The Governing Board of Mt Diablo Unified School District recognizes that all district staff and students must be prepared to respond quickly and responsibly to emergencies, disasters, and threats of disaster. The district shall take all reasonable steps to prevent and/or mitigate the impact of a disaster on district students, staff, and schools.

The Superintendent or designee shall develop and maintain a disaster preparedness plan which contains routine and emergency disaster procedures, including, but not limited to, earthquake emergency procedures and adaptations for individuals with disabilities in accordance with the Americans with Disabilities Act. Such procedures or suitably modified versions shall be incorporated into the comprehensive school safety plans annually reviewed by the Superintendent or designee. (Education Code 32282)

(cf. 0400 - Comprehensive Plans)

(cf. 0450 - Comprehensive Safety Plan)

(cf. 3516.1 - Fire Drills and Fires)

2. Earthquake, flood, or other natural disasters

(cf. 3516.3 - Earthquake Emergency Procedure System)

7. Medical emergencies and quarantines, such as a pandemic influenza outbreak

(cf. 5141.22 - Infectious Diseases)

The Superintendent or designee shall use state-approved Standard Emergency Management System guidelines established for multiple-jurisdiction or multiple-agency operations and with the National Incident Management System.

The Superintendent or designee shall consult with city and/or county agencies so that district and site plans may provide the best possible way of handling each situation and also provide for emergency communications systems between these agencies and each district school.

The Superintendent or designee may provide a plan which allows bus seating capacity limits to be exceeded when a disaster or hazard requires students to be moved immediately to ensure their safety. (Education Code 39834)

(cf. 3543 - Transportation Safety and Emergencies)

Disaster preparedness exercises shall be held regularly at each school site and shall demonstrate how safety procedures may be applied to various types of emergencies. All students and employees shall receive instruction regarding emergency plans.

The Board encourages all employees to become proficient in first aid and cardiopulmonary resuscitation (CPR). The Superintendent or designee shall ascertain that at least one staff member at each school holds a valid certificate in these areas. The Superintendent or designee shall provide for CPR in-service training to be offered at least once a year for district staff.

The Board shall grant the use of school buildings, grounds, and equipment to public agencies, including the American Red Cross, for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare. The Board shall cooperate with such agencies in furnishing and maintaining whatever services the district may deem necessary to meet the community's needs. (Education Code 32282)
