District in the penal sum of

Forty-Nine Thousand Four Hundred Twenty-One and 25/100 Dollars (\$49,421.25), lawful money of the United States, for the payment of which sum well and truly to be made we bind ourselves, our heirs, executors, administrators, successors, and assigns jointly and severally, firmly by these presents, to:

- Promptly perform all the work required to complete the Project; and
- Pay to the District all damages the District incurs as a result of the Principal’s failure to perform all the Work required to complete the Project.

Or, at the District’s sole discretion and election, the Surety shall obtain a bid or bids for completing the Contract in accordance with its terms and conditions, and upon determination by the District of the lowest responsible bidder, arrange for a contract between such bidder and the District and make available as Work progresses sufficient funds to pay the cost of completion less the “balance of the Contract Price,” and to pay and perform all obligations of Principals under the Contract, including, without limitation, all obligations with respect to warranties, guarantees and the payment of liquidated damages. The term “balance of the Contract Price,” as used in this paragraph, shall mean the total amount payable to Principal by the District under the Contract and any modifications thereto, less the amount previously paid by the District to the Principal, less any withholdings by the District allowed under the Contract. District shall not be required or obligated to accept a tender of a completion contractor from the Surety for any or no reason.

The condition of the obligation is such that, if the above bound Principal, its heirs, executors, administrators, successors, or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions, and agreements in the Contract and any alteration thereof made as therein provided, on its part to be kept and performed at the time and in the intent and meaning, including all contractual guarantees and warranties of materials and workmanship, and shall indemnify and save harmless the District, its trustees, officers and agents, as therein stipulated, then this obligation shall become null and void, otherwise it shall be and remain in full force and virtue.

Surety expressly agrees that the District may reject any contractor or subcontractor proposed by Surety to fulfill its obligations in the event of default by the Principal. Surety shall not utilize Principal in completing the Work nor shall Surety accept a Bid from Principal for completion of the Work if the District declares the Principal to be in default and notifies Surety of the District's objection to Principal's further participation in the completion of the Work.

As a condition precedent to the satisfactory completion of the Contract, the above obligation shall hold good for a period equal to the warranty and/or guarantee period of the Contract, during which time Surety's obligation shall continue if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect the District from loss or damage resulting from or caused by defective materials or faulty workmanship. The obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit the District's rights or the Contractor or Surety's obligations under the Contract, law or equity, including, but not limited to, California Code of Civil Procedure section 337.15.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration, or addition to the terms of the contract or to the work to be performed thereunder or the specifications accompanying the same shall in any way affect its obligation on this bond. The Surety also stipulates and agrees that it shall not be exonerated or released from the obligation of this bond by any overpayment or underpayment by the District that is based upon estimates approved by the Architect. The Surety does hereby waive notice of any such change, extension of time, alteration, or addition to the terms of the Contract or to the work or to the specifications.

OFF-ROAD DIESEL-FUELED FLEET CERTIFICATION

Title 13 CCR sections 2449, 2449.1, and 2449.2, in compliance with Government Code sections 11346.2, subdivision (a)(3), and 11346.8, subdivision (c), applies to construction contractors who own or operate within California any vehicles with a diesel-fueled or alternative diesel fueled off-road compression-ignition engine with maximum power (max hp) of 25 horsepower (hp) or greater provided that the vehicle cannot be registered and driven safely on-road or was not designed to be driven on-road, even if it has been modified so that it can be driven safely on-road.

Section 2449(i), in relevant part, provides:

- (1) For a project involving the use of vehicles subject to this regulation, the prime contractor must obtain copies of the valid Certificate of Reported Compliance with the Regulation for In-Use Off-Road Diesel-Fueled Fleets for the fleet selected for the contract and their listed subcontractors, if applicable, prior to entering into a new or renewed contract with that fleet.
- (2) No prime contractor or public works awarding body, as applicable, shall enter into a contract with a fleet for which it does not have a valid Certificate of Reported Compliance for the fleet and its listed subcontractors, if applicable, prior to entering into a new or renewed contract with that fleet.
- (3) The Certificates of Reported Compliance received by the prime contractor for a project must be retained for three (3) years after that project's completion. Upon request by California Air Resources Board ("CARB"), these records must be provided to CARB within five (5) business days of the request.
- (4) Situations in which prime contractors or public works awarding bodies, as applicable, are contracting for projects that are considered emergency operations, as defined in section 2449(c)(18), are exempt from the requirements in section 2449(i)(1)-(3), but must still retain records verifying vehicles subject to the regulation that are operating on the emergency operations project are actually being operated on the project for emergency operations only. These records must include a description of the emergency, the address or a description of the specific location of the emergency, the dates on which the emergency operations were performed, and an attestation by the fleet that the vehicles are operated on the project for emergency operations only.

Section 2449(j), in relevant part, also states:

- (1) Between March 1 and June 1 of each year, a prime contractor must collect new valid Certificates of Reported Compliance for the current compliance year, as defined in section 2449(n), from all fleets that have an ongoing contract with the prime contractor as of March 1 of that year. Prime contractors must not write contracts to evade this requirement.

- (2) Prime contractors shall only allow fleets with valid Certificates of Reported Compliance on the prime contractor's job sites.
- (3) If the prime contractor discovers that any fleet intending to operate vehicles subject to this regulation for the prime contractor does not have a valid Certificate of Reported Compliance, as defined in section 2449(n), or if the prime contractor observes any noncompliant vehicles subject to the regulation on the prime contractor's job site, then the prime contractor must report specified information regarding the fleet to CARB within five (5) business days of such discovery.
- (4) Upon request by CARB, the prime contractor must immediately disclose to CARB the name and contact information of each responsible party for all vehicles subject to this regulation operating at the job site or for the prime contractor.
- (5) The prime contractor shall prominently display signage for any project where vehicles subject to this regulation will operate for eight (8) calendar days or more. The signage must be posted by the eighth calendar day from which the first vehicle operates. The signage will be in lettering larger than size 14-point type and displayed in a conspicuous place where notices to employees are customarily posted at the job site or where there is employee foot traffic. If one of the above locations is also viewable by the public, it should be posted at that location. The signage must include specified information regarding idling regulations for In-Use Off-Road Diesel-Fueled Fleets with directions on how to report observed noncompliance of the provided regulations to CARB.

I am aware of the provisions of Title 13 CCR sections 2449, 2449.1, and 2449.2, which apply to every contractor who owns or operates off-road diesel fleet vehicles in California, and I will comply with such provisions, including providing Certificate(s) of Reported Compliance for In-Use Off-Road Diesel-Fueled Fleets for the fleet selected for the contract and their listed subcontractors, if applicable, with its bid.

**Solicitation Number: RFP #010521****CONTRACT**

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and SofSurfaces, Inc., 4393 Discovery Line, Petrolia ON N0N1R0, Canada (Vendor).

Sourcewell is a State of Minnesota local government agency and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Playground and Water Play Equipment with Related Accessories and Services from which Vendor was awarded a contract.

Vendor desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

- A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.
- B. **EXPIRATION DATE AND EXTENSION.** This Contract expires February 17, 2025, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended up to one additional one-year period upon request of Sourcewell and with written agreement by Vendor.
- C. **SURVIVAL OF TERMS.** Articles 11 through 14 survive the expiration or cancellation of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

- A. **EQUIPMENT, PRODUCTS, OR SERVICES.** Vendor will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Vendor's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new/current model. Vendor may offer close-out or refurbished Equipment or Products if they are clearly indicated in Vendor's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. **WARRANTY.** Vendor warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Vendor warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Vendor's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that is effective past the expiration of the Vendor's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution, Vendor will make available to Sourcewell a means to validate or authenticate Vendor's authorized dealers, distributors, and/or resellers relative to the Equipment, Products, and Services related to this Contract. This list may be updated from time-to-time and is incorporated into this Contract by reference. It is the Vendor's responsibility to ensure Sourcewell receives the most current version of this list.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced as stated in Vendor's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Vendor must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable

time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery.

Vendor must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcwell may declare the Vendor in breach of this Contract if the Vendor intentionally delivers substandard or inferior Equipment or Products. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Vendor as soon as possible and the Vendor will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

B. SALES TAX. Each Participating Entity is responsible for supplying the Vendor with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Vendor may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Vendor determines it will offer Hot List Pricing, it must be submitted electronically to Sourcwell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcwell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Vendor may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcwell Price and Product Change Request Form to the assigned Sourcwell Contract Administrator. This form is available from the assigned Sourcwell Contract Administrator. At a minimum, the request must:

- Identify the applicable Sourcwell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing

restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Request Form will become an amendment to this Contract and be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Vendor understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Vendor is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Vendor's employees may be required to perform work at government-owned facilities, including schools. Vendor's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Vendor that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Vendor. Typically, a Participating Entity will issue an order directly to Vendor. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration of this Contract; however, Vendor performance, Participating Entity payment, and any applicable warranty periods or other Vendor or Participating Entity obligations may extend beyond the term of this Contract.

Vendor's acceptable forms of payment are included in Attachment A. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Vendor, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be worked out directly between the Participating Entity and the Vendor. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements) not addressed in this Contract, the Participating Entity and the Vendor may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. **TERMINATION OF ORDERS.** Participating Entities may terminate an order, in whole or in part, immediately upon notice to Vendor in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the goods to be purchased;
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements; or
3. Vendor commits any material breach of this Contract or the additional terms agreed to between the Vendor and a Participating Entity.

E. **GOVERNING LAW AND VENUE.** The governing law and venue for any action related to a Participating Entity's order will be determined by the Participating Entity making the purchase.

A. CONTRACT SALES ACTIVITY REPORT. Each calendar quarter, Vendor must provide a contract sales activity report (Report) to the Sourcewell Contract Administrator assigned to this Contract. B. ADMINISTRATIVE FEE. In consideration for the support and services provided by Sourcewell, the Vendor will pay an administrative fee to Sourcewell on all Equipment, Products, and Services provided to Participating Entities. The Administrative Fee must be included in, and not added to, the pricing. Vendor may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Vendor will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Vendor's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Vendor agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Vendor is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Vendor in any subsequent solicitation. In the event this Contract is cancelled by either party prior to the Contract's expiration date, the administrative fee payment will be due no more than 30 days from the cancellation date.

No other understanding regarding this Contract, whether written or oral, may be used to bind either party. For any conflict between the attached Proposal and the terms set out in Articles 1-22, the terms of Articles 1-22 will govern.

F. **RELATIONSHIP OF THE PARTIES.** The relationship of the parties is one of independent contractors, each free to exercise judgment and discretion with regard to the conduct of their

respective businesses. This Contract does not create a partnership, joint venture, or any other relationship such as master-servant, or principal-agent.

Participating Entities may also require additional requirements based on specific funding specifications. Within this Article, all references to "federal" should be interpreted to mean the United States federal government.

The following list only applies when a Participating Entity accesses Vendor's Equipment, Products, or Services with United States federal funds.

A. **EQUAL EMPLOYMENT OPPORTUNITY.** Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 C.F.R. § 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor." The equal opportunity clause is incorporated herein by reference.

B. **DAVIS-BACON ACT, AS AMENDED (40 U.S.C. § 3141-3148).** When required by federal program legislation, all prime construction contracts in excess of \$2,000 awarded by non-federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. § 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 C.F.R. § 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-federal entity must report all suspected or reported violations to the federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 C.F.R. § 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-federal entity must report all suspected or reported violations to the federal awarding agency. Vendor must be in compliance with all applicable Davis-Bacon Act provisions.

C. **CONTRACT WORK HOURS AND SAFETY STANDARDS ACT (40 U.S.C. § 3701-3708).** Where applicable, all contracts awarded by the non-federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations (29 C.F.R. § 5). Under 40 U.S.C. § 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40

hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. This provision is hereby incorporated by reference into this Contract. Vendors must file all certifications and disclosures required by, and otherwise comply with, the Byrd Anti-Lobbying Amendment (31 U.S.C. § 1352).

H. RECORD RETENTION REQUIREMENTS. To the extent applicable, Vendor must comply with the record retention requirements detailed in 2 C.F.R. § 200.333. The Vendor further certifies that it will retain all records as required by 2 C.F.R. § 200.333 for a period of 3 years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

K. ACCESS TO RECORDS (2 C.F.R. § 200.336). Vendor agrees that duly authorized representatives of a federal agency must have access to any books, documents, papers and records of Vendor that are directly pertinent to Vendor's discharge of its obligations under this Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. § 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired during the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

7	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>sofSURFACES, Inc® had modest beginnings as a small but committed regional supplier of poured-in-place (PIP) safety surfacing for use underneath children's playground structures in 1989. During our initial years our efforts were focused on perfecting the art of installing PIP materials. Within those early years, however, we came to a conclusion that dramatically changed the course of the company. At a time when the company was grappling with the limits of our PIP system, the inability to incorporate an engineered design into the product, and the high dependency placed on the skill of the installer, we also came to the realization that we were installing a product whose final quality was largely influenced by environmental conditions. Since we could not predict or control the weather, we recognized that we would never be able to predict or control the quality of safety performance of the final product.</p> <p>This conclusion forced us to recognize that our desire to lead the industry with high-quality, cutting-edge products was simply incompatible with a PIP system. In 1992 sofSURFACES began to develop what has since become the industry's premier safety surfacing system. Fueled by advancements in production and process technology, sofSURFACES carefully began to develop a state of the art manufacturing process. Consistent with our new direction came a commitment to creating a product with a strong functional design element.</p> <p>After 13 years and 4 design improvements the KROSLOCK® brand entered the market. Significant advancements in product engineering, the elimination of tile to tile separation, and the ability to create a system that is truly vandal resistant, were introduced through the KROSLOCK system and continue to be in high demand today. Having successfully met the demands of our customers by offering the vandal-proof KROSLOCK system, our attention was turned to another industry first; our hollow-core impact pedestal. Built into the underside of the tile product, this design breakthrough accomplished something the industry as a whole previously considered unattainable. By relying on the mechanical recoil action of the impact pedestal, the hollow-core technology acts very much like a series of independent shock absorbers. This design element eliminated the need to rely on a softer and less durable product to attain the necessary fall protection. The result was a product offering extreme durability on the top surface, coupled with exceptional safety performance, a leap which solidified sofSURFACES position as the industry leader in fall protection.</p> <p>With this new technology in place we were able to introduce the industry's first 10 Year Warranty covering durability and compliance with the ASTM F1292 standard for impact attenuation of playground surfaces. In order to be comfortable with such a bold statement we needed to assure that our tile system was capable of performing at a level far exceeding the minimum requirements of the F1292 Standard. With this in mind we began our crusade to altering the industry's view of just meeting the thresholds of the ASTM F1292 standard to exceeding it to offer a product that would be safe for the children that played on it in the future rather than just the current.</p> <p>After intensive Research and Development, sofSURFACES completed the development of a world class production system. Our fully automated manufacturing facility relies solely on HMI (Human Machine Interface) technology, with every single aspect of the process strictly controlled through advanced computerized monitoring. The resulting finished product offers extreme precision and consistency.</p> <p>With our past we have grown confidence in our product and process for the present and future. With that we now offer a Limited Lifetime Warranty on our product. Customers are searching for a product that is;</p> <ul style="list-style-type: none"> -maintenance free - aesthetically pleasing -will reduce risk of liability (by head injuries from falls to the surface) -cost effective for the lifetime of the product, backed by a long term warranty and produced by a company that is financially secure <p>With nearly thirty years experience, sofSURFACES can confidently confirm that we check every box.</p>

24	Dealer network or other distribution methods.	sofSURFACES has fined tuned our Dealer Network to where we feel we have the best representation of our product lines across North America. This Sales Force is approximately 100 members strong whom are all informed of the value of leading with our Sourcewell Contract when speaking to potential customers. 26	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	sofSURFACES thrive at being a solution-oriented company. We will guide the member through the initial stages of the process and advise them of how to purchase the best solution for their need. Often, this leads to our product but if we are not the answer the member still leaves with the knowledge of what we gave them and we will reference to another that can help (often within the Sourcewell Family of Vendors). Request for quotations are responded to within a few hours and we can produce, package and ship orders within one to two weeks. Our Logistics and Installation Managers communicate the expectations of their services and a follow up call from the Sales Rep is scheduled after all is complete to confirm the customer is happy with the purchase. If an issue occurs with our product at a later date we will discuss solutions to repair or replace and make a date for resolution. The whole process is seamless because we have the right people in the right chairs to guide the member through.

The City of Pittsburgh insists on using their State Contract (Co-Stars 14) for all of their material purchases and their County Contract (Allegheny County) for all of their installation purchases. Numerous times our Sourcewell Contract Manager and myself have tried to flip them but they are unwilling. This is the only area that we do not lead with our Sourcewell Contract.
31	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	sofSURFACES has used this contract in Hawaii and Alaska with success and the only differences is that we need to take a careful look at logistics and travel cost on a case by case basis, without restrictions.

We have recently enhanced our incumbent marketing material to include a new portfolio of premium color blends and finishing options. We have utilized this opportunity to also ensure that Sourcewell is prominently displayed on all duraSAFE® (duraSAFE Rubber Playground Tiles) literature. With the exception of 2020 (due to Covid-19), sofSURFACES heavily markets duraSAFE via trade shows, online video, summit-style conventions, Google AdWords, and print and digital advertising with key trade publications. All of these channels will continue serve as vital educational opportunities for qualified customers.
33	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	sofSURFACES regularly provides updates about our recently completed projects, new product enhancements or features, installation and repair tips and techniques via youtube, facebook, instagram and our website (sofsurfaces.com). Our dealer/representatives are encouraged to do the same.
34	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	We believe Sourcewell's role in promoting contracts would be best served as more of an educational role about the many benefits working with a membership-driven government agency. We would anticipate that Sourcewell will promote sofSURFACES' products to their members through all available channels – both online and in print. sofSURFACES regularly showcases recently completed projects across various mediums. Any Sourcewell-awarded projects will included a disclaimer wherever these images appear in both digital and printed formats.
35	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Every project is unique and product applications vary considerably with every order; therefore, our products are not currently available through an e-procurement system.

36	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	In the initial discussions with any customer we invite them to an educational presentation (online) outlining: <ul style="list-style-type: none"> - the options available for a suitable safety surface under a playground - the advantages and disadvantages of each surface - what they should look for and avoid when deciding on a surfacing solution - what options they have for purchasing This is not mandatory but our customers have reacted well to this as it only takes a short time to present and any of our Sales Team can present for no cost.
37	Describe any technological advances that your proposed products or services offer.	Our Hollow Core Pedestal was one of our greatest achievements as it allowed us to rely on the mechanical recoil mechanism of the design rather than an inconsistent, loose compaction of the rubber. The results allowed us to create a firm, durable top surface that offered superior fall height protection that we can warrant for the life of the playground. Our new Edge Cut is a groove on the vertical edge of the tile that allows us to include 25% more adhesive to strengthen the tile to tile bond. And with conjunction of the KROSLOCK locking mechanism and our Compressed Installation we have separated duraSAFE from our competition. We have invested heavily into our production system creating a process that creates a product that looks, feels and performs consistently. Our Research and Development Department is constantly working on advancements to our product and process to create the ultimate product for our Customers.
38	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	duraSAFE tiles contains up to 93% post-consumer recycled content with a minimum of 1.5 passenger car tires being utilized in the production of each tile. Over 1 million passenger tires will be diverted from North America's landfills from the production of our family of products each year. After our product has reached the end of its useful service life the product can be returned, reprocessed and reintegrated into new products. 77% of our raw material supplies come from within 180 miles of our manufacturing site and we have taken great strides to assure our facility is energy efficient and safe for our workers and the environment. duraSAFE tiles meets the stringent criteria required to contribute towards points under 2 of the 6 LEED rating system categories including MR 4.1 and MR 4.2.
39	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	At sofSURFACES, we are committed to operating our business in a manner that uses resources wisely, protects the quality of our environment, as well as the health and safety of our families and communities. As an industry leader in manufacturing recycled products, our products are made in a state-of-the-art facility where we strive to continually improve our quality, efficiency, and responsive resource management. We do this by collecting all of our production scrap and recouping it back into our system, so there is no waste. We have diverted approximately 1 million passenger tires each year from North America's landfills to be used in the manufacturing of our family of products. At the end of the tile's service life; the product can be returned to our facility, reprocessed and reintegrated into new products making it 100% sustainable. Many efficiencies have been implemented into our production facility to reduce emissions, heat and electricity all with consideration to our carbon footprint. This dedication to our future has aided our customers to be awarded with environmental grants across North America. duraSAFE is compatible with a variety of LEED requirements and can contribute to multiple LEED credits over various rating categories.
40	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	sofSURFACES is not a WMBE or SBE but we do have Territory Dealer Representatives that have accreditations as well as a few of our Certified Installation Crews.
41	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	Quite simply, our products are engineered to last. Our proprietary molding process allows the wear layer of our tiles to be molded at much higher compression and a significantly higher density than our competitor's products. The end result is an extremely durable product that can withstand the toughest weather conditions in any climate. In addition, our patented KROSLOCK tile-locking mechanism, combined with the variable thickness of our hollow core pedestal design truly sets this product apart from any other playground tile products or loose-fill systems. For these reasons and more, we are able to offer our customers our best-in-industry limited lifetime warranty – which includes fall height protection for the life of the product. Our entire team from sales and quoting through to installations, work collaboratively in order to maintain constant communication with the Customer.

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
42	Do your warranties cover all products, parts, and labor?	sofSURFACES has a Limited Lifetime Warranty on all of our products. We recommend that installation of the product occurs by a Trained and Certified Installer and if so we will warrant that the same as the product. Please see duraSAFE_ProductWarranty_Lifetime_Combo in the attached documents
43	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	There are no usage restrictions or limitations that will affect our warranty coverage as outlined in the attached documents; duraSAFE_ProductWarranty_Lifetime_Combo
44	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	If sofSURFACES' certified installers are used in the initial installation than their work is also covered with the Limited Lifetime Warranty. If material only was purchased, we will work with the member to either offer guidance or repair or replace when we are in the vicinity.
45	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	sofSURFACES is able to provide a Certified Installer for all warranty requirements. If our timing and winter weather conflict we will discuss if the end user has the means to correct with our guidance.
46	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	sofSURFACES will cover warranty on any portions of the proposal that were deemed to be needing service regardless of original manufacturer.
47	What are your proposed exchange and return programs and policies?	sofSURFACES has two series of products; Plus, and Premium. Plus material can be returned with a 15% restocking fee. Premium Series is all custom made and cannot be returned but we will aid the member with a solution to help compensate.
48	Describe any service contract options for the items included in your proposal.	sofSURFACES does not have a service contract because our product does not need to be routinely serviced. The function of our product will perform for the lifetime of the playground as per our warranty.

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
49	What are your payment terms (e.g., net 10, net 30)?	net 30
50	Describe any leasing or financing options available for use by educational or governmental entities.	<p>sofSURFACES now offers financing options to our customers for projects that exceed \$10,000.00 (all currencies). For the customer's convenience, we offer three financing options:</p> <p>\$10,000.00 – \$24,999.00: 1 YEAR TERM</p> <p>\$25,000.00 – \$36,000.00: 1 or 2 YEAR TERM</p> <p>\$36,000.00 + : CHOICE OF 1, 2 or 3 YEAR TERM</p> <p>All freight and applicable taxes are due prior to shipping. All terms require a down payment of 15%.</p> <p>Final rates subject to OAC (on approved credit).</p>
51	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell participating entities' purchase orders.	<p>sofSURFACES' internal Sales Team are a part of all quotations and the final sale, and will assist with the complete process. Since our last Sourcewell contract was awarded, we have integrated a tool in our sales program to tag each Sourcewell project at the initial stages so that it is easily recognized in our volume of sales. Regardless of whether a sale is sold direct to the Sourcewell Member from sofSURFACES or if a member of our Dealer Network represents our contract and product in a sale, sofSURFACES' internal Sales Team will facilitate the order and submit the administrative fee.</p>
52	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	P-Card Procurement is not a payment option at this time but is being considered.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *
53	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcwell discounted price) on all of the items that you want Sourcwell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	sofSURFACES is offering line-item discounts of 10% off of the 2021 Product Price List for all our duraSAFE, duraTRAIN, duraSOUND, and duraSTRONG products. Based on the overall square footage (volume) there could be up to an additional 10%. All Accessories are at a fixed price and will not be discounted. This is our ceiling pricing that no sale will exceed. I have attached our 2021 Product Price List as well as our Sourcwell 2021 Product Price List. (US\$ and CDN\$)
54	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	sofSURFACES is offering 10% off of our MSRP with volume discounts available for up to another 10%.
55	Describe any quantity or volume discounts or rebate programs that you offer.	sofSURFACES will offer a quantity discount based on the overall square footage of the area. 0 - 499sqft - 0% 500-999sqft - 2.5% 1000-1999sqft - 5.0% 2000-3999sqft - 7.5% 4000 + sqft - 10.0%
56	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	sofSURFACES will work with the Sourcwell Member with the regard to pricing and delivery of any open market and /or non-standard options which would be desired. We would agree upon a desired outcome, and reflect this in the customer's proposal.
57	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	sofSURFACES includes Installation, site preparation, removal with most of our proposals. This pricing is specific for each project and so a contractual price cannot be factored in. sofSURFACES has several options for Installation all over Canada and the USA and will select the crew that aligns the best with the purchaser to offer the most competitive pricing.
58	If freight, delivery, or shipping is an additional cost to the Sourcwell participating entity, describe in detail the complete freight, shipping, and delivery program.	Shipping will be an additional cost to the Sourcwell Member so we can price as aggressive as possible on their behalf. We need to review on a case by case basis because there are so many variables when it comes to us shipping product to our customers. There are variances with each individual tile, each order, and each location. Our Logistics Department is in constant discussions with several brokers and carriers. They will request quotes for each order to find the most competitive carrier for the member's needs. With over 1600 projects sold a year our Carriers offer us very competitive pricing.
59	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	sofSURFACES has a history with shipping to Alaska and Hawaii and will assemble options that will best suit the Sourcwell Member. sofSURFACES headquarters is based in Canada and our Logistics Team has several sources to deliver material anywhere where needed.
60	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Each member has different needs so we will cater our delivery to whatever is needed. We have options for lift gates, residential deliveries, flat beds, weekends, specific hours. We will address what is needed and price accordingly.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	A self-audit process is in place specifically intended to verify compliance of cooperative purchasing contracts Our Contract Specialist pulls quarterly Sourcewell sales reports from our Sales System and calculates the associated fee for that time period. When validation is completed a report is sent to our Controller and Accounts Payable Department. Both departments will review before dispersing payment. Invoice documents for all Sourcewell projects are available for review upon request
63	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	sofSURFACES proposes a 2% administration fee calculated as a percentage of the customer contact sales price.

Table 14A: Depth and Breadth of Offered Equipment Products and Services
