Assessment of the Current Status of School Crime EC 32282(a)(1)

Each school is required to assess the current status of school crime committed on the school campus and at school-related functions. You may accomplish this by reviewing the following type of information: Local law enforcement crime data; suspension/expulsion data; behavior referrals; counseling referrals; attendance rates; SART/SARB data; CHK Survey data; SPSA data; property damage/vandalism data; or any other data pertinent to your assessment. Identify the specific data sources used in your assessment.

Conclusions from Assessment of Current Status of School Crime

Your assessment conclusions should reflect input from staff, students, parents and community members, as appropriate. Overall, the number of suspensions at Riverview Middle School has increased over the past two years.

School attendance data indicates that support to all grades in an effort to decrease the number of chronic absences should be continued. Additional focus and support for 8th grade students to correct chronic attendance by employing various positive interventions (i.e.; SARB, CCT, incentive/rewards, parent engagement).

Riverview Middle School employs a variety of measures to help students with attendance and behavioral concerns, including student study teams, teacher team meetings, flexible scheduling, weekly coordinated care meetings, individual and group counseling. Other programs that support school safety, academics and behavior is our counseling program, a full time School Resource Officer, Counseling interns program, the After School Program, a part-time counselor and two student service coordinator who coordinate school counseling interns and focuses attention on promoting school attendance.

We continue to see an increase in Coordinated Care team (CCT) referrals due to the increase in Team Meetings, collaboration and early interventions employed. The CCT, which provides counseling support services to students and their families, has continued to support our learning environment.

The California Healthy Kids Survey (CHKS) results indicated that the majority of students responded favorably (moderate/high) to the school environment and community environment. Overall the CHKS did not point to any significant negative trends. Statistics indicate that Riverview provides a safe and secure climate for student learning. Further, Riverview provides programs designed to

foster a climate of respect by all stakeholders from each other, toward each other. There is a no-tolerance policy for weapons, drugs, alcohol and fighting. Students understand the expectations and work together to create incentives to involve the entire school community and reduce the number of student altercations on campus.

The school Positive Behavior Intervention and Support Team seeks to re-frame punitive discipline systems as an alternative to suspension/expulsion to a restorative justice framework through incentives, rewards and social accountability for students. Teachers will participate in Professional Development (PD) at a minimum of five times per school year; an appointed teacher leader team will create structures for weekly accountability and assessment.

Provide and Maintain a High Level of School Safety EC 32282(a)(2)

Identify appropriate strategies and programs that provide and maintain a high level of school safety.

AERIES is used to track student behavior. Analyzing patterns of behavior using data generated from these programs assists school administrators in creating a positive school climate and implementing change at their school sites. Riverview Middle School uses this data base to increase awareness and implement student support.

SART/SARB generates attendance reporting and recording which encourages and promotes student attendance and participation in their education.

ELAC/PFC is Riverview's Parent Faculty Club (both English and Spanish speaking) which reaches out to our community members and families for additional support and shared information services.

Multicultural Parenting classes offered in both Spanish and English, e.g., PIQUE.

SEIS was implemented last spring as the data base for all IEPs.

Staff members have implemented the BEST Practices. This program uses positive reinforcement to teach appropriate behaviors in and out of the classroom. The staff adopted 4 basic school-wide expectations.

- Respect
- Responsibility
- Collaboration
- Encouragement

School Beautification Program

Alarm upgrades and additional security in non-session hours to monitor campus.

2015-16 School year, Riverview has a full-time gardener.

Rules, Procedures & School Discipline

Riverview Middle School(RMS) and Gateway High School follow Education Code, the laws that govern public schools. This code is designed to protect our students and make the learning environment safe. It is very important that Riverview students, parents, and staff remain informed about their rights and responsibilities as stated in the RMS agenda book. For students of Gateway HS, quarterly letters are sent home to keep students and parents informed about their rights and responsibilities. Staff is kept abreast through staff meetings and periodic in-services.

Riverview Middle School and Gateway High School staff incorporated a progressive discipline system in the classroom and campus wide. Teachers are expected to give student feedback regarding their inappropriate behavior while in the classroom. Each teacher establishes routines and procedures that help the class operate in an emotionally and physically safe environment. Parents are notified when students do not comply with these rules and procedures. When student safety is jeopardized, the teacher makes a support call. Swift and appropriate consequences are determined by an administrator.

Additionally, all staff shares in the supervision of areas outside the classroom. Teachers stand at their classroom door between classes to supervise the passing period. Each teacher is assigned a 15-minute supervision before or after school, every 3 weeks. We believe that adult presence gives students permission to behave in an educationally safe manner. Trained crossing guards facilitate students safely crossing streets to and from Riverview's campus. Parents are welcome throughout the school day to visit their child's classroom to support their academic progress.

Discipline

The Governing Board desires to prepare students for responsible citizenship by fostering self-discipline and personal responsibility. The Board believes that high expectations for student behavior, effective classroom management, and parent involvement can minimize the need for discipline. Staff shall use preventative measures, positive conflict resolution techniques, and positive behavioral support strategies whenever possible.

Training of mandated reporters shall include child abuse identification and reporting. All employees receiving such training shall receive written notice of state reporting requirements and employees' confidentiality rights. (Penal Code 11165.7)

Training shall also include guidance in the appropriate discipline of students, physical contact with students, and maintenance of ethical relationships with students to avoid actions that may be misinterpreted as child abuse.

Victim Interviews

Upon request, a representative of an agency investigating suspected child abuse or neglect may interview a suspected victim during school hours, on school premises, concerning a report of suspected child abuse or neglect that occurred within the child's home or out-of-home care facility. The child shall be given the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the child. (Penal Code 11174.3)

A staff member or volunteer aide selected by a child may decline to be present at the interview. If the selected person accepts, the principal or designee shall inform him/her, before the interview takes place, of the following requirements: (Penal Code 11174.3)

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable him/her to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of the Child Abuse and Neglect Reporting Act, a violation of which is punishable as specified in Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

Release of Child to Peace Officer

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse or neglect, the Superintendent or designee and/or principal shall not notify the parent/guardian as required in other instances of removal of a child from school, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer or agent to notify the parent/guardian of the situation. (Education Code 48906)

Peace officers shall be asked to sign an appropriate release or acceptance of responsibility form.

Parent/Guardian Complaints

Upon request, the Superintendent or designee shall provide parents/guardians with procedures whereby they can report suspected child abuse occurring at a school site to appropriate agencies. Such procedures shall be in the primary language of the parent/guardian and, when communicating orally regarding those procedures, an interpreter shall be provided for parents/guardians whose primary language is other than English. (Education Code 48987)

To file a complaint against a district employee or other person suspected of child abuse or neglect at a school site, parents/guardians may file a report by telephone, in person or in writing with any appropriate agency identified above under "Reporting Procedures."

If a parent/guardian makes a complaint to any district employee, that employee shall notify the parent/guardian of procedures for filing a complaint with the appropriate agency and also is obligated pursuant to Penal Code 11166 to file a report himself/herself using the procedures described above for mandated reporters.

In addition, if the child is enrolled in special education, a separate complaint may be filed with the California Department of Education pursuant to 5 CCR 4650(a)(viii)(C).

Notifications

The Superintendent or designee shall give persons hired by the district a statement informing them that they are mandated by law to report suspected child abuse and neglect, inform them of their reporting obligations under Penal Code 11166, and provide a copy of Penal Code 11165.7 and 11166. Before beginning employment, employees shall sign the statement indicating that they have knowledge of the reporting obligations under Penal Code 11166 and that they will comply with those provisions. The signed statements shall be retained by the Superintendent or designee. (Penal Code 11166.5)

Employees who work with dependent adults shall be notified of legal responsibilities and reporting procedures pursuant to Welfare and Institutions Code 15630-15637.

The Superintendent or designee shall also notify all employees that:

1. A mandated reporter who reports a known or suspected instance of child abuse or neglect shall not be held civilly or criminally liable for making a report. Any other person making a report shall not incur civil or criminal liability unless it can be proven that he/she knowingly made a false report or made a report with reckless disregard of the truth or falsity of the report. (Penal Code 11172)
2. If a mandated reporter fails to report an incident of known or reasonably suspected child abuse or neglect, he/she is guilty of a misdemeanor punishable by a fine and/or imprisonment. (Penal Code 11166)
3. No employee shall be subject to any sanction by the district for making a report. (Penal Code 11166)

School Suspension, Expulsion and Mandatory Expulsion Guidelines BP/AR 5144.1; AR 5144.2

MDUSD BP 5144.1

Grounds for Suspension and Expulsion

The Governing Board has established policies and standards of behavior in order to promote learning and protect the safety and well-being of all students. When these policies and standards are violated, it may be necessary to suspend or expel a student from regular classroom instruction.

Suspended or expelled students shall be denied the privilege of participation in all extracurricular activities during the period of suspension or expulsion.

Except where suspension for a first offense is warranted in accordance with law, suspension shall be imposed only when other means of correction fail to bring about proper conduct. (Education Code 48900.5)

Expulsion is an action taken by the Board for severe or prolonged breaches of discipline by a student. Except for single acts of a grave nature, expulsion shall be used only when there is a history of misconduct, when other forms of discipline, including suspension, have failed to bring about proper conduct, or when the student's presence causes a continuing danger to self or others.

The grounds for suspension and expulsion and the procedures for considering, recommending and/or implementing suspension and expulsion shall be those specified in law and/or administrative regulation.

The Board supports a zero tolerance approach to serious offenses in accordance with state and federal law. This approach makes the removal of potentially dangerous students from the classroom a top priority and ensures the standardized treatment of all students. Staff shall immediately report to the Superintendent or designee any incidence of offenses specified in law, Board policy, and administrative regulation as cause for suspension or expulsion.

Alternatives to suspension or expulsion will be used with students who are truant, tardy, or otherwise absent from assigned school activities. (Education Code 48900(w))

Students with Disabilities

MDUSD AR 5144.2

Suspension And Expulsion/Due Process (Students With Disabilities)

A student identified as an individual with disabilities pursuant to the Individuals with Disabilities Education Act (IDEA) is subject to the same grounds for suspension and expulsion which apply to students without disabilities.

A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated the district's disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the district had knowledge that the student was disabled before the behavior occurred. (20 USC 1415(k)(8))

The district shall be deemed to have knowledge that the student had a disability if one of the following conditions exists: (20 USC 1415(k)(5); 34 CFR 300.534)

1. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, that the student is in need of special education or related services.
2. The behavior or performance of the student demonstrates the need for such services, in accordance with 34 CFR 300.7.
3. The parent/guardian has requested an evaluation of the student for special education pursuant to 34 CFR 300-300.311
4. The teacher of the student or other district personnel has expressed concern about the behavior or performance of the student to the district's Special Education Administrator or to other personnel in accordance with the district's established child find or special education referral system.

A district would not be deemed to "have knowledge" as specified in items #1-4 above, if, as a result of receiving such information, the district either (1) conducted an evaluation and determined that the student was not a student with a disability, or (2) determined that an evaluation was not necessary and provided notice to the parent/guardian of its determination. (34 CFR 300.527)

If it is determined that the district did not have knowledge that the student was disabled, then the student shall be disciplined in accordance with procedures established for students without disabilities. (20 USC 1415(k); CFR 300.534)

If a request is made for an evaluation of a student during the time period in which the student is subject to disciplinary measures, the evaluation shall be conducted in an expedited manner. Until the evaluation is completed, the student shall remain in the educational placement determined by school authorities. (20 USC 1415K(5); 34 CFR 300.534)

Suspension

The Superintendent or designee may suspend a student with a disability for up to five consecutive school days for a single incident of misconduct, and for up to 20 school days in a school year. If the student is transferred to another school or alternative educational program, the student may be suspended for up to 30 school days in a school year, but still no more than five days for a single incident of misconduct, unless the student is suspended by the Governing Board pursuant to Education Code 48912. (Education Code 48903, 48911)

The principal or designee shall monitor the number of days, including portions of days, students with a valid individualized education program (IEP) have been suspended during the school year.

If the student poses an immediate threat to the safety of himself/herself or others, the Superintendent or designee may suspend the student for up to, but not more than, 10 consecutive school days if the student's parent/guardian agrees or a court order so provides. (Education Code 48911)

Services During Suspension

Students suspended for more than 10 school days in a school year shall continue to receive a free and appropriate public education during the term of the suspension. School personnel, in consultation with at least one of the student's teachers, shall determine the extent to which services are needed as provided in 34 CFR 300.101(a), so as to enable the student to continue to participate in the general education curriculum in another setting and to progress toward meeting the goals as set out in his/her IEP. (20 USC 1412(a)(1)(A); 34 CFR 300.520, 300.530)

Interim Alternative Placement Due to Dangerous Behavior

A student with a disability may be placed in an appropriate interim alternative educational setting when he/she commits one of the following acts: (20 USC 1415(k)(1))

1. Carries a weapon, as defined in 18 USC 930, to school or to a school function
2. Knowingly possesses or uses illegal drugs while at school or a school function
3. Sells or solicits the sale of a controlled substance while at school or a school function
4. Inflicts serious bodily injury upon another person as defined in 18 USC 1365.

A hearing officer may order a change in placement of a student with a disability to an appropriate interim educational setting if the hearing officer: (20 USC 1415(k)(2))

1. Determines that the district has established by substantial evidence that maintaining the current placement of the student is substantially likely to result in injury to the student or others
2. Considers the appropriateness of the student's current placement
3. Considers whether the district has made reasonable efforts to minimize the risk of harm in the student's current placement, including the use of supplementary aids and services
4. Determines that the interim alternative educational setting allows the student to participate in general curriculum, to continue to receive IEP services and to receive services designed to ensure that the behavior does not recur

The student may be placed in the interim alternative educational setting for up to 45 days, or until the conclusion of any due process hearing proceedings requested by the parent/guardian. (20 USC 1415(k)(2))

The student's alternative educational setting shall be determined by the student's IEP team. (20 USC 1415(k)(2))

Manifestation Determination

The following procedural safeguards shall apply when a student with a disability is suspended for more than 10 consecutive school days, when a series of removals of a student constitutes a pattern, or when a change of placement of a student is contemplated due to a violation of the district's code of conduct:

1. Notice: On the date the decision to take disciplinary action is made, the parents/guardians of the student shall be notified of the decision and provided the procedural safeguards notice pursuant to 34 CFR 300.504. (20 USC 1415(k)(1)(H); 34 CFR 300.530)

2. Manifestation Determination Review: Immediately if possible, but in no case later than 10 school days after the date the decision to take disciplinary action is made, a manifestation determination review shall be made of the relationship between the student's disability and the behavior subject to the disciplinary action. (20 USC 1415(k)(1)(E); 34 CFR 300.530)

At the manifestation determination review, the district, the student's parent/guardian, and relevant members of the IEP team (as determined by the district and parent/guardian) shall review all relevant information in the student's file, including the student's IEP, any teacher observations, and any relevant information provided by the parents/guardians, to determine whether the conduct in question was either of the following: (20 USC 1415(k)(1)(E); 34 CFR 300.530)

- a. Caused by or had a direct and substantial relationship to the student's disability
- b. A direct result of the district's failure to implement the student's IEP, in which case the district shall take immediate steps to remedy those deficiencies

If the manifestation review team determines that a condition in either #a or #b above was met, the conduct shall then be determined to be a manifestation of the student's disability. (20 USC 1415(k)(1)(E); 34 CFR 300.530)

3. Determination that Behavior is a Manifestation of the Student's Disability: When the conduct has been determined to be a manifestation of the student's disability, the IEP team shall conduct a functional behavioral assessment, unless a functional behavioral assessment had been conducted before the occurrence of the behavior that resulted in the change of placement, and shall implement a behavioral intervention plan for the student. If a behavioral intervention plan has already been developed, the IEP team shall review the behavioral intervention plan and modify it as necessary to address the behavior. (20 USC 1415(k)(1)(F); 34 CFR 300.530)

The student shall be returned to the placement from which he/she was removed, unless the parent/guardian and district agree to a change of placement as part of the modification of the behavioral intervention plan. (20 USC 1415(k)(1)(F); 34 CFR 300.530)

As soon as practicable after developing the behavioral intervention plan and completing the required assessments, the IEP team shall meet to develop appropriate behavioral interventions to address the behavior and shall implement those interventions. (34 CFR 300.520)

If a student with disabilities who has a functional behavioral plan is subject to a removal for more than 10 school days in a school year that does not constitute a change in placement, the IEP team members shall review the behavioral intervention plan and its implementation to determine if modifications are necessary. (34 CFR 300.520)

The following procedural safeguards shall apply when a student is suspended for more than 10 school days, when disciplinary action is contemplated for a dangerous behavior as described above, or when a change of placement of more than 10 school days is contemplated: (20 USC 1415(k)(4); 34 CFR 300.523)

1. The parents/guardians of the student shall be immediately notified of the decision and provided all procedural safeguards on the day the decision to take action is made.
2. Immediately if possible, but in no case later than 10 school days after the date of the decision, a manifestation determination shall be made of the relationship between the student's disability and the behavior subject to the disciplinary action by the IEP team and other qualified personnel.

At this hearing, the IEP team and other qualified personnel shall consider, in terms of the behavior subject to the disciplinary action, all relevant information, including: (20 USC 1415(k)(4); 34 CFR 300.523)

- a. Evaluation and diagnostic results, including the results or other relevant information supplied by the student's parents/guardians
- b. Observations of the student
- c. The student's IEP and placement

In relationship to the behavior subject to the disciplinary action, the team shall then determine whether the IEP and placement were appropriate and whether supplementary aids, services, and behavioral interventions were provided. The team shall also determine that the student's disability did not impair the ability of the student to understand the impact and consequences of the behavior, nor did it impair his/her ability to control the behavior subject to the disciplinary action. (20 USC 1415(k)(4); 34 CFR 300.523)

If the team determines that the student's behavior was not a manifestation of his/her disability, then the student may be disciplined in accordance with the procedures for students without disabilities. (20 USC 1415(k)(4))

If the team determines that the student's behavior was a manifestation of his/her disability, then the student's placement may only be changed via the IEP team process. (20 USC 1415(k)(4))

Pre-Expulsion Assessment and Meeting

1. The parent/guardian shall receive written notice of the district's intent to conduct the pre-expulsion assessment and shall make the student available for the assessment without delay at a site designated by the district. The parent/guardian shall also have the right to an independent assessment as provided in Education Code 56329. (Education Code 48915.5)
2. The pre-expulsion assessment shall be conducted in accordance with the guidelines of 34 CFR 104.35, which shall include a review of the student's placement at the time of the alleged misconduct and a determination of the relationship, if any, between the student's behavior and his/her disability. (Education Code 48915.5)
3. The IEP team shall meet to determine if an expulsion hearing is appropriate. This meeting shall be held at a time and place mutually convenient to the parent/guardian and district within the period, if any, of the student's pre-expulsion suspension. The parent/guardian's participation may be made through actual participation, representation, or a telephone conference call. (Education Code 48915.5)
4. The parent/guardian shall be notified of his/her right to participate in the meeting at least 48 hours before the meeting. This notice shall specify: (Education Code 48915.5)
 - a. That the meeting may be held without the parent/guardian's participation unless he/she requests a postponement for up to three additional school days
 - b. That the suspension will be continued during the postponement if the student continues to pose an immediate threat to the safety of himself/herself or othersIn order to make a record of its attempts to arrange the meeting at a mutually convenient time and place, the district shall keep documentation such as: (34 CFR 300.345)
 - a. Detailed records of telephone calls made or attempted, and the results of those calls
 - b. Copies of correspondence sent to parents/guardians and any responses received
 - c. Detailed records of visits made to the parent/guardian's home or place of employment, and the results of those visits
5. The district shall grant a parent/guardian's request that the meeting be postponed for up to three additional school days and may extend a student's suspension for the period of postponement if he/she continues to pose an immediate threat to the safety of himself/herself or others. However, the suspension shall not be extended beyond 10 consecutive school days unless agreed to by the parent/guardian or required by court order. If the parent/guardian refuses to consent to an extension beyond 10 consecutive school days and chooses not to participate, the meeting may be conducted without the parent/guardian's participation. (Education Code 48915.5)
6. The IEP team shall consider the pre-expulsion assessment results and shall also review and consider the student's health records and school discipline records. (Education Code 48915.5)
7. If the IEP team determines that the alleged misconduct was caused by, or was a direct manifestation of, the student's disability or that the student was not appropriately placed, the expulsion shall not proceed. (Education Code 48915.5)
8. If the IEP team determines that the alleged misconduct was not caused by, or a direct manifestation of, the student's disability, and if it is determined that the student was appropriately placed, the student shall be subject to expulsion in accordance with procedures that apply to all students. (Education Code 48915.5)
9. When expulsion is ordered, the Board shall recommend a rehabilitation plan for the student. (Education Code 48916)

Notification to Law Enforcement Authorities

Prior to the suspension or expulsion of any student, the principal or designee shall notify appropriate city or county law enforcement authorities of any student acts of assault which may have violated Penal Code 245. (Education Code 48902)

The principal or designee also shall notify appropriate city or county law enforcement authorities of any student acts which may involve the possession or sale of narcotics or of a controlled substance or possession of weapons or firearms in violation of Penal Code 626.9 and 626.10. (Education Code 48902)

Within one school day after a student's suspension or expulsion, the principal or designee shall notify appropriate city or county law enforcement authorities, by telephone or other appropriate means, of any student acts which may violate Education Code 48900(c) or (d), relating to the possession, use, offering or sale of controlled substances, alcohol or intoxicants of any kind. (Education Code 48902)

Due Process Appeals

If the parent/guardian disagrees with any district decision regarding placement under 34 CFR 300.530 (suspension and removal for dangerous circumstances) or 34 CFR 300.531 (interim alternative placement), or the manifestation determination under 34 CFR 300.530(e), he/she may appeal the decision by requesting a hearing. The district may request a hearing if the district believes that maintaining the student's current placement is substantially likely to result in injury to the student or others. In order to request a hearing, the requesting party shall file a complaint pursuant to 34 CFR 300.507 and 300.508(a) and (b). (20 USC 1415(k)(3); 34 CFR 300.532)

The expulsion hearing shall not be conducted, and the 30-day expulsion proceedings time limit shall not commence, until after completion of the:

1. Pre-expulsion assessment and the manifestation determination (Education Code 48915.5; 20 USC 1415(k))
2. IEP team meeting (Education Code 48915.5)
3. Due process hearings and appeals, if initiated (Education Code 48915.5)

The Board may expel a student with disability only if an IEP team has determined that the misconduct was not caused by, or a direct manifestation of, the student's identified disability, and the student was appropriately placed at the time the misconduct occurred. (Education Code 48915.5)

Services During Expulsion

During the term of the expulsion, a student with a disability shall continue to be offered a program of free and appropriate public education. Such services may include independent study, home instruction, or another appropriate alternative program.

The alternative program must provide services to the extent necessary to enable the student to appropriately progress in the general curriculum and appropriately advance toward achieving the goals set out in the student's IEP. (34 CFR 300.121)

Readmission

Readmission procedures for students with disabilities shall be the same as those used for all students. The Superintendent or designee may consider the input of the student's IEP team when developing recommendations to the Board regarding a request for readmission. Upon readmission, an IEP team meeting shall be convened to determine whether a new IEP needs to be established.

Suspension of Expulsion

The Board's criteria for suspending the enforcement of an expulsion order shall be applied to students with disabilities in the same manner as they are applied to all other students. (Education Code 48917)

Procedures to Notify Teachers of Dangerous Pupils EC 49079; AR 4258

California Education Code 49079 requires that teachers be provided with a three year history of suspension of students assigned to their class/classes and notice of suspensions as they occur during the school year.

All suspensions are entered into Aeries. Teachers may access a student's three year history of suspensions using Aeries. To notify teachers of suspensions as they occur during the school year, the suspensions are entered into Aeries as they occur. Copies of the written notice are maintained in the school office.

School-wide Dress Code BP/AR 5132

MDUSD BP 5132
Dress and Grooming

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Therefore, students are to dress appropriately on all school campuses and at all school activities in the district. Students have the right to make individual choices from a wide range of clothing and grooming styles, but they must not present a health or safety hazard or a distraction which would interfere with the educational process. Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. Students should project an appearance that is conducive to a safe learning environment. Dress which is disruptive and contrary to school rules regarding drugs/alcohol/violence, and gangs is not permitted. Student clothing, emblem, badge, jewelry, symbol, or other insignia which creates a clear and present danger on school premises or the disruption of the orderly operation of the school is prohibited. Students and parents/guardians shall be informed about the school dress code at the beginning of the year and when revised. A student who violates the dress code shall be subject to appropriate disciplinary action.

School Dress Code

The principal may establish a dress code that prohibits students from wearing apparel that it presents a distraction or threatens to disrupt the school's activities. Inappropriate dress is attire that causes a distraction or a safety concern on a school campus. The outdoor use of sun-protective clothing, including but not limited to hats, is permitted. However, specific clothing and hats determined to be gang-related or otherwise inappropriate under the policy are prohibited. Principals may determine that hats are prohibited in certain locations or areas where sun-protection is not necessary. A dress code may be included as part of the school

safety plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the staff, students, parents/guardians and educational community.

MDUSD AR 5132

At individual schools that have a dress code prohibiting apparel that interferes with the educational process or threatens to disrupt the school's activities, the principal may develop a dress code identified in the school safety plan that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus.

Because student dress is constantly changing, clothing and grooming styles that present a health or safety hazard or a distraction which would interfere with the educational process/school activities shall be reviewed at least annually and updated whenever related information is received.

Riverview Middle School Dress Code

UNIFORM DRESS CODE & STANDARD DRESS CODE

The Objective and standards/expectations explained below are applied to both the Uniform Dress Code and Standard Dress Code, which are outlined in this section.

Objective:

RMS recognizes the importance of school, parent and student collaboration in encouraging students to come to school dressed in a neat, clean, safe and modest manner. A public school is a place of learning, and the attire of students and staff establishes the tone of the school atmosphere, and impacts the attitudes and environment surrounding the learning process. For these reasons, a uniform dress code has been established to give all students guidelines and direction as to the attire that is appropriate at this school. Specifically, the reason for establishing rules requiring high standards of dress are to create and promote a better learning environment, create a community in which students will have respect for each other and be proud of their school, and increase the safety of all students. This uniform dress code will be enforced for all school related functions before, during, and after school.

Standards and Expectations:

Since clear dress and grooming guidelines facilitate consistent enforcement of dress code rules, the following expectations are presented to assist students and parents. Dress and grooming should be neat, clean, and modest and meet the standard established by the school and community.

Any clothing, backpacks or accessories that include vulgar or obscene slogans, or writing of any kind, profanity, sex and advertisements for alcohol, tobacco, or drugs are prohibited.

Accessories and Attachments: Accessories and attachments such as chains on wallets, bracelets, chokers, mouth grills, spikes on boots, earrings on both male and female students that are deemed too large by school officials, or any accessory or excessive amounts of accessories which is considered a risk to the health and safety or cause distraction from the educational process may not be worn or used. This includes the use of I-pods and cell phones as well as digital cameras.

Gang Related Clothing: Gang related clothing will not be tolerated at school. RMS follows the district policy prohibiting the wearing of any gang symbol, badge, sign, lettering, hairdo, mouth grills, jewelry, or partially shaved eyebrows, which is recognized or acknowledged by area police officials to designate a gang.

Shoes: Shoes should be worn at all times. Flip-flops and slippers are not acceptable footwear.

Head Coverings: Bandanas, doo rags, or other types of head covering cannot be worn while at school. Exceptions for medical or religious reasons will be considered on an individual basis.

Uniform Dress Code:

RMS has established a uniform dress code, and all students must be in compliance. Unless there is an extenuating circumstance (religion, disability, medical) we will not issue a waiver. Only a district administrator can issue a waiver. Following is the dress code:

Tops: Plain, white or grey shirts/blouses must have collars. (Logos, low cut, off the shoulder, see through, strapless, tank tops, spaghetti straps, shirts exposing the mid-drift, and/or distracting clothing cannot be worn to school).

Bottoms: Plain, solid color navy, black or khaki slacks. (No stripes on the side). Denim pants are not included in the dress code. Bottoms are to be worn at the natural waist. Sagging, sweats, baggy, tight fitting (lycra or spandex) and torn or frayed bottoms are not allowed. Skorts, dresses, jumpers, and shorts must approach the knee in length and cover at least three-fourths (3/4) of the thigh.

GATEWAY HIGH SCHOOL DRESS CODE

1. Dress that draws undue attention to or detracts from the education process is unacceptable. Appropriate student dress is necessary in order to:
 - a. Maintain order
 - b. Provide safe/positive learning environment
 - c. Promote discipline
2. Clothes, apparel or attire must be sufficient to conceal undergarments and provide adequate coverage of the body. See-through fabrics, bare-midriiffs, halter/tank/tube/tops, off shoulder or low cut tops or dresses and pants that are worn below the waist which expose private parts or undergarments are unacceptable.
3. Unhemmed skirts and shorts and skirts/shorts which are shorter than mid-thigh are unacceptable. (Approximately three inches above the knee is acceptable.)
4. Sleepwear, slippers, and loungewear are unacceptable.
5. Shoes must be worn at all times; thongs are unacceptable.
6. Hats may not be worn inside the classroom or on Riverview campus.
7. Wearing or possession of clothing, jewelry, accessories or any manner of grooming (as identified or defined by the Contra Costa County Gang Task Force) that denotes membership or identification with a gang is strictly prohibited.
8. Clothing, jewelry or body markings which promote drug or alcohol use, violence, profanity, bigotry, or intolerance against people on the basis of their race, ethnicity, religion, gender, or sexual preference or which incorporates profanity is prohibited.
9. Dark glasses will not be worn indoors, except for valid medical reasons authorized by the administration and verified in writing by a physician.

THE RIVERVIEW MIDDLE SCHOOL CODE OF CONDUCT

VISION STATEMENT

Riverview Middle School creates an environment that supports the academic and social needs of the young adolescent. We accept the responsibility of preparing students to be successful in a global society with healthy curiosity and creativity. "Every student, every day."

MISSION

We at Riverview believe that each and every student is capable of being successful. We are committed to setting high expectations and assuring the development of a strong foundation in basic skills. RMS's program emphasizes communication and problem solving skills and encourages students to think independently, creatively, and critically in applying academics and social skills.

The High 5's

We expect Riverview staff and students to follow the High 5's throughout the school day. They are our guiding thoughts. Teachers have developed lessons in how the high 5's are used throughout the campus. We follow these guidelines before, during and after school. They also help students remember how to behave while on field trips.

- We are respectful
- We are responsible
- We keep our hands, feet and objects to ourselves
- We follow directions the first time given
- We are here and ready to learn.

Responsibilities of the Riverview Student

"All pupils shall comply with the regulations (obey school and classroom rules), pursue the required course of study (Do the assigned schoolwork and homework) and submit to the authority of the teachers of the school." State of California Education Code Section 48908.

Responsibilities of the Riverview Staff

Staff members will provide respectful, fair and reasonable treatment of students using due process as specified in the Education Code and District Board Policy.

HUMAN RELATIONS STATEMENT

It is the policy at Riverview Middle School that each person will be regarded as having human dignity and worth. There is an appreciation for the diversity of all people. Everyone is responsible to show respect to adults, peers, and students at all times. We know that we succeed best in an environment of mutual trust, caring, and cooperation and will work toward creating that setting. We set high expectations for ourselves and others, accept responsibility for our actions and seek the best in everyone. It is our goal that all students, staff, and parents participate in school activities without experiencing prejudice, fear, harassment, intimidation, or bigotry. Parents and members of the community are welcome at Riverview.

WHAT IF I FORGET TO FOLLOW THE RMS CODE?

Riverview staff supports positive behavioral choices through support calls. Teachers request assistance from the support team whenever disruptions occur. The team member talks to the student, contacts parents immediately, and records the incident. The goal is to enlist parent support as we problem solve together to change behavior & “make it right”. Students are returned to the classroom to minimize loss of instructional time. Interventions may include:

1. Counseling/team meeting.
2. Lunch or after school detention.
3. Parent may be requested to attend class with their child.
4. Assigning of a detention period. A work assignment may be offered and chosen by the student as an alternative.
5. Saturday school – to be served at school from 9:00 am – 1:00 pm.
6. Referring a student to the Student Success Team.
7. Loss of privilege.
8. Conducting a Principal’s Conference.
9. Developing a behavior contract with the student and parents.
10. Referral to the Positive Behavior Team

12. Referring the student to the District Administrative Hearing Panel and/or School Attendance Review Board.

ZERO TOLERANCE POLICY

Riverview has a zero tolerance policy for weapons, drugs, and violence. Possession of weapons or drugs, or use of violence may result in arrest and expulsion proceedings. We have the right to search when there is a reasonable suspicion of illegal items on campus. If necessary, the police may be called to assist.

ANTI-BULLYING POLICY

It is the policy of the Mt. Diablo Unified School District to provide a safe and healthy environment for the entire school community and promote mutual respect, tolerance, and acceptance. We will not tolerate behavior that infringes on the safety of any student. A student shall not intimidate or harass another student through words or actions. Such behavior includes direct physical contact including hitting or shoving, verbal assaults, teasing or name-calling and social isolation or manipulation. This policy applies on school grounds, going to and from school and at school-sponsored activities. It extends to all members of the community, male, female, adults, and students.

WHAT TO DO IF I AM BULLIED?

1. It is best to tell someone. Tell a teacher or your parent or another student. You don’t have to face this on your own.
2. It also helps to ignore a bully. Don’t give them any attention and they may stop.
3. Remember, it is against the law to bully others.

You have a right NOT to be bullied. We will not tolerate bullies at Riverview Middle School. Tell your parent or an administrator if you are being bullied. You can complete an Incident Report form and it will be investigated.

ATTENDANCE IS IMPORTANT!

Satisfactory academic progress is dependent upon regular attendance. Plan to come to school everyday except when you are ill. When you are absent your parent or guardian should call our Attendance Hot Line.

1. The Hot Line number is: 458-3216 ext. 5201.
2. Leave the following information:
 - Your name and relationship to the student.
 - Student name and grade.
 - Date or dates of absence.
 - Reason for absence.
3. If you are unable to call, send a note to the office the day your student returns to school. Make sure to sign and date the note.

LEAVING SCHOOL EARLY

If you need to leave school during the day, your parent should call the school or send a written note. We are a closed campus and students may only leave with a request from a parent.

1. All notes **MUST** be turned into the Attendance Office before school begins.
2. The office will issue an early dismissal slip.
3. Your parent, guardian, or designated person may pick you up in the office at the time specified.

TARDY POLICY

Being on time is very important at Riverview. School begins at 7:55 am daily, so students should be dropped off no later than 7:45 am. Students who are tardy may be assigned to Friday School/Saturday School. We ask parents to do their part in helping their child get to class on time each morning. Students 15 minutes late or more, are marked absent and must report to the main office to obtain a tardy pass before proceeding to class. Tardy sweeps will be conducted as necessary.

TRUANCY

- Absences from school without the knowledge and consent of the parent or guardian.
- Leaving the building during the school day without permission.
- Staying out of class without permission.
- Excessive tardiness will count as truancy.
- Truant students will be assigned to attend detention and parents will be notified.

VISITORS ON CAMPUS

Parents are always welcome on campus as visitors and must sign in at the office and obtain a visitor's pass. School-age visitors are generally refused permission to visit. All visitors are required to obtain a Visitor's Pass in the office.

HALL PASSES

Students are not allowed in the halls during regular class time without a hall pass. Each teacher provides their own hall pass. Students may be asked to sign in/out of class when leaving the class (to go to the restrooms or office, for example).

TRANSFERRING? NEW ADDRESS? NEW PHONE?

Please notify the attendance office if you change your address or phone number. If you plan to transfer from Riverview, a parent or caregiver must come to the attendance office and obtain a drop sheet. You must return all textbooks and library books to complete your transfer.

EMERGENCY CARDS

Each student is required to have one emergency card on file in the school office. This card must be completed by a parent or guardian before you receive your class schedule. Please notify the attendance secretary when this information changes.

MEDICATION

The school form "Medication During School Hours" must be completed by parents and the medical advisor and be on file before the school can permit medications to be taken at school. School personnel will assist students according to the physician's instructions. All medications are kept in the school office unless other arrangements are made with an administrator.

MEDICAL EXCUSES

With a written excuse from parents, students may be excused from some school activities (i.e. physical education) for a maximum of five days if there is a temporary illness or other health problem. For longer periods, authorization from a medical advisor is required.

TELEPHONE USE

Students may use the office phone before school and after school beginning at 2:50 pm. to contact a parent or guardians.

CELL PHONES/ELECTRONIC DEVICES

The governing board believes that the personal use of electronic signaling devices during the school day creates a distraction which interferes with the educational process. Ed. Code 48901.5 and BP 5131 (e).

Upon entering the campus, students must have all electronic devices turned off and put away during the school day. If they are seen, students will be asked for them. The first time, the student may pick the device up from the office after school. The second time, a parent must pick the device up from the office after school. The third time, the device will be taken until after a school holiday break and a principal's conference with the parent will be scheduled in order to receive the device. Students are only allowed to use cell phones, Game boys, CD players and other electronic devices before 7:55 am and after 2:25 pm, and they may only be used in front of the school.

GUM, CANDY & SUNFLOWER SEEDS

Riverview is gum-free school! Gum creates a major clean-up and safety issue at school. We simply cannot have any gum on campus at any time. We are truly appreciative of parents who remind their children not to bring gum to school. While candy is not recommended as a healthy snack, it is allowed at lunch time. We would prefer if parents did not send sodas to school. We ask that students use the trash cans for all wrappers. Sunflower seed are not allowed at RMS.

DENTAL WEAR

No fashion dental accessories allowed unless prescribed by a dentist. No gold, brass or silver teeth allowed.

BICYCLES & SCOOTERS

Students bringing bikes to Riverview are required to:

1. Wear to helmet while riding the bike to and from school in accordance with California State Law.
 2. Walk the bicycles while on the Riverview Campus and in front of the school. Bikes may not be ridden on the sidewalk surrounding the school.
 3. Lock the bicycle in the bike corral.
 4. Riverview Middle School is not responsible for any damage, theft, or loss to private property brought on campus.
- Rollerblades, scooters and skateboards are not allowed at Riverview.

PROGRESS REPORTS AND REPORT CARDS

Progress Reports are issued half-way through each quarter. Progress reports are only required for students who are in danger of failing. Many teachers also send home detailed progress reports for parents to sign and return. Progress reports are given to the students to take home. Report cards will be mailed home.

ACADEMIC HONESTY

All work submitted to your teachers must be original, that is, written in your own words. You may not take credit for work you did not do. A student, who copies directly from another student, a textbook, the internet, or another source, is guilty of academic dishonesty. If you turn in work that is not your own, you may be guilty of cheating or plagiarism and you will not receive credit for the work.

NEED EXTRA HELP? ASK!

Tell your parent or a teacher. We can set up a Team Meeting. See your teachers before or after school. They want to help.

HONOR ROLL & REWARDS

Students with Grade Point Averages (GPA's) of 3.0 are placed on our school Honor Roll and they receive a Gold, Silver or Platinum card. Students with 4.0 receive Platinum; students with 3.5 and above receive Gold, and students with 3.0 and above receive a Silver card. Students who have received positive remarks from multiple teachers on each report card earn a Citizenship card. Special events and privileges are planned for these students.

GATEWAY HIGH SCHOOL- GOALS/PROCEDURES

To continue to develop strategies which improve student attendance and punctuality.

Students and staff will use technology across the curriculum to more effectively support student assessment and achievement.

To develop an alternative program and curriculum to offer credit deficient seniors an opportunity to meet graduation requirements by demonstrating subject mastery, taking and passing challenge tests.

To develop a school-to-work program which includes components such as work experience, community service, R.O.P. and other post-secondary training options.

School leadership and School Site Rep. Council will support continuation of partnerships with "outside" agencies and continue to seek additional resources from district and other sources.

To develop senior portfolios which will include goals and career paths.

The School Leadership will continue to promote professional development.

TARDY POLICY

Disciplinary Action and the Tardy Policy:

Tardy 1-4: Teacher Detention

Tardy 5: Teacher Detention and parent contact by teacher

Tardy 6: Referred to CSA, parent contact by CSA

Tardy 7: Referred to Administrator for DOUBLE-Detention & Parent Conference

Tardy 8: Referred to Administrator for possible suspension

ATTENDANCE POLICY

Attendance is a major factor in attaining success in school. Good attendance is crucial at Gateway in light of the fact that students earn variable credit. This means that the amount of credits earned is not automatic for passing the class, but for the time spent and work done while at school.

No Attendance = No Credits = No Graduation

Attendance is taken every period. Any absences, even for a partial day, should be cleared within 2 days (48 hrs). Absences can be cleared by calling and leaving a message at 458-1316.

If a student misses school for 3 consecutive days, the student will need a valid medical excuse. If attendance does not improve, the student will be referred to SART(school attendance review team).

It is extremely important for parents to encourage students to attend school daily and for students to reap the rewards of positive behavior. California State Law holds parents responsible for school attendance of students until they reach the age of 18. Situations in which attendance interventions might not work could result in a referral to SARB or to the District Attorney's office. Excessive absence will result in loss of work permit.

SMOKING

State Education Code Section 48901 prohibits smoking on school grounds at all times, by students AND adults. This includes the sidewalk surrounding the campus property, out by the bus stop, etc. To show consideration for our neighbors, we ask that students not smoke across the street from school.

ELECTRONIC DEVICES

I-Pods and other electronic devices must be off and out of sight during class time and on Riverview campus. Cell phones must be off and out of sight during school hours, this includes lunch. 1st violation: cell phone confiscated and returned at the end of the school day. 2nd & 3rd violation: Cell phone confiscated for parent pick up. 4th violation: Cell phone kept in principal's office until the end of the school year.

PARKING

Students who drive to school should park in the spaces designated for Gateway located at the side of the school. Parking in the Riverview staff lot is OFF LIMITS to students. This lot is reserved for staff and parents. Traffic laws and safety will be enforced and violators will be cited.

VISITING OTHER SCHOOL CAMPUSES

Students at Gateway may not visit other school campuses during school hours (8:00am-3:15pm) without the permission of a site administrator. Students who violate this rule are subject to suspension.

Visitors to Gateway must register in the Main Office. Parents, grandparents, legal guardians and other authorized adults are allowed and encouraged to observe classes during the school day. Anyone who comes on campus and does not register in the Main Office may be subject to arrest.

DISCIPLINE POLICY

The Mt. Diablo Unified School District is committed to providing a quality educational environment that is safe, secure, and peaceful.

As a student grows toward responsible citizenship and independence, he/she must develop acceptable behavioral traits that show progress toward an understanding of the respect for constituted authority and the rights of others in his/her environment. As part of the learning process, a student must be held accountable for his/her actions and recognize that there is a consequence for choices that lack judgment or self-discipline.

MDUSD students are expected to respect themselves, others, and their property. Therefore, students should be aware of possible consequences of unacceptable behavior by a student that occurs while on school grounds, while going to or from school, during the lunch period, whether on or off campus or occurring on the campus of any other school or within any other school district, during any school activity, or in any way involving the school and/or safety and well-being of the students.

The following list of behavioral infractions and consequences was developed by a group of students, teachers, parents and administrators.

A comprehensive review of any specific incident in relations to a student's past behavior and/or his/her current circumstances might result in a different penalty being assessed than that outlined below should the facts in the case warrant a different disciplinary action. The Administrator retains the right to make the final decision regarding any disciplinary action.

Bullying

The Governing Board recognizes the harmful effects of bullying on student learning and school attendance and desires to provide safe school environments that protect students from physical and emotional harm. District employees shall establish student safety as a high priority and shall not tolerate bullying of any student.

No student or group of students shall, through physical, written, verbal, or other means, harass, sexually harass, threaten, intimidate, cyberbully, cause bodily injury to, or commit hate violence against any other student or school personnel.

The school district has in place policies, procedures, and practices that are designed to reduce and eliminate discrimination, intimidation, harassment, and bullying as well as processes and procedures to address incidents of discrimination, intimidation, harassment, and bullying when they occur.

These policies and procedures must be disseminated annually to staff, students, and parents/guardians. These policies shall be publicized to students, parents, employees, agents of the governing board, and the general public.

The district will not tolerate discrimination, intimidation, harassment, bullying or any behavior that infringes on the safety or well-being of students, staff, or any other persons within the district's jurisdiction whether directed at an individual or group. This includes but is not limited to discrimination, intimidation, harassment, and bullying based on actual or perceived characteristics and disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or association with a person or group with one or more of these actual or perceived characteristics. (Education Code 234.1)

The Board recognizes that some acts of discrimination, intimidation, harassment, and bullying may be isolated and/or unintentional incidents requiring that the school respond appropriately to the individuals committing the acts. Other acts may indicate a larger pattern of discrimination, intimidation, harassment, or bullying that require a response either at the classroom, school site, or district levels or by law enforcement officials. Consequences and appropriate remedial actions for a student who commits an act of discrimination, intimidation, harassment, or bullying may range from behavioral intervention and education up to and including suspension or expulsion. This policy applies to all acts related to school activity or attendance occurring within a school under the jurisdiction of the superintendent of the school district.

In addition to the grounds specified in Education Code sections 48900, sections 48900.2, 48900.3, and 48900.4 provide additional authority to discipline a pupil for conduct that amounts to bullying. (Education Code 48900, 48900.2, 48900.3 and 48900.4) Penal Code 653.2 makes it a crime for a person to distribute personal identity information electronically with the intent to cause harassment by a third party and to threaten a person's safety or that of his/her family (e.g., placing a person's picture or address online so that he/she receives harassing messages). Penal Code 288.2 makes it a crime to send a message to a minor if the message contains matter that is sexual in nature with the intent of seducing the minor (i.e., sexting).

Cyberbullying shall not be tolerated and includes the transmission of harassing communications, direct threats, or other harmful texts, sounds, or images on the Internet, social media, or other technologies using a telephone, computer, or any wireless communication device. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.

Strategies for bullying prevention and intervention shall be developed with involvement of key stakeholders in accordance with law, Board policy, and administrative regulation governing the development of comprehensive safety plans and shall be incorporated into such plans.

Bullying Prevention

To the extent possible, district and school strategies shall focus on prevention of bullying by establishing clear rules for student conduct and strategies to establish a positive, collaborative school climate. Students shall be informed, through student handbooks and other appropriate means, of district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for perpetrators of bullying.

The district may provide students with instruction, in the classroom or other educational settings, that promotes effective communication and conflict resolution skills, social skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

School staff may receive related professional development, including information about early warning signs of harassing/intimidating behaviors and effective prevention and intervention strategies.

Based on an assessment of bullying incidents at school, the Superintendent or designee may increase supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, cafeterias.

Intervention

Students are encouraged to notify school staff when they are being bullied or suspect that another student is being victimized. In addition, the Superintendent or designee shall develop means for students to report threats or incidents confidentially and anonymously.

School staff who witness bullying shall immediately intervene to stop the incident when it is safe to do so. (Education Code 234.1)

As appropriate, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators. He/she also may involve school counselors, mental health counselors, and/or law enforcement.

Complaints and Investigation

The principal or principal's designee at each school shall be responsible for receiving complaints alleging violations of this policy. All staff is expected to provide appropriate supervision to enforce standards of conduct. The Board requires that staff follow district and school procedures for reporting alleged acts of bullying.

All other members of the school community, including students, parents/guardians, volunteers, and visitors, are encouraged to report any act that may be a violation of this policy. While submission of the report form is not required, the reporting party is encouraged to use the report form available from the principal of each school or at the district office. Oral reports shall also be considered official reports. Reports may be made anonymously, but formal disciplinary action may not be based solely on an anonymous report. Prompt and reasonable investigation of alleged acts of discrimination, intimidation, harassment, or bullying is expected.

Students are expected to report all incidents of discrimination, intimidation, harassment, bullying, teasing, or other verbal or physical abuse. Any student who feels she/he is a victim of such behavior should immediately contact a teacher, counselor, administrator, or staff person. If the student who was bullied believes the situation has not been remedied, she/he may file a complaint in accordance with district procedures.

Students may submit to a teacher or administrator a verbal or written complaint of conduct they consider to be bullying. Complaints of bullying shall be investigated and resolved in accordance with site-level grievance procedures specified in AR 5145.7 - Sexual Harassment.

When a student is reported to be engaging in bullying off campus, the Superintendent or designee shall investigate and document the activity and shall identify specific facts or circumstances that explain the impact or potential impact on school activity, school attendance, or the targeted student's educational performance.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages sent to them that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated.

If the student is using a social networking site or service that has terms of use that prohibit posting of harmful material, the Superintendent or designee also may file a complaint with the Internet site or service to have the material removed.

Discipline

Any student who engages in bullying on school premises, or off campus in a manner that causes or is likely to cause a substantial disruption of a school activity or school attendance, shall be subject to discipline, which may include suspension or expulsion, in accordance with district policies and regulations.

Retaliation against a student because the student has filed a complaint or assisted or participated in a discrimination, intimidation, harassment, or bullying investigation or proceeding is also prohibited. Students who knowingly file false discrimination, intimidation, harassment, or bullying complaints or give false statements in an investigation shall be subject to discipline by measures up to and including suspension and expulsion, as shall any student who is found to have retaliated against another in violation of this policy.

MDUSD BP 5145.4

Anti-Bullying

The district believes that all students have a right to a safe and healthy school environment. To that end, the district, schools, and community have an obligation to promote mutual respect, tolerance and acceptance. The district will not tolerate behavior that infringes on the safety of any student. A student shall not intimidate or harass another student through words or actions, including cyber activity that impacts the learning environment and/or student safety. Such behavior includes direct physical contact, such as hitting or shoving, verbal or written assaults, such as teasing or name-calling, social isolation or manipulation, and cyber activity that includes transmission of harassing communications, direct threats, or other harmful texts, sounds, or images on the Internet, social media or other technologies. This policy applies whenever a student is on school grounds, traveling to and from school or a school sponsored activity, during the lunch period, whether on or off campus, and during a school-sponsored activity. It also includes off campus bullying that has impact or potential impact on school activity, school attendance, or the educational performance of a targeted student/s.

Students who act in violation of this policy may be subject to school/district disciplinary procedures up to and including expulsion.

MDUSD AR 5145.4

Anti-Bullying

The Governing Board prohibits bullying at any location or activity under the jurisdiction of the school system. Any student who engages in bullying may be subject to disciplinary action up to and including expulsion.

The Board expects students and/or staff to immediately report incidents of bullying to the principal or designee. Each complaint of bullying should be promptly investigated. If the complainant or the parent of the student feels that appropriate resolution of the investigation or complaint has not been reached, the student or the parent of the student should contact the Principal or the Office of Student Services. The school system prohibits retaliatory behavior against any complainant or any participant in the complaint process.

Teachers should discuss this policy with their students in age-appropriate ways and should assure them that they need not endure any form of bullying.

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

I. INTRODUCTION

A. Purpose of the Plan

School communities face a significant challenge with the issue of being ready to respond to new types of emergency situations and trauma. Preparation to deal with emergencies now includes chemical spills, bomb threats, school shootings, hostage situations, sniper attacks and an array of other potential terrorist activities in addition to the requirement of planning for natural disasters such as fires and earthquakes. The purpose of this Emergency Preparedness and Crisis Response Plan is to provide a functional, procedural framework for school staff and school emergency responders to follow when responding to emergencies in and around the school campus. It is intended to ensure as much as humanly possible the safety, security and medical treatment of school students, staff, and visitors in an actual or threatened emergency or full-fledged disaster. The primary objectives of this plan are to:

- Save lives and minimize injuries
- Provide fast, effective responses to emergency situations
- Ensure efficient and safe evacuation of the school buildings should it be necessary

This response plan is designed to assist school staff, students, parents and local agencies organize resources of the school and community to respond to a crisis situation while school is in session. It is also intended to:

- Develop an awareness of the diverse emergency situations that can occur on or near a school campus
- Provide staff members with a description of their duties in emergency situations
- Provide strategies that will help students, staff, parents and community agencies to respond in an appropriate and safe manner to emergency conditions
- Support school staff in providing a school environment that provides a maximum level of safety and security for all students, parents, and staff.

B. Regulatory Authority

State laws and regulations require that school districts develop emergency plans and train staff in emergency response procedures. These include laws applicable to school staff and students as well as Cal/OSHA regulations specifically addressing the safety of district employees.

The Katz Act [California Education Code, §35295-35297] requires that schools plan for earthquakes and other emergencies. It also requires that training in earthquake preparedness procedures should be for both certificated and classified staff.

The Petris Bill [Government Code, §8607] requires that school districts be prepared to utilize the Standardized Emergency Management System (SEMS) when responding to emergencies. This requires that principles of SEMS be incorporated in the District plans; that the Incident Command System (ICS) be used at school sites to respond to emergency incidents; that all school personnel be trained in how the respective systems work and correlate; and that schools have drills and exercises in order to practice using the systems.

This plan is designed and structured to ensure compliance with the mandates of these laws as well as with Cal/OSHA's Emergency Action Plan Standard Title 8, California Code of Regulations §3220. This regulation requires that each employer facility have an Emergency Action Plan which focuses on the specific emergency contingencies, response personnel roles, and evacuation plans of each employer's site where employees work. Schools and school districts are included in this mandate.

C. School Site Emergency Preparedness and Response Coordination

Each principal shall supervise the planning, operating and testing of their respective school's Emergency Preparedness and Crisis Response Plan. Each principal will also ensure that all school staff and students are familiar with the basic elements of the District's Emergency Operations Plan, which will be utilized at the district office in the event of a major emergency or district-wide disaster.

A designee shall be named to serve in the event of a site emergency or a disaster that occurs when the principal is absent or otherwise unable to serve. The principal must ensure that the procedures of the Incident Command System are utilized by all staff personnel in the event of an emergency incident and shall serve as the Incident Commander at all school crises or emergencies. The principal is also to designate a staff person to control site access at all emergencies and supervise outsiders who arrive at the school site.

Each principal shall annually prepare a priority list of staff to be named as First Aid Assistants and in other emergency roles in event of emergency.

Each principal shall, at the beginning of each school year, conduct a survey of certificated and classified personnel to determine first aid training status, disaster preparedness training and medical and emergency experience or training (both paid and volunteer). Principals will ensure that all designated emergency personnel are properly trained in their respective response assignment. Survey and training records shall be kept current as changes in personnel occur. Copies of records shall be on file in the principal's office and a copy given to the Director of Risk Management. A similar survey and training assurances will be conducted among district office personnel.

Principals shall annually survey parents to determine any who may wish to volunteer for response assistance during an extended emergency or disaster response operation.

All employees trained in first aid and CPR will be identified and included on lists maintained by site/program administrators. All District personnel designated as primary duty (e.g., school nurses) or collateral duty medical emergency responders will receive appropriate instruction in blood borne pathogen protection and post-exposure follow-up procedures.

Principals shall conduct a survey to locate neighboring resources such as hospitals, medical clinics, dental offices, fire stations, police stations, churches, parks and other open areas, and potential vendors for additional emergency supplies. A map clearly showing these facilities in relation to the school will be maintained in each school's principal's office.

Principals shall, annually, prepare a list of students and staff at their school who have medical conditions which require medication in case of a long stay at the school (e.g. diabetes, epilepsy, asthma).

Principals shall, annually, assure that the needs of students with disabilities are considered and provided for in the event of an emergency, evacuation or long stay at school.

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

II. CRISIS/EMERGENCY INCIDENT RESPONSE SYSTEM

A. Crisis Response

A crisis is any event of limited duration that is seriously disruptive, unpredicted and overwhelming for those who experience it. A crisis may be volatile in nature and, at times, may threaten the survival of the individual or groups involved. The sudden change in a familiar setting due to a crisis is unwanted, frightening and often results in individuals feeling vulnerable and helpless. Ultimately, with successful intervention, stability can be restored and the individuals involved can view the school as safe and secure. The preparedness and ability of a School Crisis Response Team is to direct and maintain an appropriate course of action during a crisis is critical in achieving this outcome. The primary goals of crisis response are to:

- Prevent a potentially chaotic situation from escalating into a catastrophic event.
- Help those affected to return, as quickly as possible, to a normal level of functioning.
- Decrease the potential long-term effects of the crisis.

Examples of events that create a crisis include, but are not limited to:

- An accident involving a student or staff member
- Death of a classmate or staff member
- Suicide or homicide
- Natural disasters
- Terrorist activities
- Substance overdose
- Severe act of violence (school shooting or hostage situation on campus)
- Fire or chemical spill
- Any other event that is an emotionally-significant event that creates an unstable or critical school setting.

B. Incident Command System (ICS)

The Incident Command System is an emergency response system used to manage an emergency incident at a specific facility or site. The ICS, as designated by the MDUSD, will be used by this school as the formal emergency response structure for all emergencies, regardless of size.

The Incident Command System is a field level emergency response system to a specific incident or type of incident. This is in contrast to the Standardized Emergency Management System (SEMS) which is used to manage resources at a district-wide level.

The Incident Command System can be used for both small and large incidents. The ICS has considerable flexibility and can expand or contract to meet different needs of the incident.

The organization of Incident Command System is based on five major management functions or sections, which are also utilized in the SEMS response structure:

- Command (Management) - responsible for overall policy and coordination
- Operations - responsible for actually performing the actions that make up the emergency response
- Planning/Intelligence - responsible for collecting, evaluating and disseminating information; maintaining documentation and evaluating incoming information to determine the potential situation in the not-too-distant future
- Logistics - responsible for providing facilities, services, personnel, equipment, materials
- Finance - responsible for financial activities such as establishing contracts with vendors, keeping pay records, and accounting for expenditures

These five management functions are the foundation upon which the Incident Command System organization develops. They apply to handling a routine emergency, organizing for a major incident or managing a major response to a disaster. On small incidents, these major activities may all be managed by one person, the Incident Commander. Large incidents usually require that these activities be set up as separate sections within the organization. Each of these sections may be further divided into branches, units and groups, as needed.

Command staff consists of the Incident Commander, Deputy Incident Commander (if needed), Public Information Officer, Safety Officer, and Liaison Officer. General staff includes the section chiefs from each section. Actual incident response actions will be carried out by a Crisis Response Team as described in Part III, E of this plan. The Command Staff will determine the most appropriate response actions for each emergency by the coordinated development of an Incident Action Plan.

C. Incident Action Plan

The Incident Action Plan is the plan developed by the Incident Commander and the Command Staff which contains the objectives reflecting the overall incident response strategy. It also is used to lay out specific actions and any needed supporting information for the next operational period.

It is important that all incidents have some form of an Incident Action Plan. The plan is developed around a specified duration of time called an operational period and will state the objectives to be achieved and describe the strategy, tactics, resources and support required to achieve the objectives within the time frame. Generally, the length of the operational period is determined by the length of time needed to achieve the objectives.

The plan may be oral or written. Small incidents with only a few assigned resources may have a very simple plan which may not be written. Small incidents do not require elaborate Incident Action Plans. Incident Action Plans will vary in content and form depending upon the kind and size of the incident.

There is no single format which will fit all situations. Several Incident Command System forms are appropriate for use in Incident Action Plans. Incident Action Plans have four main elements that should be included:

- Statement of Objectives - Statement of what is expected to be achieved. Objectives must be measurable.
- Organization - Describes what elements of the Incident Command System organization will be in place for the next operational period.
- Tactics and Assignments - Describes tactics and control operations, including what resources will be assigned. Resource assignments are often done by division or group.
- Supporting Material - Examples include a map of the incident, a communications plan, medical plan, a traffic plan, weather data, special precautions and a safety message.

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

III. COMMAND and ORGANIZATION DURING A CRISIS

A. Foundations of Crisis Response

The primary foundation for any emergency or crisis response system is to ensure, as much as is humanly possible, the application of the three C's at all times. These three C's are:

Control – Control is the cornerstone of every crisis/emergency response. It means, first and foremost, the control of oneself and the initial responder(s); followed immediately by the control of non-responders in the area; and control of the area itself. It also means the control of persons, through conflict resolution or more direct means, involved in a developing hostile situation. In emergency response this is initiated and maintained through the effective use of the Incident Command System.

Communication -- Communication is essential to maintaining the control over a crisis incident or site and to the effective coordination of all response actions. Initial responder(s) must be able to communicate with school management, i.e. response command personnel, without leaving the incident/crisis site. An ongoing crisis/emergency response can only ensure coordination if ongoing communication is maintained among all response persons and between response persons and the command staff at the Incident Command Post.

Coordination -- Coordination is essential to ensure that the most effective and appropriate response actions are used throughout a response operation. It will be maintained after control is achieved and proper communication is established. Proper utilization of the Incident Command System will ensure that all response operations are coordinated from a central point and that no response action is taken at cross purposes to any other.

B. Chain of Command

An appropriate chain of command, organized and operated according to the Incident Command System, will be maintained at all school emergencies. This will facilitate the maintenance of effective control and coordination at campus emergencies.

In the event of a crisis, the principal will act as the Crisis Response Team Incident Commander at all school emergencies and is responsible for initiating and carrying out any emergency actions as required. The principal directs the Crisis Response Team members and other school staff in the implementation of the response actions of this crisis plan through the assignment of appropriate duties.

School Principal/Site Administrator: Eric Wood

If the principal/site administrator is not present, or cannot assume control for any other reason, the Chain of Command is as follows:

Vice-Principals Carolyn Hull Christopher Chenault

Principal/Site Administrator Designee (to be established each year): Eric Wood

Lead Teacher(s) Jay Nelson Bev Greeb Chad Shelton

Other staff as designated by the principal Danya Townsend

This Incident Command System Plan and the District Emergency Operations (DEO) Plan refer to the principal or the above person(s) as the site administrator, indicating the person who is in charge at the school at any given time.

Throughout this plan, all key persons have been designated by role. It is assumed that each of these persons will have two or three people minimum trained to carry out their respective responsibilities in their absence. It is very important that administrators, staff, parents, students and community agencies become familiar with the guidelines in this plan.

C. School Use of Incident Command System

At all campus emergencies, designated school staff will function as Command Staff within the Incident Command System until the arrival of outside response personnel, such as fire or law enforcement. Upon arrival of outside response agencies, the Incident Commander will turn over command of the incident to the ranking response person. The school Incident Commander will document the time of the relinquishing of command and will remain at the Incident Command Post as part of a unified command structure.

As needed, the school will coordinate activities with the DEO Center during a major emergency or disaster once the District Emergency Operation Center (EOC) is activated. As deemed necessary by the principal or other person acting as the Incident Commander, resource requests will be made by the campus Logistics Section Chief directly to the District EOC. All requests for initial emergency assistance will be made to the local emergency response agencies. District EOC requests will be used in the event of a long-term disaster situation.

D. Command Post

Overall responsibility for campus student, staff, and visitor safety in a major emergency is vested in a Field Command Post organized in accordance with the Incident Command System. This is especially true in the event of an earthquake during which injuries and/or building damage occurs.

The Command Post will be located such that the full emergency assembly area is in view, while maintaining adequate separation from students, evacuation assembly areas, the medical treatment area and student release areas. The primary responsibilities and functions of the Command Post are to:

- Institute the Incident Command System
- Assess type and scope of emergency
- Assign people to needed functions
- Determine threat to human life and structures
- Determine need for site evacuation and take appropriate action.

The primary location for the Command Post is Main Office Conference Room Alternate location is Boy's P.E. Office.

School personnel designated to contact outside emergency response agencies will notify the responding agency of the location of the Command Post at the school.

Note: Not all members of the command staff will be activated at every emergency. Decisions as to the extent of the response and staff activation will be made by the Incident Commander at the initiation of the response. However, the first three positions named below in section E will be activated at all school emergencies involving partial or full evacuation of school buildings. In addition to the Incident Commander, the Command Post will be staffed as indicated below. School staff designated as the primary person for each position is shown following each position title (Also see the Incident Command Chart at the front of this section.

The Incident Commander and the general command staff will have responsibility for developing, implementing and coordinating the Incident Action Plan(s) for emergencies in and around the campus.

E. Crisis Response Team: Organization and Responsibilities

Team Members

A designated, organized and trained Crisis Response Team is the foundation of a coordinated and effective response to any crisis, emergency or disaster which affects the school. This team is organized according to the structure and principles of the Incident Command System, which provides critical leadership, coordination, and communication before, during and after a crisis.

Crisis team members have basic knowledge of the crisis response plan and are individuals who are trained appropriately to their duties as part of the team, are familiar with each other, are empowered to direct the activities of others in a crisis and are familiar to most students and staff.

The Crisis Response Team will manage a number of different tasks in the event of an emergency. In addition to specific duties delineated in this plan, these tasks will, in general, include, but are not limited to:

- Determine steps to be taken to respond to the crisis
- Request district and/or community assistance during and after the crisis
- Maintain coordinated control during an emergency situation
- Coordinate communication with students, staff, parents, district staff, community agencies and the media
- Discuss the needs of high-risk students and staff and plan for interventions
- Assist teachers who need help with students
- Staff a safe room for students if needed
- Staff a safe room for staff members if needed
- Monitor the halls, playground, lunchroom and other campus areas
- Be visible and ready to assist
- Decide if any athletic or other event(s) should be cancelled
- Obtain pertinent information from the family members of injured students or staff, or other involved individuals
- Discuss school memorial or other appropriate follow-up school activity
- Plan for debriefing meeting with staff
- Check in with one another for support

Each of these tasks will be pre-assigned to members of the team prior to an emergency.

In addition to the Incident Command Staff at the Command Post, the Crisis Response Team may be activated and utilized as appropriate to the extent and type of emergency occurring. These individuals will have designated and respective responsibilities.

Not all members of the team will be activated at all emergencies. However, the Evacuation Assistance Personnel and the Access Control Personnel will assume their duties at ALL emergencies involving evacuation of the school. The Response Team will carry out their functions according to the procedures outlined in this section and in Part VII - Evacuation Procedures section of this plan.

During the evacuation itself, the Incident Commander, through the Evacuation Response Branch Supervisor, will ensure that all Evacuation Assistance Personnel are operative and performing their respective duties as assigned.

The Crisis Response Team will consist of the following positions:

Upon hearing the call to evacuate, persons in these positions will automatically and immediately assume their respective duties and report immediately to their designated stations.

Evacuation Assembly Area Coordinator

The Evacuation Assembly Area Coordinator (Coordinator) will report immediately to the primary designated Evacuation Assembly Area, whenever an evacuation is called, and inspect the area for safety and security. In the event of a natural emergency, such as earthquake or fire, the Coordinator will ensure that the area is not a potential danger to the evacuees and/or is not in the path of the event.

In the event of a technological emergency such as a gas leak or a hazardous materials spill or release, the Coordinator will ensure that the assembly area is upwind, upstream or otherwise completely out of the danger zone potential of the release. The Coordinator will immediately notify the Incident Commander if evacuation is deemed unsafe and will call for an evacuation in place as appropriate.

In ALL emergency evacuations the Coordinator will also inspect the area for potential violence threats. This will include inspecting the area for threatening persons, which includes students, explosive devices or other forms of violent threats. This will provide an assessment as to whether an alarm given for an evacuation was, in fact, a ruse to place students and staff in harm's way. The Evacuation Assembly Area Coordinator will take the accounting reports from all Classroom Emergency Supervisors and report these to the Evacuation Branch Supervisor in the Command Post.

Wing Leader

Each wing or building or pod within the school will have a designated Wing Leader with responsibility to ensure the orderly, coordinated, and efficient evacuation of the building in the event of a major emergency. Upon the completion of their tasks in their respective areas of responsibilities, the Wing Leaders will then report to the Evacuation Branch Supervisor in the Command Post via radio or by direct reporting that the wing is clear.

Wing Leaders are also responsible for ensuring that all conference rooms, bathrooms and/or storage rooms in their assigned area have been inspected to ensure that any persons found in these rooms are aware of the evacuation alarm.

Classroom Emergency Supervisors

Each classroom will have a designated person to act as an Emergency Supervisor. Under normal operating circumstances, this will be the teacher assigned to the respective classroom. If a teacher leaves the classroom for any reason, they will designate an individual to assume this position until the teacher returns.

This Emergency Supervisor will have direct responsibility for the safety and overall well-being of the students under their charge at the time. In the event of an incidence of violence where a lockdown response is announced over the intercom, supervisors will ensure that the room doors and windows are locked and that all persons in the room are away from windows and are under their desks.

The Emergency Supervisor will also ensure that all students and volunteers within the classroom when an evacuation is called have been evacuated from the room. The Supervisor will ensure that students and volunteers are taken to the designated

evacuation assembly area and that a full accounting of persons is taken. The verification of full room evacuation and proper accounting of persons will then be reported to the Assembly Area Coordinator.

Access Control Personnel

Whenever an evacuation is called, personnel designated as Access Control Personnel will assume duties as traffic controllers to prevent unauthorized public vehicle access to the school campus.

Once they have relocated and assumed site control duties, Access Control Personnel will report to the Evacuation Branch Supervisor via radio, or other designated form of communication, that they are in position and their respective areas of operation have been secured. They will remain at their posts until relieved or dismissed by the Command Post.

The Access Control Personnel will ensure that no vehicles enter the school campus area unless the vehicles are emergency vehicles or are authorized to enter by the Command Post.

The Access Control Personnel will also ensure that no vehicles leave the school campus area without the authorization of the Command Post.

In the event of a major disaster such as an earthquake, it is presumed that some staff or visiting members of the public will be emphatic about wanting to leave to check on their respective families. Given this, these persons may not want to remain at the school until authorization is received. In these cases, the Access Control Personnel are instructed to obtain the names, addresses and phone numbers of the individuals leaving to ensure accountability of all persons who were at the school at the time of emergency. Access Control Personnel will explain to these persons leaving that this information is necessary in the event that any of their family members contact the school or the District office to ask about their well-being.

If any persons still refuse to provide this information, the ACPs must write down the license plate number of the vehicle leaving, the vehicle type and color and a brief description of the driver. In this way a person visiting the school may still be accounted for. Note: Under no circumstances are vehicles to be allowed to leave the school unless some accounting has been made of each vehicle and the driver, as possible. If the driver appears threatening, the Access Control Personnel will allow the person to leave freely, immediately contact the Command Post to report the incident, then write down the above information about the vehicle and driver.

Once offsite responders arrive at the school, the Access Control Personnel will relinquish their roles to offsite responders and report this relinquishment to the Evacuation Branch Supervisor.

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

IV. GENERAL CRISIS/INCIDENT RESPONSE

A. Basic Response to a Crisis

Crisis or emergency situations often cause those involved to feel bewildered, shocked and helpless. An effective crisis response makes both the physical and emotional safety of individuals a priority. It is essential to have general crisis response actions determined in anticipation of, and prior to, an actual event. Preparedness steps, including the coordination of basic initial response actions, must be taken before an incident occurs. The following are initial steps to be taken by school staff in responding to any crisis:

1. Fact Gathering

- Confirm and clarify the facts surrounding the crisis.
- Conduct interviews with participants and any identified witnesses.
- Notify principal or designee as to incident or developing situation.
- Contact police or other emergency services if situation or condition is a potential or real threat to school students and/or staff, district officials, parents of involved students.

2. Call to Action

- Principal, or designee, will implement a basic Incident Command System and will assume command over the situation as needed.
- Principal, or designee, will determine the level of activation required for assembling the Crisis Response Team.
- Incident Commander will determine/request support services needed (e.g., MDUSD psychologists or other district or community emergency services).
- Command Staff will notify District officials of the crisis.

3. Inform Staff, Students, Parents and Community

- School, as part of the coordinated response system, will implement communication plan with faculty and other staff.
- The principal will determine method and timing of providing students, parents and the school community with information and updates.
- The school Information Officer will, when appropriate, prepare a written statement – anticipate questions.

4. Taking Action

- The first person on the scene of the incident will implement first-response actions. The nature of the emergency will dictate what initial actions are needed.
- Responders will keep adult leaders circulating through school.
- Plan for teacher-guided discussions, assembly, classroom activities, and presentations, as appropriate.
- Identify high risk individuals.
- Schedule faculty and parent meetings as needed.
- Make referrals to community agencies.
- Document events.
- Determine next steps using District Emergency Operations Plan post-incident response procedures.

B. Guiding Principles of Crisis Intervention

The following actions will serve as guiding principles to use with students and staff when responding to a crisis at school:

- Intervene immediately: be direct, active and authoritative.
- The sooner students and staff are assisted in coping with the crisis situation, the better the chances are of restoring equilibrium. The longer someone remains in a state of confusion or unable to take some sort of action to address the situation, the more difficult it will be to intervene.
- Keep the focus of the intervention on the precipitating situation.
- Help the individual to accept that the crisis has occurred by encouraging him/her to express the facts of the situation as well as expressing feelings.
- Provide accurate information about the situation.

- Give a realistic assessment of what has occurred, and what might be the expected outcomes.
- Do not give false reassurance. Always remain truthful and realistic.
- Recognize the anxiety, depression or tension but, at the same time, provide some sense of hope and expectation that the student will ultimately overcome the crisis. Do, however, let the individual know that things may never be the same as they were before the crisis.
- Recognize the primacy of taking action.
- Every crisis-counseling interview should have an ultimate outcome of some action that the student can take. Restoring the student to the position of actor rather than victim is critical to success.
- Provide emotional support.
- Find a group of peers, a group of school staff members or a family member who can provide both support and temporary assistance to involved individuals during the crisis. Implement a buddy system so that the individual isn't left alone.
- Focus on self-concept.
- Emphasize how the individual has coped with the situation so far and how he or she has already used strategies for moving forward. Encourage the individual to implement solutions or strategies that have a high probability of success.

C. Emergency Response Communications

Communication during an incident or ongoing disaster response is essential in ensuring coordination among all response personnel. This holds true for communication between the site respondents as well as between the site Command Post and the District EOC. Communications are the responsibility of the Command Post. The Command Post will ensure effective communications are maintained throughout the response, both onsite and to offsite assistance. Communications will be coordinated with those handled at or by:

- Local emergency response agencies (e.g., fire, law enforcement)
- The District EOC
- Offsite volunteer groups or organizations, (e.g., American Red Cross)
- Parents
- The media (as appropriate)

Communications with local agencies and district officials will be conducted by telephone if possible. If telephones are inoperable, communications will be conducted by cellular telephones, email, school vehicle radios and/or by personal messenger.

With Functioning Power:

- Intercom
To be used directly by the site administrator in charge acting as the Incident Commander. Office Manager, or designee, will manage all intercom calls/reports from classrooms or other areas. Calls are to be documented and kept available for the administrator in charge.
- Walkie-Talkies/Two-Way Radios
Office Manager, or designee, will serve as the base station during the response operation.
- Telephones
Office Manager, or designee, will manage all in-coming calls. All calls will be documented. Documentation is to be maintained at the site and a copy forwarded to Risk Management at the Dent Center.

Without Functioning Power:

- Walkie-Talkies/Two-Way Radios
- Messengers
School staff without designated Response Team roles, teachers on prep period and/or students as appropriate may be used as personal messengers. Staff may be called upon to serve as messengers to drive to other schools, district office, or other district or community locations.
- Bullhorn
A bullhorn may be used by the site administrator acting as Incident Commander. It may be used as a back-up for giving directions to groups.
- Telephones
District telephones will not operate during a power failure. A record should be maintained of the locations of direct dial telephones. This will usually be the line that serves the fax machine. Each site should have one direct-dial telephone unit that can be plugged into this line.

A cell phone will be maintained in working order to be used should school phones not function. (Do not post to social media during a crisis.) Note: Any employee using a personal cell phone in response to any emergency situation will be reimbursed for any documented charges associated with the calls.

- School Bus
All district school buses have a radio that can call the district. If a bus is on campus, the radio can be used to communicate with the district.
- Email
Lap top computers with internet capabilities and battery backup will be used to contact the District EOC as necessary.

D. First Aid/Emergency Medical Response Center

As needed for the incident or disaster response, a temporary First Aid Center will be set up.

Primary Location	Room 508
Alternate 1	Office-Staff Lounge
Alternate 2	Library
Alternate 3	Band Room

The First Aid Center will be supervised and coordinated by the following personnel:

School Nurse	
Primary	School Nurse
Alternate 1	Simone
Alternate 2	Greg Conlin

In the event of any major disaster, two assumptions must be made regarding medical services:

- During a major earthquake, local emergency medical service personnel may not be available to respond to District emergencies for at least 12 hours. Therefore, transportation of the injured may be delayed.
- First aid treatment is most critical as soon as possible after injury. District employees and visitors will be dependent on first aid rendered by trained District employees.

At these times the First Aid Center Coordinator will assume ICS duties as the Emergency Medical Branch Supervisor and will establish an Emergency Medical Branch as part of the Incident Command System response. The Emergency Medical Branch will consist of the following elements as directed by the Emergency Medical Branch Supervisor. Not all components will necessarily be activated in all emergencies requiring major medical emergency response:

- Triage Areas
- Treatment Units

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

V. SCHOOL STAFF EMERGENCY RESPONSIBILITIES AND ASSIGNMENTS

A. Statement of General Staff Responsibilities

All staff members are directly responsible for the protection of students, members of the public and school assets. School administrators and teachers must ensure that appropriate steps are taken during emergencies. General responsibilities for ALL school staff in case of emergency include, but are not necessarily limited to, the following:

- Ensure that students are properly notified of the emergency.
- Take appropriate action with students as conditions require.
- Initiate first aid, rescue, equipment shutdown or damage control as needed.
- Account for all students.
- Notify the principal of missing persons, or of any employees or students who require medical assistance.
- Contact parents or guardians as appropriate.

B. District Staff as Disaster Workers

The California Government Code [§3100 et. seq.], declares that all public government employees are disaster workers subject to such disaster service activities as may be assigned to them by their superiors or by law. In accordance with these legal responsibilities of public employees, all district personnel are subject to be called upon and must be prepared if at home or elsewhere, to report for duty in the event of an extreme emergency. Arrangements for care of one's family should be prearranged in order to permit discharge of this emergency responsibility. This law applies to the District employees in the following cases:

- When a local emergency has been proclaimed
- When a state emergency has been proclaimed by the governor
- When a federal disaster declaration has been made by the president

All staff members should have a personal plan for themselves and their families that can be implemented during an emergency. Staff members should be prepared to remain on site for as long as 72 hours or longer following an emergency, possibly without contacting their home and families. Staff members with special home considerations should discuss these with the principal prior to any emergency.

C. Release of Teachers/Staff from Duties as Disaster Workers

Government Code §3100 declares that public employees are disaster service workers, subject to such disaster service activities as may be assigned to them by their superiors or by law. The term public employee includes all persons employed by the state or any county, city, city and county, state agency or public district, excluding aliens legally employed.

This means that all school staff are considered disaster workers during a major emergency. School personnel assigned to school level Incident Command System positions and responsibilities will assume their posts as assigned by the site Incident Commander. Others will remain at a central staging location to await assignment as needed. No District staff person will be released from their normal or emergency response duties without the expressed permission of the principal or designee as directed by the superintendent or a designee. School principals will not allow such releases of their staff without first obtaining authorization from the superintendent or a designee.

Priority Release of Employees:

Staff members with special home conditions, such as infant children or invalid relatives, are invited to submit a written petition for "first opportunity" release after the crisis stages of an emergency. The administrator in charge will exercise this release at the earliest opportunity as follows:

- Those with dependents
- Those with no dependents
- Administrators

F. Basic Personnel Responsibilities during an Extended Period after a Disaster

The first priority for the site Incident Commander during an emergency will be to implement the initial response actions to control and stabilize the situation. This will be accomplished through the activation of the site Crisis Response Team and the implementation of the Incident Command System.

An ongoing disaster situation, such as an earthquake, will demand long term coordination of response operations. These operations will be coordinated with Emergency Operations Center established at the District office. The site Incident Commander will utilize this plan and the District Emergency Operations Plan to facilitate the ongoing response actions.

The Incident Commander, through the Command Staff, shall:

- Set control center in operation.

- If buildings are damaged, appoint staff to assure that no unauthorized person goes back into the building until they have been declared safe.
- Post traffic control at gates to keep parking lot free for emergency vehicles.
- Determine runners for the school.
- Establish and coordinate activities at the first aid center.
- Direct the recovery of all disaster-related and medical supplies, equipment and information listings from the first aid supply stations.
- Release teachers according to school's first opportunity release.

Assigned Clerical Staff shall:

- Establish the communication center—assist in the Command Post.

The Teachers shall:

- Remain with their class group or report to the control center if they do not have a class group.
- Provide first aid to injured students for the students in their class group until an emergency first aid station has been established.

Students with major injuries are to remain in the classroom supervised by one teacher from a buddy group.

Students with minor injuries are to be cared for after evacuation.

- Use red flag (bandana) in emergency to signal major first aid needs whether they are on the field or in the classroom.
- USE BOTTLED WATER UNTIL NOTIFIED THAT WATER SYSTEMS ARE SAFE.
- When evacuating the classroom, take the teacher's emergency kit and roll book.
- Check with buddy classes when evacuating. If there are seriously-injured persons who cannot be moved, assign one teacher to remain. Other teachers evacuate the rest of the students.
- Take roll. Send notice to control center immediately of any student who is not with the class group, or injured, noting possible whereabouts. Take roll periodically throughout the disaster period.
- Note on class roster in emergency kit the name of anyone who for any reason leaves the class group.
- Follow the procedures defined in the District Student Emergency Release Plan if students are to go home.
- Document on the Student Release Form any first aid given to the student.
- Periodically encourage students to talk about the incident/disaster to help reduce anxiety.
- Report to the Command Post when all students have been released.

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

VI. POTENTIAL EMERGENCY TYPES and RESPONSE PROCEDURES

School Administrators, teachers, and other staff will, at some time, be forced to deal with different types of potential or actual crises or emergency situations. The following sections describe the most probable situations, with specific response action directions included for each emergency type. The response actions are determined in coordination with the MDUSD Emergency Response Plan, the Incident Command System, and other district policies and guidelines.

A. Crisis Involving Individual Students and/or Staff

The sudden death, serious injury to a student or staff member either through natural causes, accidents or as the result of an act of violence, such as school shooting, missing students (known or suspected abduction), physical assault, sexual assault, non-natural or non-accidental causes or other unexpected events are, without question, a crisis. Responding to these kinds of crisis situations in a timely and effective manner is as critical as dealing with an earthquake or a fire.

1. Contact Student Services to request the District Crisis Intervention Team's presence at your site immediately following a serious injury, accident or death of a student or staff member.
2. Work with your school psychologist to determine identification of and short- and long-term interventions for students or staff traumatized by the event.
3. Work with the Superintendent's office to formulate a public statement.
4. Discuss the crisis in a factual manner in follow up meetings and/or communications.
5. Be sensitive to latent behavior problems that are trauma-related.

B. Intruder Alert/Anti-Violence Response

All school visitors must report to the office before moving around the school campus. Visitors will be provided with a brightly colored, easily-recognizable visitor's pass that will be worn in a visible location. Unknown persons without a visitor's pass should be directed to report to the office.

An administrator or a noon/campus supervisor should be called if assistance is needed by another staff person in dealing with an unidentified person on campus.

If anyone sees a threatening intruder on campus who is behaving in a dangerous or unacceptable manner, the office should be notified immediately. Police assistance will be requested if needed. Based on the intruder's behavior, a LOCK DOWN may be initiated. The purpose of a LOCK DOWN is to completely lock down the school. By securing students in their respective classrooms, identifying and isolating the problem becomes easier. Do not attempt to contact the office via the intercom or internal phone system unless you witnessed the incident or saw the suspects. The intercom/telephones will become inoperable if too many people try to use them at the same time. Follow these procedures:

Active Alert: LOCK DOWN

The principal will announce via the intercom, "This is a LOCK DOWN alert. Teachers and students please take your places."

Staff roles during Active LOCK DOWN

1. Remain calm and lock your door(s) immediately and close all windows.
2. Do not walk the hallways in search of the problem.
3. Stay with your students until you receive further instructions.
4. Permit no one to leave the classroom.
5. Have all students answer to a roll call.
6. Prepare a list of those present and those out of the classroom. Also list anyone else present who is not usually in the room that period. This is important to prevent officials from accidentally overlooking missing students or possible suspects.
7. Shut off all lights in the classroom. Turn off all computers and TV's. Instruct students to NOT use cell phones. Shutting off all interior lights reduces visibility and prevents an outsider from picking out possible targets inside the room. If you can safely close the shades or blinds without exposing yourself to the outside, do so immediately.
8. Move all students out of their seats and onto the floor in the safest part of the room, away from doors and windows. The intent of this directive is to place everyone out of sight of an intruder. If you are not in your classroom at the time of a LOCK DOWN, move into the closest classroom, storage room, bathroom or locker room. Keep everyone with you together. Do not let any student wander or leave to check on the status within the school. In the cafeteria, stay there and be prepared to take cover under tables if necessary.
9. Ignore all bells until further notice.
10. Wait quietly for instructions that will follow via the intercom or other means of communication.
11. Do not leave your classroom until you are told to do so by someone who communicates the "All Clear" password for your site. Teachers will be instructed not to allow their students out of their secured classrooms until told to do so by someone who knows the "All Clear" password or a uniformed police officer, if clearly identifiable, tells them it is safe to do so.

Practice Alert: Lock Down

The principal will announce via the intercom, "This is a Practice LOCK DOWN alert. Teachers and students please take your places." Follow the instructions above for an Active Alert.

Teacher Alert: Lock Down

In the event you hear gunshots not followed by an Active Alert to Lock Down, assume the office staff is not able to call for the lock down. Immediately initiate a Lock Down and follow the instructions above for an active lock down.

C. Earthquake

Although the probability of an earthquake occurring is lower than most other emergency types, the potential for injuries and damage from one is high. It is essential that students and staff remain aware of the following basic actions:

If an earthquake or other situation warrants, drop to the floor, take protective position under desks or furniture with backs to windows and hands covering head and face. Stay in position until directed to evacuate or take other protective action.

If outside, move away from buildings and trees and take protective position. When situation permits, proceed to the designated assembly point. Standby: Alert students in your area to stand by for further information. Make whatever assessment of the situation is possible. Render emergency first aid as required.

If inside, stay inside during ground shaking. In classrooms or offices, move away from windows, shelves and heavy objects or furniture that may fall. Take cover under a safe table, desk or counter. At the teacher's command, students should take the DROP position.

If a "shelter" (table, desk, etc.) is not available, move to an inside wall or corner, turn away from windows, kneel alongside wall, and bend head close to knees, with elbows firmly behind neck protecting face.

If notebooks or jackets are handy, hold these over head for added protection from flying glass and ceilings debris. Remain in sheltered position for at least 60 seconds or until directed to move by an adult.

If in halls, on stairways, or other areas where no cover is available, students must follow the directions of the nearest teacher or school employee.

If in the library, immediately move away from windows and bookshelves and take appropriate cover.

In the science lab or shops, all burners should be extinguished (if possible) before taking cover. Stay clear of hazardous chemicals that may spill.

The duration of ground shaking depends on a number of factors, including the severity of the earthquake. Advise students to anticipate shorter or longer episodes of ground shaking during actual earthquakes and their aftershocks.

Earthquake hazards commonly found in school buildings:

Glass that shatters or flies around

Objects stored above head-level on shelves, walls, and ceilings (such as unused projectors, books, science equipment, boxes)

Objects that block movement to safe places (books on floors, tipped desks and bookcases)

Cabinets without latches

Objects stored on wheels

Open shelving without a lip or restraining wire

Free standing cabinets

Blocked exits

Objects in hallways that block movement (glass, tables, locker contents)

Settling down after the first shock:

After the first shock, teachers will evacuate the classrooms, being alert to the possibility of aftershocks.

When leaving the classroom, teachers should make every effort to take with them the roll book and emergency supplies.

Announce that no student is to return to the room unless directed to do so.

Teachers will take classes to pre-arranged places on the campus.

Teachers and students will remain in designated areas until re-entry to the building has been approved or they are directed to move elsewhere.

School will remain open indefinitely until every student has been released to parents or to an authorized person.

Do not light any fires after the earthquake because of possible gas leaks.

If possible, notify utility companies of any break or suspected breaks in service.

The principal should procure the advice of the Director of Maintenance and Operations regarding the safety of the buildings.

The principal should keep the superintendent informed of conditions at the school.

D. Fire

In the event a fire is detected within a school building, the school fire alarm will be sounded. This will automatically implement the action to LEAVE THE BUILDING.

The teacher leaves the room last, checking closets and storerooms for stragglers, closing door when out. Teachers will take with them their class list.

Staff and students will assemble at the assembly point designated.

The teacher will take roll and complete the Student Accountability Form.

Teachers are to remain with their classes until given further directions.

The fire department will be notified. The police and superintendent should also be notified.

Access roads to the school campus should be kept open by custodians or other designated staff.

Students and staff will not return to the buildings until the fire department declares the area safe and the principal has announced the ALL CLEAR via bullhorn or through runners.

Clothing on fire: STOP. DROP. ROLL. Use other pieces of clothing to help smother the flames. Immediately call 911. Render first aid.

E. Bomb Threat/Suspicious Package

Bomb Threat

An employee receiving a bomb threat by telephone or other means will utilize the Bomb/Phone Threat Information Checklist form, if possible. The employee, in using the form, will attempt to obtain the following information:

- Try to ascertain as much information from the caller or source as possible. Verbatim responses to the following questions are especially desired:
 - o When is the bomb to explode?
 - o Where is the bomb right now?
 - o What kind of bomb is it?
 - o What does it look like?
 - o Why was the bomb placed here?
- o Note on checklist a description of the caller's voice (sex, age, tone, accent, etc.) and whether it was familiar or not.
- o Note any background noises (train, machinery, airplanes, ocean, traffic, etc.).
 - Notify the principal or designee.
 - Principal will notify the police department, the fire department, and the superintendent.
 - Upon notification of a threat, the principal will decide whether to clear the building for the safety of staff and students. If the emergency action to leave building is ordered, students will move under the full control of their teacher to the designated assembly point. Proceed as during "FIRE" above.

Suspicious Package

Anyone discovering a suspicious package, box or strange device will do the following:

- Not touch or remove strange objects.
- Notify the principal.
- Principal will notify the police department, the fire department and the superintendent.
- Principal will evacuate the buildings.

Whenever a bomb threat is received or a suspicious package is found, a police officer will evaluate the threat or object before instituting a search of the buildings or sounding the signal for staff and students to return to the buildings.

Only trained volunteer staff members may assist the police in a search of the buildings.

The superintendent is to be kept informed of all actions.

F. Severe Windstorm

Warning of an impending windstorm is usually received via radio, television or civil defense officials. The United States Weather Bureau can usually forecast severe windstorms. If high winds develop during school hours without sufficient warning, the following emergency actions should be taken:

Implement action to TAKE COVER. Students and staff should assemble inside shelters or buildings.

Close windows and window coverings. Seek shelter away from windows.

Remain near an inside, ground level wall if the building is more than one level.

Evacuate classrooms that bear the full force of the wind.

Avoid auditoriums, gymnasiums and other enclosures that have long roof spans.

Keep tuned to a local radio station for the latest advisory information.

Take roll and complete Student Accountability Form.

Notify site administrator of any break or suspected break in utility lines or buildings which might present an additional hazard.

If possible, contact and report conditions to the superintendent.

Don't permit any staff to leave the building until the winds have subsided and it is safe to do so.

G. Chemical Spills within the School

In the event of a chemical spill or incident at school, the site administrator will determine what emergency action to take depending upon the circumstances. Teachers in the area shall do the following:

Restrict the area of the incident and evacuate the area as deemed necessary.

Rescue injured or trapped persons and remove from area, if trained to do so.

Provide first aid as needed.

If possible, determine the name(s) of the chemical(s) and provide that to the emergency respondents.

Allow no one in the immediate area of the spill except emergency personnel.

The office will alert classes to, "Shelter-in-Place."

Close windows, curtains or blinds, and doors.

Seal cracks under doors and around windows.

Turn off heating or air conditioning.

Office will call for student accounting.

Stay inside and keep students clam and working.

Do not allow anyone to leave the classroom. Use emergency food and toilet facilities stored in the room, if necessary.

Wait for further instructions or an all clear.

Electricity will be left on. Intercoms, radios, and TV's may be used for accessing information during the event.

Notify the Superintendent's office.

H. Chemical Accident near the School

Warning of a chemical accident is usually received from the fire and/or police departments or from emergency services officials when such accident occurs sufficiently near the school to be a threat to the safety of students and staff at the school. An overturned tanker, a broken fuel line, and an accident in a commercial establishment that uses chemicals are all potential hazards. Whether the accident occurs at the school or off the school grounds, the site administrator shall:

Determine if there is need to implement action to LEAVE THE BUILDING or to SHELTER-IN-PLACE. This decision will be made in coordination with offsite emergency respondents.

Determine whether the students and staff should leave the school grounds and EVACUATE. If it is necessary to evacuate the area, move crosswind, never directly with or against the wind which may be carrying fumes.

Get upwind as quickly as possible.

To "Shelter-in-Place."

Close windows, curtains or blinds, and doors.

Seal cracks under doors and around windows.

Turn off heating or air conditioning.

Office will call for student accounting.

Stay inside and keep students clam and working.

Do not allow anyone to leave the classroom. Use emergency food and toilet facilities stored in the room, if necessary.

Wait for further instructions or an all clear.

Electricity will be left on. Intercoms, radios, and TV's may be used for accessing information during the event.

I. Explosion

The DROP command is to be given immediately in the event of an explosion at the school or within a school building.

If the explosion occurs within the building or threatens the building, the teacher will then implement action to LEAVE THE BUILDING.

Assemble at the evacuation area.

Sound the fire alarm and proceed as above for a fire.
Notify the superintendent's office.

J. Fallen Aircraft

Warning of a failing or fallen aircraft is usually by sight, sound or fire. If an aircraft falls near the school, the following actions will be taken:

The site administrator will determine which emergency actions should be implemented. When necessary, teachers will take immediate action to ensure the safety of students if the site administrator is unable to direct emergency action.

Students and staff must be kept at a safe distance from the aircraft, as it may explode. Move crosswind or stay up wind to avoid fumes.

Call 911

Notify the Superintendent's office.

K. Rabid or Vicious Animal

If a rabid or vicious animal is at or in the vicinity of the school, the Animal Control Center should be notified immediately. Teachers shall be notified to hold all students within the classrooms, ignore bells and await further instructions. Students outside of the building will be quietly and cautiously sent into the nearest building and secured in a room behind closed doors.

L. Natural Gas Leak or Ruptured Gas Line

The site administrator will evaluate the situation and determine the need for a building evacuation.

Offsite emergency respondents will be called if a leak is suspected.

In general, an evacuation of the building(s) will be conducted whenever there is a strong smell of natural gas within the school. Evacuations under other circumstances will be decided upon based on discussions with offsite emergency respondents. The site administrator will then initiate whatever emergency action is required.

Notify the superintendent's office.

M. Discarded Weapon or Drug Paraphernalia

A staff person may discover a discarded weapon or discarded drug lab or drug use paraphernalia. A student may also bring this to a staff person's attention. In these circumstances, the staff person will remain at the location and use a two-way radio to notify the office of the situation. If a radio is not available the staff person will locate a student and send the student to the office.

The office will immediately notify the local authorities.

The staff person will not take any active response role in these situations unless they have received appropriate training in weapons handling and hazardous materials handling response technique.

Keep the area clear of students and faculty until local authorities have arrived.

N. Loss or Failure Of Utilities

Consult PG&E website for grid of outages: www.pge.com

Contact PG&E to report a Power Outage 1 800-743-5002

Contact Contra Costa Water District Emergency #: M-F 7:00-3:30 688 8095. All other times, call 688 8374.

Contact TIS x4094 or 4105 to report phone issues.

Contact Maintenance, Operations & Facilities x3884 if the utility will be off for an extended period of time.

Notify the superintendent of the situation.

If necessary, make appropriate arrangements with M/O for temporary communications, water delivery and portable rest rooms.

Consult with the cafeteria manager. The cafeteria manager will consult with Food and Nutritional Services x4124.

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

VII. EVACUATION PROCEDURES

A. Evacuation Alarm System

A crisis or emergency may warrant an evacuation of the school building(s). Once notified of an emergency situation, the principal [or designee], acting as Incident Commander, will carry out the initial response actions delineated in Part III, E of this plan. In consultation with members of the Crisis Response Team, the principal will determine whether an evacuation is warranted or is the safest action given the character of the emergency.

Crisis Response Team members will immediately assume their designated response duties as activated by the Incident Commander. The Evacuation Branch Supervisor will ensure, during the evacuation itself, that all evacuation assistance personnel are operative and performing their respective duties as assigned. The Evacuation Branch Supervisor will then station themselves at the main entrance/exit to the building.

When a decision is made to evacuate, the Evacuation Assembly Area Coordinator will immediately report to the assembly area and inspect the area for hazards, as described in Part III, E of this plan. The Coordinator will notify the Incident Commander immediately if the area is safe. If not, the Coordinator will advise that the evacuation be done to the alternate assembly location.

This evacuation may be a partial evacuation of only portions of the building in a very localized emergency [e.g., a small chemical spill] or it may be a general evacuation of all building. When an evacuation is ordered, students and staff will be notified via the following system: Intercom System.

If deemed appropriate and safe, the school's fire alarm will sound in the event of a general building evacuation. If neither mechanical system is operable, the Incident Commander will utilize office, custodial or student personnel to notify classrooms of the need to evacuate.

B. Coordinating the Evacuation

Upon receiving the order to evacuate, Wing Leaders will assume their designated positions in the hallways of the school. They will then monitor the evacuation procedures and assure that all persons have left the building. Leaders are also responsible to ensure that all disabled persons in the building are assisted as necessary.

Wing Leaders will report to the Evacuation Branch Supervisor via radio or in person once they have verified that all persons on their respective wing have indeed left the building.

Once all Wing Leaders have reported to the Evacuation Branch Supervisor the supervisor will exit the building and ensure it has been secured. The Evacuation Branch Supervisor will then report to the Command Post.

C. Evacuation Assembly Areas

When ordered to evacuate, students and staff will follow the evacuation route prescribed for their respective areas and exit the building in an orderly and controlled manner. Any volunteers or visitors to the classroom should be advised to go with the classroom to the assembly area.

ALL students and staff must report to the assembly area and remain there until the Command Post, via the Assembly Area Coordinator, notifies them it is clear to return to the building. Under no circumstances are students to leave the area unless released by the teacher in strict accordance with the school's Student Release Procedures. This will not be done unless it is authorized by the Command Post.

Teachers MUST take a head count of all persons under their care to ensure that all students, volunteers and visitors are present. This will be reported to the Assembly Area Coordinator. If someone is deemed missing, the teacher is to immediately report this fact to the Assembly Area Coordinator even before the count is completed.

D. Access Control Personnel

Whenever an evacuation is called, the designated Access Control Personnel (designated prior to an emergency) will automatically assume duties as traffic controllers to prevent unauthorized public vehicles or persons access to the school campus and building(s). They will function according to the duties delineation shown in Part III, E of this Plan.

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

VIII. STUDENT EARLY DISMISSAL/SCHOOL CLOSURE

During school hours, all students are considered under the care and supervision of school staff. In all circumstances, and especially in the event of emergency incidents or circumstances, the safety of the students and the school staff is of paramount importance. All actions taken shall bear in mind the safety and well-being of both students and school employees.

Thus, in the event of a major emergency incident or disaster during school hours, school will not be dismissed without the expressed and clear authorization of the District Superintendent or a designee, and children will remain under the supervision of school authorities. Students will only be released from school and District responsibility in strict accordance with the policies and procedures of the District's Early Release Policy as described below. Parents/guardians or designated emergency contacts who come to the school to pick up students must properly identify themselves in order for their children to be released.

A. Release of Students From School Site(s)

It is the policy of the MDUSD and this school to reunite parents with their children at the earliest time possible after an emergency situation or major disaster event. However, if it is not possible for parents to pick up their children or make arrangements for others to do so, students will be held at the school or other area until such time as they can be safely released. Each year the school will notify all parents of the procedure for reuniting parents with children in the event of an emergency at school.

In the event students are held at a school, they may be released only to the student's own parent(s) or a person authorized beforehand in writing by the parent. Disaster Emergency Cards shall be completed by parents and used for this purpose. These cards shall be made available at the beginning of the school year and returned to the school.

Completed cards will be organized alphabetically and kept on file in the office. Duplicate cards will be maintained by the homeroom teacher and kept in the Teacher Emergency Kit.

Following an emergency when parents are unable to come to school, staff should be prepared for parents to fax copies of a signed authorization to release their son/daughter to a friend who can come to the school. Parent signatures must be on the faxed authorizations and must be matched to the signature on the Disaster Emergency Cards prior to the student's release.

Disaster emergency cards shall be made available to parents at the beginning of the school year and kept on file throughout the year. They shall be organized by homeroom classes. When release of students is imminent, students shall be reorganized into homeroom classes.

Parents or others must check with this school's Liaison Officer at the emergency Command Post prior to entering the school to pick up their children. Teachers will release students according to the procedure outlined under the Emergency Student Release Procedures described below.

B. Emergency Release Plan Procedures

Teachers will utilize the following procedures to properly release students from their care to a parent, legal guardian or person authorized in writing to pick up the student:

1. At time of emergency, students remain in their current classes. Teacher takes roll on emergency roll sheet. Await directive from office.
2. The school administration will communicate with district office for dismissal directive. Students will report to (first period or other) classes, upon administrative directive via intercom or bullhorn.
3. All adults without classes shall report to the Command Post for assignment of other duties. These duties may include, but not be limited to:
 - Covering classes
 - Acting as first aid assistants
 - Meeting parents who are picking up students
 - Acting as runners

- Sending runners to class for pickup
- Assisting students without a disaster card
- Checking for hand stamps/marks at school gate (red – authorized to leave)
- Assisting with phone calls home and talking to parents for permission to release students
- Directing parents to appropriate entrance and exit gates

4. Teachers will wait for directive from runner to take entire class to assigned phone to call for permission to leave. Teachers must talk to parent if student is walking home or is going home with someone not on disaster card.

5. Teachers will make phone notes on Student Accountability Form.

6. Adults picking up students will identify self at gate (pick up area); runner takes message to classroom teacher with name of student being released and name of adult picking up student. Teacher double-checks sign-out sheet, stamps/marks student in red and releases.

7. Students may go home with people listed on disaster card if parent can't be reached. As students clear out, remaining students will be consolidated in rooms with phones.

8. Teacher takes attendance after each consolidation and keep all documentation.

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

IX. TRAINING

A. Requirements

The key to effective and coordinated emergency response efforts is the proper training of school response personnel to a level, and in areas, appropriate to their respective duties in an emergency or disaster. Moreover, proper training is mandated under the SEMS requirements for District staff and students and by Cal/OSHA for employees of the District. To this end, this school and the District are dedicated to providing appropriate instruction to all emergency response staff.

All District Response Staff and Students

All non-response District staff, as well as all students, will receive training in the following areas:

- Brief overview of the District EOC plan and its coordination with School Crisis Response plans.
- Brief overview of the School Crisis Response Plans and its coordination with the District EOC plan.
- Responder positions within each plan and the duty to follow instructions of the response team personnel.
- Use of drills and exercises to provide hands-on instruction to staff and students.

School Crisis Response Team Personnel

School site emergency Crisis Response Team personnel will receive training in the following areas:

- Detailed information on the Incident Command System and its use at a school crisis or disaster response.
- Initiation and functioning of the ICS Command Post.
- ICS response positions, their responsibilities, and the use of position checklists.
- Development of site Incident Action Plans and the utilization of, and coordination with, EOC actions at the District level.
- Importance of documentation of site ICS activities and damage assessment information.
- Demobilization procedures for down-sizing and closing the ICS Command Post.

B. Drills and Exercises

Because emergencies occur without warning, life-protecting actions must be taken immediately at the first indication of emergency conditions. There may be no time to think through all of the options for what must be done. Emergency drills will be conducted periodically to help familiarize everyone with basic procedures and to help students and staff learn how to react immediately and appropriately.

Exercises and drills will be conducted at the school site level. The essential components of school site emergency drills are classroom training and discussions, demonstrations and exercises designed to help staff and students learn and practice where to seek shelter and how to protect themselves based on the kind of emergency they are facing.

EMERGENCY PREPAREDNESS AND CRISIS RESPONSE PLAN

Appendix B: MDUSD Student Handbook of Conduct, Welfare, and Discipline Section 1 Philosophy of Discipline and Safe School Planning

PHILOSOPHY OF DISCIPLINE AND SAFE SCHOOL PLANNING

A. PHILOSOPHY OF DISCIPLINE

The Mt. Diablo Unified School District believes that the best discipline is self-imposed and that each student should learn to assume responsibility for his/her actions.

Schools have an educational responsibility to promote a positive understanding of discipline. Our goal is to enhance each student's awareness of his/her personal responsibility by providing an orderly and predictable set of guidelines so each student can choose the course of action in his/her best personal interests.

There are three distinct phases of this responsibility:

1. To establish a school environment where the activities of the students and adults are orderly and promote a climate of cooperation.
2. To develop an understanding of the need for discipline throughout society.
3. To develop the student's desire for self-discipline.

B. STUDENT CONDUCT AND DISCIPLINE

In the process of developing rules regarding student conduct and discipline, the personnel of the Mt. Diablo Unified School District shall be guided by the following general policy statements:

1. Rules of conduct and disciplinary procedures shall be consistent with state and federal law and with the rules prescribed by the State Board of Education.
2. District personnel shall implement state and federal law and district policy.
3. Each school shall develop rules and procedures on school discipline in accordance with E.C. 35291.
4. It shall be the responsibility of the staff of each school to inform students and parents of the rules.
5. Rules and regulations dealing with discipline policy shall be distributed to students, teachers and parents at the beginning of each school year or at the time of enrollment for students who enter during the school year.
6. The administration shall be responsible for the maintenance of good discipline at the school site or wherever students may be participating in school-related activities. School district employees shall assume responsibility for the enforcement of the established rules.
7. Corporal punishment shall not be administered to a pupil by employees of the Mt. Diablo Unified School District.

otherwise specifically assumed such responsibility or liability, or has failed to exercise reasonable care under the circumstances. [E.C. 44808]

C. CHARACTERISTICS OF SAFE SCHOOLS

What is a safe school?

“Safe schools are orderly and purposely safe places where students and staff are free to learn and teach without the threat of physical and psychological harm. They are characterized by sensitivity and respect for all individuals, an environment of nonviolence, clear behavioral expectations, disciplinary policies that are consistently and fairly administered, students’ affiliation and bonding to the school, support and recognition for positive behavior, and a sense of community on the school campus. Safe schools are also characterized by proactive security procedures, established emergency response plans, timely maintenance, cleanliness, and a nice appearance of the campus and classrooms.”

D. QUALITY INDICATORS OF SAFE SCHOOLS

Our youth have many divergent needs. Their feelings of safety and security are influenced by wide-ranging factors. Some factors are equally important to all students, while others will be viewed with different levels of importance. The following comprehensive list of quality indicators describe factors considered to be primary in supporting the establishment and maintenance of safe schools. Because of limited resources, it is likely that few schools would meet all criteria. The factors included in this list are intended to be used as a broad measuring stick to assess school safety.

1. Focus on academic achievement

Effective schools convey a positive attitude that all youth can achieve academically. High expectations are established and clearly communicated to students and school community stakeholders. Instruction focuses on district curriculum standards and builds on student readiness profiles, individual learning styles, and interests. The educational approach is developmentally appropriate for students and provides a safe, secure setting free from threat. Students are able to test their skills at real tasks in a safe, noncritical environment. Adequate resources and programs ensure that expectations are met.

2. Positive environment that values youth and their ideas and is responsive to their needs

Research shows that a positive relationship with an adult who is available to provide support when needed is one of the most critical factors in preventing youth violence. Students often look to adults in the school for guidance, support, and direction. Effective schools help youth overcome feelings of isolation and support them in developing connections with others. Effective schools encourage youth to help each other and feel comfortable assisting others in getting help when needed. Academic and behavioral expectations are modeled by adult stakeholders.

3. Comprehensive safe school plan

Safe schools are orderly and purposeful places where students and staff are free to learn and teach without the threat of physical and/or psychological harm. Safety on campus is everyone’s business. In accordance with state law and district policy, each school has a Comprehensive Safe School Plan approved by the school’s Site Council. It is developed by representatives from all of the school’s stakeholding groups, including law enforcement.

The plan includes an assessment of the school’s current crime status, strategies and programs related to various aspects of school safety, an action plan to correct areas not meeting expectations (if applicable), school-wide discipline and disaster plans, and other components required by law.

4. Zero tolerance for violence, weapons, and drugs

Those in the school and community support a zero-tolerance approach to violence, weapons, and drugs. All stakeholders have declared that resorting to physical violence or participating in hate-based violence will not be tolerated. Neither will be possession or use of drugs or weapons be permitted under any circumstances.

5. Supervision/security

Every effort is made daily to provide supervision on campuses. Supervision is conducted to observe, and intervene when appropriate, student interactions as well as to maintain security with regard to nonstudents. Teachers and other staff members, participate in supervision before, during, and after school in assigned areas. Administrators monitor the students by supervising before, during, and after school. Special attention is given to those periods of the day when large groups of students are out of class together. Multiple lunch periods are offered as one strategy to reduce the number of students out of class at one time for lunch. Schools utilize either noon or campus supervisors to assist with supervision. Parent volunteers also assist when possible. All staff are aware of contingency plans that will be implemented in the event of an emergency and all have effective means to communicate during a crisis.

6. Parent and student involvement in school activities and decision-making at school

Students who have parents involved in their growth both inside and outside of school are more likely to experience school success and less likely to become involved in antisocial activities. Effective schools routinely provide opportunities for parents to become

involved in activities related to the educational program and school governance. These schools make parents feel welcome, address barriers to their participation, and keep them positively engaged with their son/daughter's education.

Similarly, student involvement in school activities and decision-making at school provides an avenue to maintain school programs, standards, procedures, and support services that are relevant, as well as ones that reflect the ideas and needs of youth. Students take more ownership and assume more responsibility when involved as partners.

7. Prevention education

All staff, certificated and classified, systematically foster effective K-12 prevention education to create a culture that promotes a safe and supportive environment for all members of the school community. Quality prevention education is "skills-based" and teaches asset development, conflict management, anger management, tolerance of diversity, good citizenship, decision-making, and refusal skills that result in healthy life choices.

8. Intervention services

When behavioral or emotional signs signal a troubled youth, support services are available to address the youth's needs. Students have access to caring adults who will listen to their ideas and concerns and who will take proactive steps to provide guidance when needed. Professionally trained individuals are available to provide appropriate support services when needed. Mental health needs of youth are a priority.

9. Staff training

Staff training is ongoing, system-wide and includes both certificated and classified staff. It provides for collaboration and is delivered in a safe and respectful environment that is conducive to learning. The school builds in accountability practices and evaluation of programs to provide a foundation of program planning. All stakeholders in the community have an investment in supporting staff training in order to create and sustain a safe environment for all.

10. Parent education

Parents do their best to provide youth with an opportunity to succeed. They frequently express the need for training to better respond to the changing needs of today's youth. Educational opportunities for parents are available to address their needs. Barriers to their participation are addressed, including time and location of classes, child care, and bilingual teachers. Schools work closely with the district's Adult Education Program to provide parenting education.

11. Links to the community/interagency collaboration

Links to the community provide a sense of belonging and responsibility. Opportunities for community service are offered to students. Furthermore, schools that have close ties to families, support services, community polices, and the community at large can benefit from valuable resources. Schools alone cannot meet the diverse needs of youth. All community stakeholders must coordinate efforts and consolidate resources to maximize services to youth.

12. Alternative educational opportunities

Students present diverse needs. Traditional approaches to education are not always appropriate for some students. Modifications are made with students when needed, and alternative programs are offered to accommodate the academic and social needs of students when appropriate.

13. Availability of healthy activity choices during at-risk hours

Studies have indicated that youth engage in a wide variety of risk taking and illegal activities during after-school hours when they are unsupervised. Schools, cities, and community organizations collaborate to provide youth with healthy choices during at-risk hours. Youth are encouraged to participate in after-school co-curricular and interscholastic activities. An effective truancy prevention program is implemented.

14. Safe, clean, and attractive physical environment

The school setting provides an environment that is safe from physical hazards, clean, and attractive. The environment should reflect student interests and display student work. All students learn that they contribute to the overall appearance of their campus. The appearance of the campus is continuously addressed by custodial staff, students through incentive programs, and other staff.

E. COMPREHENSIVE SCHOOL SITE SAFETY PLAN

Comprehensive School Safety Plans and the specific contents of the Plans are mandated by Education Codes 32280-32288. A "safety plan" means a plan to develop strategies aimed at the prevention of, and education about potential incidents involving crime, violence, and emergency disaster procedures.

The School Site Council, or the Safety Planning Committee authorized by the Site Council, is responsible for the development and ongoing reviews of the Plan. If the school chooses to form a Safety Planning Committee, the Committee must include the following members:

- The school's Principal or his/her designee
- One teacher representative of the certificated employee organization
- One parent whose child attends the school
- One employee representative of the classified employee organization

- Other appropriate members
- The School Site Council or the Safety Planning Committee shall consult with a representative from law enforcement in the writing and development of the safety plan.

The School Site Safety Plan shall include, but is not limited to:

- An assessment of the current status of crime committed at school or related school activities
- Appropriate strategies and programs that will provide or maintain a high level of school safety and address the school's procedures for complying with existing laws related to school safety which include the following:

Sexual Harassment Policy

Provision of a school side dress code

Procedures for safe ingress and egress of pupils

The rules and procedures for school discipline

Hate Crime reporting procedures pursuant to Penal Code 628-628.6

A safety plan may also include an action plan for implementing strategies and procedures

Yearly each school site shall adopt its Comprehensive School Site Safety Plan. Before the School Safety Plan is adopted, the site council or the School Safety Planning Committee shall hold a public meeting at the school site in order to allow members of the community the opportunity to express an opinion about the Safety Plan.

The Site Council or the School Safety Planning Committee shall notify, in writing, the following persons or entities, if available, of this public meeting:

- The local mayor
- A representative of the school employee organization
- A representative of each parent organization at the school site, including the parent teacher association and parent teacher clubs
- A representative of each teacher organization at the school site
- A representative of the student body movement

The Site Council or the School Safety Planning Committee is encouraged to notify, in writing, the following person or entities, if available of this public meeting:

- A representative of the local churches

To assist schools in the development of their plans, a template has been developed and is available from the Student Services Department. A copy of each school's plan must be on file in the MDUSD Student Services Department. (See Administrators' WIKI for template.)

In order to ensure compliance with this article, each school district shall annually notify the California Department of Education by October 15 of any schools that have not complied with Section 32281.

MDUSD EMERGENCY STUDENT RELEASE PROCEDURES

This guide will help parents understand the Student Release Process and ensure families are safely and efficiently reunited after an emergency or disaster.

KEYS for SUCCESS

Keep your child's school emergency card information up-to-date

Have current, valid identification of parent or designated adult who is picking up your child/children

Review the Student Release Procedures with your child/children

Require your child to stay at school until you or a designated adult can pick them up

Tell your child who you have selected as designated adults

Emergency Information

Your child's school needs you to:

Update your child's emergency information whenever changes occur

Provide names and contact phone numbers of designated adults who live closest to the school and can pick up your child if you aren't available

Provide names and contact phone numbers of trusted adults out of state*, who can be given information about your child in an emergency situation

Encourage your child to carry an I.D. card at all times

*Often in an emergency, local phone lines become unavailable, while long distance lines remain in service.

If you are designated as a contact person for your neighbor's child/children, please be prepared to show a photo I.D. and provide the above information.

Picking up Your Child during an Emergency Release

Our goal is to responsibly and safely reunite you with your child. Once you have received notice that students are being released early from school PLEASE:

- Follow school traffic rules
- Park only in designated areas
- Keep all driveways clear
- Bring your patience; wait your turn
- Follow your school's process for Emergency Student Release
- Leave the school as soon as you complete the Emergency Student Release process

School Emergency Pick Up Location

Ask school staff where the primary Student Release Station will be located.

Care of Students during an Emergency

1. MDUSD will keep and care for all students in an emergency situation (such as loss of electrical power, wind/rain storms, earthquakes, etc.) until the end of the school day or longer if the emergency dictates.

2. If an early release is necessary, students will be kept at school until the parent, guardian or an authorized adult comes to check the student out of school. It is expected that parents/designated adults will make haste to come as soon possible to pick up their children.

Please keep this brochure in a convenient, accessible location.

Appendix H: Working with the Media and Public in Time of Crisis

MDUSD BP 1112

Crisis Communications Plan

During a disturbance or crisis situation, the first priority of school staff is to assure the safety of students and staff. However, the Board recognizes the need to provide timely and accurate information to parents/guardians and the community during a crisis. The Board also recognizes that the media have an important role to play in relaying this information to the public. In order to help ensure that the media and district work together effectively, the Superintendent or designee shall develop a crisis communications plan to identify communication strategies to be taken in the event of a crisis.

The crisis communications plan may include but not be limited to identification of a media center location, development of both internal and external notification systems, and strategies for press conference logistics.

The Superintendent or designee shall include local law enforcement and media representatives in the crisis planning process.

Emergency Preparedness and Crisis Response Plan

IV. General Crisis/Incident Response

C. Emergency Response Communications

Communication during an incident or ongoing disaster response is essential in ensuring coordination among all response personnel. This holds true for communication between the site respondents as well as between the site Command Post and the District EOC. Communications are the responsibility of the Command Post. The Command Post will ensure effective communications are maintained throughout the response, both onsite and to offsite assistance. Communications will be coordinated with those handled at or by:

- Local emergency response agencies (e.g., fire, law enforcement)
- The District EOC

- Offsite volunteer groups or organizations, (e.g., American Red Cross)
- Parents
- The media (as appropriate)

Communications with local agencies and district officials will be conducted by telephone if possible. If telephones are inoperable, communications will be conducted by cellular telephones, email, school vehicle radios and/or by personal messenger.

With Functioning Power:

- Intercom

To be used directly by the site administrator in charge acting as the Incident Commander.

Office Manager, or designee, will manage all intercom calls/reports from classrooms or other areas.

Calls are to be documented and kept available for the administrator in charge.

- Walkie-Talkies/Two-Way Radios

Office Manager, or designee, will serve as the base station during the response operation.

- Telephones

Office Manager, or designee, will manage all in-coming calls. All calls will be documented. Documentation is to be maintained at the site and a copy forwarded to Risk Management at the Dent Center.

Without Functioning Power:

- Walkie-Talkies/Two-Way Radios
- Messengers

School staff without designated Response Team roles, teachers on prep period and/or students as appropriate may be used as personal messengers. Staff may be called upon to serve as messengers to drive to other schools, district office, or other district or community locations.

- Bullhorn

A bullhorn may be used by the site administrator acting as Incident Commander. It may be used as a back-up for giving directions to groups.

- Telephones

District telephones will not operate during a power failure. A record should be maintained of the locations of direct dial telephones. This will usually be the line that serves the fax machine. Each site should have one direct-dial telephone unit that can be plugged into this line.

A cell phone will be maintained in working order to be used should school phones not function. (Do not post to social media during a crisis.) Note: Any employee using a personal cell phone in response to any emergency situation will be reimbursed for any documented charges associated with the calls.

- School Bus

All district school buses have a radio that can call the district. If a bus is on campus, the radio can be used to communicate with the district.

- Email

Lap top computers with internet capabilities and battery backup will be used to contact the District EOC as necessary.

Designate a location for the media.

Follow ICS protocol if you are approached by the media or a member of the public during a crisis, which is to direct the media or the public to the Public Information Officer.

ICS Public Information Officer

Responsibilities

The Public Information Officer acts as the official spokesperson for the school site in an emergency situation. If a school district PIO is available, he/she will be the official spokesperson. A school site-based PIO should only be used if the media is on campus and the district PIO is not available or forthcoming. News media can play a key role assisting the school in getting emergency/disaster related information to the public/parents. Information released must be consistent, accurate and timely.

External Communications (Guidelines Provided by The American Red Cross)

During a crisis, conveying accurate information in a clear and unemotional manner is of paramount importance. Accurate information contributes to good decision making, and helps dispel the rumors that invariably arise during emergencies. Properly handled, communications can lessen stress, help deflect lawsuits and preserve the property's reputation.

The following guidelines should be kept in mind when dealing with the media:

- If possible, have a written statement prepared in advance. This will help provide a complete, accurate and unemotional presentation of the facts. When presenting the information, it is completely acceptable to present things from the district's perspective. Many others will be skewing the facts or presenting rumors as facts. If you do not present the district's perspective, no one else will.
- When speaking to anyone, always express your genuine concern for the safety of the staff and students; and sincere regret over any injuries suffered during the incident. If asked about property damage, always remember that people come first and reinforce the district's concern over the health and well-being of people over any concern for property.
- Cooperate with the media and don't try to avoid them. Rather, manage the situation by guiding them towards the designated briefing area. A "no comment" remark feeds speculation that the district has something to hide.
- Always tell the truth and if you don't know an answer, say so. Be careful not to commit to finding an answer since some issues are best unanswered. A lie will always cast a poor image on the entire organization.
- Do not speculate. State the facts and if you don't know an answer, don't hypothesize – it invariably causes more problems than it solves.
- Present information in a clear and straightforward manner. Don't try to "spin" an answer.
- Do not suggest possible causes or assign blame, leave this to the post event investigation.
- Do not estimate the monetary impact of the damage and remember, the value of one life far exceeds the value of any property. The financial impact will be determined in the period following the crisis and it is useless to speculate about it during a crisis.
- If a reporter or guest states something that is clearly untrue, it is acceptable to say "that is not true" but avoid arguments. In emotionally charged times, arguments benefit no one.
- If a reporter attempts to question you outside of a formal briefing in front of a crowd, do not respond. Rather offer to speak to the reporter one on one.
- Never release information on the names or circumstances surrounding the death or injury of a victim. That will be handled at a later point.
