**General Description of Services:**

Grade Levels Served: **K-12**

Subject Area(s): **Math or Language Arts**

Program Overview - English and Spanish (*Maximum 50 words for EACH language/can be sent on a separate sheet*) - should be consistent with description on your CDE application:

We provide individualized instruction in Language Arts or Math for grades K-12 with the use of an Apple iPad, Android tablet, or workbook. Once the tutoring sessions are completed you will receive one free to keep. Our educators work with children with learning disabilities (IEP plans) and ESL students.

Describe the record of success for your program (*25 words or less*): The average improvement in pre-test to post-test scores for Language Arts and Math in grades K through 12 was 18.29% for the first year and 23.89% for the second year in our program.

Description of the format/content of Program Summary Final Report of student progress (including pre-and post assessment tools used): Student progress will be measured using ACHIEVE assessment, tutor observation and feedback. We use these assessments because the ACHIEVE assessments have been extensively studied to determine reliability and validity. We train our tutors on how to administer the diagnostic tests to insure that results are uniform and unbiased. Just as students are pre-tested, they are also post-tested and these results are also communicated to the student's parents and school (if required), as well as the school district. Our assessments are an excellent means of finding out the strengths and weaknesses of each child, particularly as they relate to California standards.

Mode of Instructional Delivery:

- One-on-one in person
- Online Provider: if so, computer provided     Yes     No
- Small-group instruction: if so, teacher/student ratio: **1:5**
- Other:
