OVERVIEW

1. Describe how the A-G Completion Improvement Grant funds will increase or improve services for unduplicated students to improve A-G eligibility:

Mt. Diablo Unified School District (MDUSD) plans to utilize A-G Improvement funds to increase or improve services for unduplicated students to improve A-G eligibility through the following efforts:

- Provide student and parent/guardian workshops and resources in their primary language to increase understanding of A-G eligibility and completion
- Incorporate an A-G presentation annually to every student beginning in 9th grade (i.e. during advisory or other identified class) and early exposure during 8th grade
- Develop **additional** comprehensive plans and support by College and Career Advisors **to address AOG access and learning loss** for unduplicated students to improve A-G eligibility. **Counselors provide academic advisement and 4-year plan support and planning.**
- Expand opportunities for credit recovery and to retake an A-G course if a student earned a “D”, “F”, or “No Credit” (NC) in an A-G course
- Increase the number of A-G courses available to students.
- Create a recognition program to highlight A-G completion and college week
- Explore and increase student access to programs that can help students with college and career planning (i.e. California Career Zone, CaliforniaColleges.edu, Naviance)
- Provide professional development to staff on A-G eligibility, completion, and improving access for students
- Expand community partnerships for college and career exploration and readiness

2. Include information about the number of students identified for opportunities to retake courses (i.e., students who received a grade of “D,” “F,” or “Fail” in an A–G approved course in the spring semester of 2020 or the 2020–21 school year):

Mt. Diablo Unified School District (MDUSD) has identified 2,695 9th-12th students who received a grade of “D” or “F” in an A-G approved course in the 2020/21 school year who may need the opportunity to retake an A-G approved course.

All students are provided opportunities for credit recovery in which a grade of “D” or “F” is earned. Credit recovery is available during the school year, summer school, and at Mt. Diablo Adult School. Furthermore, credit recovery is also available at Mt. Diablo and Ygnacio Valley High Schools credit recovery through the expanded learning program after school.

3. Include information regarding how the services supplement, not supplant, services identified in the LEA’s LCAP, In-Person Instruction Plan, and Expanded Learning Opportunities Grant Plan:

Mt. Diablo Unified School District (MDUSD) proposed services supplement, not supplant, services identified in MDUSD’s LCAP, In-Person Instruction Plan, and Expanded Learning Opportunities Grant Plan. The A-G Improvement Grant will provide services that are new and/or expanded support, advisement, and outreach to students and parents/guardians as well as increased professional development to staff aligned to district goals.

MDUSD intentionally aligns all district plans and resources to the district’s focus areas of Educational Equity, Accelerated Learning, and Social Emotional Learning and Wellness and MDUSD’s Local Control Accountability Plan (LCAP). The three LCAP goals (1) All students will receive a high quality education in a safe and welcoming environment with equitable high expectations, access to technology, and instruction in the California State Standards that prepare them for college and career; (2) High quality, culturally proficient, and responsive staff will provide engaging instruction respectful of all students’ backgrounds to ensure they are college and career ready; and (3) Parents, family and community will be informed, engaged and empowered as partners with Mt. Diablo Unified, supports student learning, providing the framework (goals, actions, and outcomes) based on needs of students, staff, and community. Furthermore, the MDUSD Expanded Learning Opportunities Grant (ELO-G) Plan provided one time funds to support in person learning, expanding and accelerating learning, integrating supports, credit recovery opportunities and professional development. The A-G improvement grant will build upon the services and support provided by ELO-G.

4. Include a description of the extent to which all students within the LEA, and particularly unduplicated students, will have access to A–G courses approved by the University of California:

All Mt. Diablo Unified School District (MDUSD) students have access to A-G courses approved by the University of California during their four years of high school. The services listed above will help to further improve opportunities for students, including low income, foster youth, homeless, and emerging bilingual students, to have access to A-G approved courses.

5. If your plan addresses additional credit recovery needs, provide a description:

Mt. Diablo Unified School District (MDUSD) currently offers credit recovery opportunities primarily for 11th and 12th grade students during the school year and summer school. MDUSD will expand opportunities for credit recovery as a way for all students to meet A-G eligibility and meet graduation requirements.
