

Strategic Technology Plan 2021-2031

Progress Monitoring: 2-22-23

Using This Document

Action Step 7.3.1 of the MDUSD Strategic Technology Plan, 2021-2031 states that the District will “Regularly communicate progress on the District Strategic Technology Plan through the District website, family communication platforms, and presentations to the Board of Education.” This document serves as a “dashboard” to outline our efforts to date. Items are color-coded as follows:

Fully Implemented	Implementation in Progress	Planning in Progress	Not Started
--------------------------	-----------------------------------	-----------------------------	--------------------

Goal 1: Modern Learning and Teaching

We believe MDUSD should foster a culture of lifelong learning. Students and staff should learn and use modern strategies and methods of utilizing technology to work effectively and efficiently. Teachers should be empowered to implement strategies for engaging every learner.

Strategies

Strategy 1.1: All students will regularly use technology at school and at home to engage with curriculum	Progress through 2-22-23
Action Step 1.1.1: Adopt and implement a framework for learning and teaching with technology that articulates a core set of instructional practices that support student modern learning skills and technology literacy skills as outlined in the Common Core State Standards, International Society for Technology in Education (ISTE) Standards for Students, and California Model School Library Standards.	Planning in Progress - Anticipated Start Date, 2023-24
Action Step 1.1.2: Implement and communicate a District-wide Digital Citizenship Curriculum, designed to be embedded within curricular content at all grade levels.	Implementation in Progress

Strategy 1.2: Provide quality, curriculum-aligned digital resources for learning and teaching	Progress through 2-22-23
Action Step 1.2.1: Maintain a set of core digital platforms, such as Google Classroom, to ensure consistent, reliable access to curricular materials for students across learning modalities. Enhance capabilities for schools to manage these tools effectively, such as through administrator access to Google Classroom.	Fully Implemented - Now in Maintenance Phase
Action Step 1.2.2: Maintain and refine the MDUSD Approved Digital Tools list to ensure the District continues to comply with Federal and State laws and meets our robust data privacy and security standards.	Fully Implemented - Now in Maintenance Phase

Action Step 1.2.3: Ensure that whenever possible, adopted technologies meet the needs of all students, including those with special needs.	Implementation in Progress
Action Step 1.2.4: Continue to ensure that new curriculum adoptions include a robust digital component to support digital access to content for students and teachers.	Implementation in Progress
Action Step 1.2.5: Communicate and implement the Technology Scope and Sequence and grade-level expectations to ensure consistent high expectations for all students.	Planning in Progress

Strategy 1.3: Support all teachers and instructional staff with high quality resources and professional learning	Progress through 2-22-23
Action Step 1.3.1: Create and maintain a schedule of required and suggested training opportunities to ensure staff in all job functions have differentiated, timely access to professional learning. Include training on the Technology Scope and Sequence and District Digital Citizenship Curriculum. Encourage all educators to complete the Google Educator Level 1 course.	Not Started - Anticipated Start Date, 2023-24
Action Step 1.3.2: Work with the Technology Integration Leaders (TILs) to create and maintain a comprehensive and accessible digital repository of training and professional learning resources to support instructional use of core digital platforms and applications, digital tools, data privacy and security practices, and other technologies. This site will include documentation, videos, how-to guides, and training schedules.	Implementation in Progress
Action Step 1.3.3: Maintain the District Technology Integration Leader (TIL) program to support schools with expert technology integration leadership.	Fully Implemented - Now in Maintenance Phase
Action Step 1.3.4: Create a set of supportive resources to foster a clear vision and common understanding of instructional priorities, including walk through protocols, and examples of strong technology-rich instructional practices.	Not Started - Anticipated Start Date, 2023-24

Action Step 1.3.5: Create a list of suggested technology proficiencies for staff in various job roles with aligned supports and training opportunities.

**Not Started - Anticipated Start Date,
2024-25**

Goal 2: Equitable Access to Technology for Learning and Teaching

We believe that educational, socioeconomic, neurodiverse, and racial equity are best advanced through a centralized plan and clear recursive process for all students to have regular access to technology regardless of school location or access levels at home. Resources should be allocated equitably across levels.

Strategies

Strategy 2.1: Ensure all students and staff have access to modern technologies necessary for modern learning and teaching	Progress through 2-22-23
Action Step 2.1.1: Maintain centrally-supported 1:1 programs at all MDUSD schools whereby all students in grades 2 through 12 have a device issued to them for their own use at school and at home. Provide sufficient devices for all students in grades K-1 for use at school.	Fully Implemented - Now in Maintenance Phase
Action Step 2.1.2: Maintain teacher laptops at all schools by providing a supported District standard laptop device.	Implementation in Progress - Anticipate Full Implementation by June, 2023
Action Step 2.1.3: Maintain a fully budgeted District-wide technology refresh plan to centralize technology purchasing on a three-to-four year cycle and ensure student and teacher/administrator devices are up-to-date and capable of supporting daily tasks.	Planning in Progress
Action Step 2.1.4: Maintain a centralized asset management system (Destiny Resource Manager) to serve all District sites as a single repository for mobile device inventory, and expand inventory to include audio-visual equipment, printers, and staff devices.	Implementation in Progress - Under Review Regarding Potential Migration to New System
Action Step 2.1.5: Operationalize support for the District 1:1 program by providing centralized support for warranty repairs, break-fix, and device deployment coordinated collaboratively	Fully Implemented - Now in Maintenance Phase

through the Technology and Information Services and Purchasing and Warehouse Departments. Ensure continued staffing and resources to support this move to centralized provision of technology deployment services.	
Action Step 2.1.6: In collaboration with stakeholders, maintain and regularly update a comprehensive list of standard devices, peripherals, assistive technologies, and other equipment to ensure equitable support can be provided for technology in schools. Ensure that purchases made by school sites conform to established standards regardless of funding source.	Fully Implemented - Now in Maintenance Phase
Action Step 2.1.7: Establish technology specifications for elementary, middle, and high school classrooms, including a process for approving exceptions to these standards for specific use cases.	Planning in Progress - Draft Education Specification Being Presented to Board of Education, 2-22-23

Strategy 2.2: Support home device, connectivity, and technical support needs to the extent possible	Progress through 2-22-23
Action Step 2.2.1: Maximize opportunities for students and families to access the District network while at school outside of regular school hours by providing external WiFi coverage in common areas and facilitating access at school programs.	Not Started - Addressed in Draft Education Specification and Subsequent Network Design - Anticipated Deployment Start, 2025-26
Action Step 2.2.2: Regularly maintain and communicate lists of resources for families with low-cost options for Internet service. Collaborate as possible with industry partners to provide information and access to programs. Provide information to schools to assist families in accessing these options.	Fully Implemented - Now in Maintenance Phase
Action Step 2.2.3: Provide resources to schools to assist site staff to support families' questions, including how-to guides and a web-based help page.	Implementation in Progress

Goal 3: Professional and Timely Support

We believe that all students, staff, and families should be expertly and professionally supported in their effective use of technology within learning communities to maximize student achievement and build modern learning skills.

Strategies

Strategy 3.1: Establish an enterprise model of technology support to best meet the needs of a modern, technology rich organization.	Progress through 2-22-23
Action Step 3.1.1: Build on the successes of the District-wide technology work order system to improve the visibility to users of technology support requests. Ensure all staff can enter work orders, and that designated site staff may view open work orders at their sites.	Fully Implemented - Now in Maintenance Phase (Transition of Asset Management System May Include a More Robust Work Order System)
Action Step 3.1.2: Complete the transition to an equitable zone system of deploying field technicians, prioritizing need rather than “time on site,” and fostering collaborative support and project work among technicians.	Fully Implemented - Now in Maintenance Phase
Action Step 3.1.3: Build on existing strategies and tools to address user needs in the most timely manner, including by maximizing the use of remote support software for deployment, troubleshooting, and technical support.	Implementation in Progress
Action Step 3.1.4: Strengthen collaborative efforts between Technology and Information Systems staff and site leaders, including Technology Integration Leaders (TILs), through resources and training and by allowing access for TILs to the work order system.	Planning in Progress
Action Step 3.1.5: Refresh and regularly update the Technology and Information Systems web page enabling users to more readily access resources for self-help and include commonly requested support and training resources.	Implementation in Progress - Full Implementation and Conversion

	Anticipated in 2023-24 in Connection with New District Website
Action Step 3.1.6: Identify additional innovative ways to increase technical support capacity, such as through technical support electives for students, internships, etc.	Not Started
Action Step 3.1.7: Establish clear, ongoing, and job-embedded training options for Technology and Information Services staff that empower technicians to perform their important functions expertly and efficiently, and provide opportunities for all staff to improve their skills and advance to more senior positions as they become available within the District.	Planning in Progress

Strategy 3.2: Standardize device management, deployment, and removal from service, to ensure efficient, timely support.	Progress through 2-22-23
Action Step 3.2.1: Require use of the District asset management system for all check-in / check-out of devices, ewaste, and invoicing.	Implementation in Progress
Action Step 3.2.2: Ensure all District devices are managed centrally through systems that allow efficient deployment of hardware and software and allow remote support.	Implementation in Progress
Action Step 3.2.3: Ensure all devices approaching end of life are removed from the District inventory and eWasted in a timely manner to increase compatibility, reliability, and functionality of devices in service. Establish clear communication channels among schools, Purchasing and Warehouse, and Technology and Information Services to ensure timely eWasting of equipment.	Implementation in Progress
Action Step 3.2.4: Establish tiered support levels for all District-standard technologies to clearly outline what support users can expect, and identify end-of-life dates. Include refresh dates for District-issued Chromebooks and staff laptops.	Planning in Progress

Goal 4: Robust Network Infrastructure and Technology Operations

We believe that a student-focused, results-oriented organization must provide secure, reliable, and effective technology services to enable a first-rate learning environment where students, staff, and families can achieve their collaborative and individual goals.

Strategies

Strategy 4.1: Provide adequate connectivity for learning, teaching, and business operations through a reliable future-proofed modern network.	Progress through 2-22-23
Action Step 4.1.1: Maintain the needed Internet and WAN throughput to schools and central services sites, utilizing the federal E-Rate program where possible, to ensure user needs are met, and bandwidth is scalable. In future planning, consider the recommendations outlined by the State Educational Technology Directors Association (SEDTA) for peak utilization capacity for digital learning.	Fully Implemented - Now in Maintenance Phase
Action Step 4.1.2: Create thorough, detailed standards for network infrastructure at all District sites to support anticipated needs and a 40 Gbps backbone, including wired and wireless networks, structured cabling, fiber optic and ethernet cabling, routing and switching, MPoE/MDFs/IDFs.	Implementation in Progress - Anticipated Completion will be in Connection with Network Design Development (to be Presented to Board of Education for Approval, 3-8-23)
Action Step 4.1.3: Create a complete network design, including designs for each site, informed by assessments, educational specifications, and standards.	Planning in Progress - Network Design Development Contract to be Presented to Board of Education for Approval, 3-8-23)

Action Step 4.1.4: Coordinate the implementation of a managed project in prioritized phases - initially prioritizing schools with known critical connectivity issues - to efficiently and responsibly utilize available funding sources, such as Measure J, E-Rate, the California Assembly Bill No. 86 (A.B. 86) COVID-19 Relief Package, and the Elementary and Secondary School Emergency Relief Fund (ESSER I, ESSER II, and ESSER III) in modernizing the network at all District sites.	Planning in Progress - Network Design Development Contract to be Presented to Board of Education for Approval, 3-8-23)
Action Step 4.1.5: Concurrent with the network modernization project, create an infrastructure refresh plan as a component of the District's Deferred Maintenance Plan to ensure the cyclical replacement of network infrastructure components, including an annual budget.	Planning in Progress - Requires a More Robust Asset Management System (to be Presented to Board in Spring, 2023)

Strategy 4.2: Modernize and sustain core business and academic systems	Progress through 2-22-23
Action Step 4.2.1: Evaluate the functionality and interoperability of core business and academic systems to determine current and future needs and inform potential changes or acquisitions of new business and academic systems.	Not Started
Action Step 4.2.2: Continue to evaluate cloud hosted options for critical business systems, such as our Enterprise Resource Planning (ERP) system, and Student Information System (SIS), to improve reliability, sustainability, and disaster recovery.	Planning in Progress
Action Step 4.2.3: Regularly evaluate existing business systems to consider current and future needs and determine if a transition to new systems is warranted and feasible.	Planning in Progress
Action Step 4.2.4: Evaluate the viability of deploying a District-wide document management system to meet the document storage and retrieval needs of District departments.	Planning in Progress
Action Step 4.2.5: Consider transitioning from the current outdated Private Branch Exchange (PBX) phone system to a modern VoIP system as part of the network refresh program.	Planning in Progress - Determination of Feasibility will Occur Concurrent with Network Design

Action Step 4.2.6: Define standards and a long-range plan for site security cameras, including purposed standard locations, and refresh cycle.	Planning in Progress
Strategy 4.3: Ensure continued, reliable information technology operations by aligning available resources to technology needs.	Progress through 2-22-23
Action Step 4.3.1: Align staffing and funding resources to adequately support existing and future district technology systems. Consider the need for failover for critical services to avoid knowledge loss in the event of staff turnover by establishing training and pathways for junior technicians to support core systems.	Implementation in Progress
Action Step 4.3.2: Work alongside union partners to modernize job descriptions in accordance with the technology needs of a large district.	Implementation in Progress - Three Job Descriptions Completed and Approved
Action Step 4.3.3: Provide technicians with dedicated and job-embedded training aligned to District systems, including time within the contract day for training.	Implementation in Progress
Strategy 4.4: Establish modern business continuity and disaster recovery practices and deploy needed systems to ensure the continued, reliable operation of critical business systems.	Progress through 2-22-23
Action Step 4.4.1: Maintain the reliability of data center operations through a modern Hyperconverged Infrastructure (HCI) model.	Fully Implemented
Action Step 4.4.2: Maintain backup strategies to apply industry standard practices to protect critical District data from disasters and security incidents, and provide for timely recovery.	Fully Implemented
Action Step 4.4.3: In collaboration with all District departments, conduct a thorough business impact analysis and prepare a business continuity / disaster recovery plan. Ensure that MDUSD	Not Started

department “business owners” are designated for all critical business systems to inform desired service levels.	
Action Step 4.4.4: Develop a clear cloud strategy for core services to ensure adequate backups and disaster recovery and meet business continuity needs as appropriate.	Fully Implemented
Action Step 4.4.5: Assess the feasibility and desirability of establishing a secondary data center to provide additional failover and disaster recovery capacity, and the potential addition of a second Internet Service Provider.	Not Started

Goal 5: Comprehensive Cyber Security and Data Privacy

We believe that effective technology use by students, staff, and families requires safe and secure tools and an environment in which all technology users value privacy and security and are prepared with skills and knowledge to interact appropriately with technology.

Strategies

Strategy 5.1: Improve, sustain, and test the District's cybersecurity posture	Progress through 2-22-23
Action Step 5.1.1: Create and implement a comprehensive District Information and Cyber Security Plan with a strong focus on implementing the Center for Internet Security (CIS) Critical Security Controls.	Planning in Progress
Action Step 5.1.2: Maintain updated systems to protect District users, technologies, and data, including firewall, antivirus, network access control, authentication and user access management.	Implementation in Progress
Action Step 5.1.3: Develop an incident response plan to ensure an effective, timely response to a variety of possible technology and security incidents.	Implementation in Progress - Ransomware Incident Response Plan Complete, Others Forthcoming
Action Step 5.1.4: Continue to conduct regular security vulnerability assessments and penetration tests to verify and improve security protections.	Fully Implemented - Now in Maintenance Mode
Action Step 5.1.5: Assess, manage, and mitigate security risk by maintaining an up to date risk register discussed regularly by District leadership.	Fully Implemented

Strategy 5.2: Establish a clear and comprehensive culture of data stewardship, data privacy, and data security.	Progress through 2-22-23
Action Step 5.2.1: Establish and implement data privacy and security standards and practices as outlined in the Consortium for School Networking's (CoSN) Trusted Learning Environment (TLE) framework (trustedlearning.org), and strive to earn the TLE Seal.	Not Started
Action Step 5.2.2: Consolidate and reduce options for user, department, and school data storage to provide ready access to needed data while minimizing the potential for unintended exposure of sensitive and personal data. Expand staff use of Google Drive cloud-stored data to improve safety and security and decrease the potential for data loss.	Implementation in Progress
Action Step 5.2.3: Incorporate data privacy and cyber security awareness into training for all staff. Provide staff with resources and guidelines on data privacy and security in a cloud environment.	Planning in Progress
Action Step 5.2.4: Adopt an integrated platform for classroom management, filtering, and behavior alerting to facilitate safe teaching and learning with technology.	Fully Implemented - GoGuardian Available at all Sites for Filtering and Classroom Management. Bark for School Plus Pilot Underway for Behavior Alerting

Goal 6: Sustainability

We believe that ensuring students, staff, and families have regular access to essential technologies demands that technology be acquired purposefully and sustainably.

Strategies

Strategy 6.1: Identify efficiencies and cost-savings created by technology acquisitions and clearly articulate funding sources when acquiring technology.	Progress through 2-22-23
Action Step 6.1.1: Develop and clearly communicate a technology refresh plan outlining which technologies are provided centrally to all sites and which are the responsibility of individual sites. Incorporate all existing and potential funding sources, such as E-Rate and relevant bond measures.	Implementation in Progress
Action Step 6.1.2: Create a 1:1 technology sustainability plan to ensure program continuation and to identify potential cost savings and efficiencies created. Include the acquisition of tools to monitor 1:1 technology use and impact, digital tools use and impact, and overall program cost. Develop and communicate expectations for cost saving efforts, including reduced use of paper and increased use of digital communication for students and families.	Implementation in Progress
Action Step 6.1.3: Adopt technologies to improve analytics related to the instructional use of digital tools to inform continued and future acquisition, and make sustainable, learning-focused decisions about acquisition of supplemental digital materials.	Implementation in Progress - Classlink is in Deployment
Strategy 6.2: Maximize the strategic use of available targeted, one-time, and grant funding opportunities	Progress through 2-22-23
Action Step 6.2.1: Establish a clear review process for technology hardware and software	Planning in Progress

purchases utilizing targeted, one-time, and grant funding to ensure the District can identify best practices and scale as appropriate. Include consideration of non-standard technologies for specific purposes, such as assistive technologies.	
Action Step 6.2.2: Create a register of proposed learning technology projects to enable appropriate targeting of grant opportunities informed by District priorities.	Planning in Progress

Strategy 6.3: Modernize technology purchasing practices to leverage efficiencies	Progress through 2-22-23
Action Step 6.3.1: To the extent possible, continue to leverage allowable cooperative and piggyback contracts to streamline and standardize purchasing and assure a professional level of service for technology acquisitions. Reduce time-consuming bidding processes to enable staff to focus on vendor partnerships, and establishment of and accountability to District standards.	Implementation in Progress
Action Step 6.3.2: For proposed technology hardware and software acquisitions, require multi-year budgeting be considered prior to approval.	Not Started
Action Step 6.3.3: For proposed software acquisitions, require vendors complete a District software acquisition checklist in collaboration with sponsoring departments and schools to ensure compatibility, appropriate privacy and security, and to ensure any additional costs or resources required due to the acquisition are minimized.	Fully Implemented
Action Step 6.3.4: Seek and maintain long-term partnerships with vendors that provide stability, support, professionalism, and commitment to the needs of MDUSD.	Implementation in Progress

Goal 7: Technology Governance, Continuous Improvement, and Communication

We believe that technology oversight, policies, and capacity building exercises should be inclusive, consultative, guided by best practices, and reflect the needs of all stakeholders.

Strategies

Strategy 7.1: Align the prioritization, acquisition, management, implementation, and progress monitoring of District technologies with District priorities.	Progress through 2-22-23
Action Step 7.1.1: Create and regularly update a comprehensive technology policy framework to ensure vertical and horizontal alignment of District priorities and compliance efforts. This framework should encompass board policy, administrative regulation, administrative procedures, and Department processes.	Planning in Progress
Action Step 7.1.2: Establish a stakeholder-driven technology standards committee to create, revise, and communicate District technology standards for devices, systems, and software. This committee would also consider emerging technologies to ensure the District can best anticipate future educational needs. Importantly, this committee will also consider the needs of all students, including those with special needs and English Learners.	Planning in Progress
Action Step 7.1.3: Continue governance activities related to the approval of digital tools to effectively assess educational need, security and privacy implications, and cost considerations for all digital tools used in MDUSD. Ensure the continuation of a clear process for submitting additional digital tools for consideration.	Implementation in Progress
Action Step 7.1.4: Establish a clear process whereby District leadership is empowered as	Not Started

decision-makers regarding information security and cybersecurity, including the identification, assessment, and management of risk.	
Action Step 7.1.5: In coordination with the development of District policy regarding data use, management, retention, and access, consider the creation of a formal data governance structure to oversee District data priorities.	Not Started
Action Step 7.1.6: Annually update the District Strategic Technology Plan to reflect changing needs, incorporate stakeholder input. Establish a process to ensure active, meaningful participation of stakeholder groups in the plan revision process.	Fully Implemented - Annual Process is in Place

Strategy 7.2: Support schools to focus on continuous improvement	Progress through 2-22-23
Action Step 7.2.1: Require annual submission by all schools of a five-year technology plan based on a simple template to outline and clearly communicate instructional priorities, device acquisition priorities, and professional learning supports.	Planning in Progress
Action Step 7.2.2: Require all schools to maintain an active technology committee representative of stakeholders, including students, families, and staff.	Planning in Progress

Strategy 7.3: Communicate progress with stakeholders	Progress through 2-22-23
Action Step 7.3.1: Regularly communicate progress on the District Strategic Technology Plan through the District website, family communication platforms, and presentations to the Board of Education.	Fully Implemented
Action Step 7.3.2: Rename the Technology and Information Services (TIS) Department to the Department of Information Technology (IT Department) to better reflect a modern, professional organization supporting a large user base and sizable network.	Fully Implemented
