

Terms and Conditions of Engagement and Authorization to Commence Work

The undersigned (the "Customer") hereby engages Precision Concrete Cutting ("PCC") and agrees to the terms and conditions set forth below. Despite PCC's reasonable efforts to locate trip hazards, errors and omissions may occur. As such, PCC does not represent or guarantee that it identifies or removes all requested trip hazards. In addition, PCC only performs certain trip hazard repairs. Among other things, PCC does not remove and replace sidewalk slabs (R&Rs) and does not repair certain ATTNs (e.g. utility boxes). Furthermore, to preserve clients' budget, PCC typically does not perform any repair at and around any sidewalk slabs that require to be replaced. Also, it is recognized that after completion of the contract, trip hazards may and frequently do continue to move naturally over time due to roots, ground settling or other causes. PCC is not responsible for movement or changes in the sidewalks and is not liable for any related claims, losses, damages, or liabilities thereto pertaining.

It is the Customer's responsibility to provide proper access and PCC assumes no liability for trip hazards that cannot be identified or repaired due to parked vehicles or other obstacles preventing safe and practical access. In this case, PCC will return one extra time to complete the repairs and will charge a fee of up to \$250 per mobilization. Similarly, if repair work cannot be performed on any of the agreed upon working dates, PCC will charge a rescheduling fee of up to 10% of the contract value, except if PCC is provided with a 3+ business day notice or if due to weather conditions.

Pricing is valid for 90 days and is based on the volume of work represented in the proposal. If the sidewalk assessment is more than 12-month-old at the time of signature of the contract, there will be a 10% price increase allowance to provision for possible increases of trip hazard measurements. Should Customer decide to reduce the volume of work by more than 20%, a unit price increase of 10% may apply. Payment terms of invoices are 15 days unless otherwise stated. Contracts greater than \$25,000 are invoiced monthly.

By signing below, I attest that I have read the above statements, understand them completely, and agree. I confirm that I am duly authorized to sign this agreement on behalf of the Customer. By my signature, PCC is approved to complete the work detailed in this proposal in accordance with PCC's schedule and pricing below and attached. Also, payment of PCC's invoice(s) will confirm that I have inspected PCC's work and that it was performed to my satisfaction.

In addition, PCC only performs certain trip hazard repairs. Among other things, PCC does not remove and replace sidewalk slabs (R&Rs) and does not repair certain ATTNs (e.g. utility boxes). Furthermore, to preserve clients' budget, PCC typically does not perform any repair at and around any sidewalk slabs that require to be replaced. Also, it is recognized that after completion of the contract, trip hazards may and frequently do continue to move naturally over time due to roots, ground settling or other causes. PCC is not responsible for movement or changes in the sidewalks and is not liable for any related claims, losses, damages, or liabilities thereto pertaining.

It is the Customer's responsibility to provide proper access and PCC assumes no liability for trip hazards that cannot be identified or repaired due to parked vehicles or other obstacles preventing safe and practical access. In this case, PCC will return one extra time to complete the repairs and will charge a fee of up to \$250 per mobilization. Similarly, if repair work cannot be performed on any of the agreed upon working dates, PCC will charge a rescheduling fee of up to 10% of the contract value, except if PCC is provided with a 3+ business day notice or if due to weather conditions.

Pricing is valid for 90 days and is based on the volume of work represented in the proposal. If the sidewalk assessment is more than 12-month-old at the time of signature of the contract, there will be a 10% price increase allowance to provision for possible increases of trip hazard measurements. Should Customer decide to reduce the volume of work by more than 20%, a unit price increase of 10% may apply. Payment terms of invoices are 15 days unless otherwise stated. Contracts greater than \$25,000 are invoiced monthly.

By signing below, I attest that I have read the above statements, understand them completely, and agree. I confirm that I am duly authorized to sign this agreement on behalf of the Customer. By my signature, PCC is approved to complete the work detailed in this proposal in accordance with PCC's schedule and pricing below and attached. Also, payment of PCC's invoice(s) will confirm that I have inspected PCC's work and that it was performed to my satisfaction.
